FINANCIAL DEPARTMENT.

—

No. 16G.

Fort William, the 27th September 1862.

Extract from a Resolution of the Government of India, in the Financial Department, under date the 27th September 1862.

His Excellency the Governor General in Council observes, that if a Military Officer in Civil employ were now to be required to act for an Officer of the Education Department, and perform his own duties in addition, his allowances would be regulated by the Orders passed in this Department on the 25th June 1861, provided the Absentee for whom he officiates be a Military Officer also. But should the Absentee be a Civil Servant, Covenanted or Uncovenanted, the acting Military Officer would draw his allowances under the Covenanted Civil Absentee Rules, which do not admit of the grant in such cases of any extra remuneration beyond what would be allowed to an Officer who, officiating for an Absentee, is relived of his substantive duties.

(Financial Department Order, No. 2769, dated 26th August 1862.)

Published by Order of His Excellency the Governor-General in Council,

E. DRUMMOND,
Secy. to the Govt. of India.

MILITARY DEPARTMENT.

Fort William, the 29th September 1862.

No. 905 of 1862.—With reference to General Order by the Governor General, No. 194 of 31st May 1861, paragraph 12, revising the pay of the Native Cavalry of the Bengal Army, the following rules are published for the guidance of Commanding Officers and the Pay and Audit Departments:—

1. The pay of the Native Commissioned Officers is regulated by merit, so that the most deserving may enjoy the superior rates, whilst in matters of duty the rank and position of all remain unaffected.

The power of removing from the higher to the lower rates Officers who, through inattention and carelessness, cease to deserve the increased meritorious service pay, and also of advancing Officers to the higher rates on all occasions of vacancies, is vested in Commanding Officers; but whenever a Native Officer shall be disrated, the dates of disrating and of admission to superior pay are invariably to be recorded in the Muster Rolls.

2. A full record of the reasons for appointing or disrating will be entered in the Regimental Order Books, and such other Regimental record as His Excellency the Commander-in-Chief may direct.

3. The pay of existing Naib Ressaldars is fixed at (80) eighty Rupees per mensem, with effect from 1st June 1861.

4. The pay of a Woordie Major is fixed at (150) one hundred and fifty Rupees per mensem, with effect from 1st June 1861, inclusive.

This Officer is equally eligible with the Ressaidars for promotion to the grade of Ressaldar, relinquishing his appointment as Woordie Major on such promotion. He is also liable, at the discretion of the Commanding Officer, to be disrated to either of the lower scales of pay for the rank of Ressaidar, with or without forfeiture of the appointment of Woordie Major. In no case is the aggregate fixed allowance for the three Ressaidars and the Woordie Major to be exceeded.

5. The ordinary or net pay of the several grades of the Bengal Native Cavalry will be as follows, with effect from 1st June 1861, inclusive:—

		Rs.	As.	P.
Ressaldar	...	90	0	0
Ressaidar Woordee Major	... ...	60	0	0
Jemadar	...	30	0	0
Kote Duffadar	...	15	0	0
Duffadar Nishan Burdar Nagarchee Trumpeter	... ...	13	2	0
Sowar	...	9	6	0

6. The order marginally cited is cancelled, and the following distribution of the pay of Sowars is substituted:—

G. G. O. No. 50, dated 16th Dec. 1859

		Rs.	As.	P.
Net Pay	...	9	6	0
Contribution to Horse and other Regimental Funds	...	2	10	0
Horse Allowance	...	15	0	0
Total	...	27	0	0

7. Horse Allowance is fixed for all ranks at (15) fifteen Rupees per mensem, which is included in the consolidated pay of the several ranks, whatever number of Horses may be maintained. Native Doctors when actually serving with Cavalry Regiments are entitled to the same allowance in addition to their pay and other allowances.

8. Dates of casualties of Horses and of substitution of Remounts are invariably to be recorded in the Muster Returns in an explicit manner. The rule which directs discharge from the service of all men failing to remount themselves within three months is cancelled; but whenever it may be impracticable for them to remount themselves within that period, a certificate as follows must be attached to the Pay Bill:—

"I certify that every endeavour has been made "to provide a suitable Remount for (Number,

"Name, Rank, Troop), but without effect, on "account of (here state the cause.)"

9. Forge Allowance is sanctioned to all Regiments, at the rate of (60) sixty Rupees per mensem.

10. Men undergoing imprisonment by sentence of Court Martial, or summary trial, will continue to receive subsistence allowance at the rate of (2) two annas per diem from the Pay Department, but Horse Allowance will be passed in full.

11. All Furlough, and other men on leave shall be subject to the same amount of monthly stoppages on account of Regimental Funds and Establishments as those present with the Regiment, and in the case of a man on Furlough leaving his Horse at Head Quarters, the Horse Allowance shall be added to the other stoppages.

12. In the event of a Horse dying while absent with the owner on Furlough, or at Regimental Head Quarters during his owner's absence, only dismounted pay will be passed during the time the Soldier may continue dismounted.

No. 906 *of* 1862.—Articles 9 and 10 of Section XXV., Pay Code of 1849, are cancelled, and the following Rules substituted:—

Article 9.—The "Order of Merit" consists of three classes; for the third class, an increase of one-third; for the second, of two-thirds; and for the first class, of the full amount of net pay is sanctioned, over and above the pay of rank while serving, and in addition to Pension when invalided.

Article 10.—In the third class the increased pay will, as a general rule, be from the first, and always continue to be, irrespective of promotion, one-third of the net pay of the rank in which the act of valour was performed.

If, however, promotion shall be specially conferred upon a Soldier as a reward for such act of valour, either previous to his actual admission to the Order of Merit, or subsequently, as an additional reward, and with effect from the date of the act of valour, then the increased pay in his case is to be one-third of the net pay of the rank to which he may be promoted.

On promotion to a higher class of the Order, the additional allowance held in the lower grade will be surrendered.

No. 907 *of* 1862.—In continuation of Government General Order No. 810 of the 21st August 1862, it is hereby notified that the additional shares of Prize Money to be allotted to Officers, who held the following appointments in virtue of their Staff appointments, will be as follows:

JUDICIAL (CIVIL) DEPARTMENT.

No. 222A.

Nynee Tal, the 12th September 1862.

An instance having come to the knowledge of the Hon'ble the Lieutenant-Governor of an Officer of the Government permitting himself to accept the office of Arbitrator in a Civil Suit, and it being considered that such a proceeding is for various reasons objectionable, His Honor is pleased to prohibit Officers of Government from accepting the office of Arbitrator in any Civil action without the permission of the Government being first obtained. In any application for such permission, the circumstances of the case and the names of the parties must be stated, and the special reasons which may have led the Officer to entertain a request for his services as an Arbitrator must be specified.

Notification.

In cancellation of Notification of this Department, under date the 9th March 1861, relative to the Stamps required on Powers of Attorney either for the realization of interest on, or for the sale of Government Promissory Notes, notice is hereby given that Powers of Attorney executed after the passing of Act X. of 1862 must be on Stamped Paper of the value prescribed in Article 43, Schedule A. of Act X. of 1862.

Schedule A., 43.—"*Letter* or *Power* of *Attorney* not being of the kinds provided for in Schedule B." ... Rs. 4

"*If the letter or Power of Attorney be "for the performance of one act only, and "the value of the property to be dealt with "be expressed in the letter or Power and "do not exceed Rupees* 500 ... „ 1

Copy of the Standing Counsel's Opinion on the point, dated 10th September 1862, is subjoined:—

Opinion.

I entirely agree in the conclusions in the within letter of July 29th. It is very clear that Schedule B, Clause 8, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities; therefore the

Stamp to be required in all cases for Powers to draw interest executed after Act X of 1862 should be of (1) four Rupees except in the excepted instance at the end of Clause 43 of Schedule A, in which it ought to be a Stamp of one Rupee.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhie and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of them having held staff appointments and commands.

3 The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhie and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6 When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

MILITARY DEPARTMENT.

Fort William, the 1st October 1862.

No. 918 *of* 1862.—The following Promotions and Alteration of Rank are made:—

Department of Public Works.

To be a Supernumerary Deputy Assistant Commissary.

Conductor Edward J. Gillis ... From the 15th March 1861.

To be a Conductor.

Sub-Conductor Q. S. Griffiths From the 15th March 1861.

Sub-Conductor James Morron, promoted by Government General Order No. 856 of the 24th September 1861, is to rank from the 15th March 1861, instead of from the date therein specified, *vice* Sub-Conductor Griffiths.

No. 919 *of* 1862.—The following paragraph of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 399 of the 23rd August 1862, is published for general information:—

5. Captain L. J. Trotter, late 2nd European Regiment, has been permitted to retire from the Service from the 18th September 1860.

No. 920 *of* 1862.—His Excellency the Governor General in Council is pleased to direct that the following Troop or Company Allowance, as now drawn in Bengal and Bombay, shall be passed also in the Madras Presidency to Officers Commanding Troops and Companies of the Regular Army, *viz.*,—

	Per Mensem.
For a European or Native Troop of Horse Artillery, and for a Company of European Foot Artillery ...	Rs. 60 0 0
For a Troop of European or Native Cavalry, Company of Native Artillery, Sappers and Miners, and European and Native Infantry ...	Rs. 50 0 0

2. This contingent allowance is an indemnification for the Command of the Troop or Company for expenses for writing and stationery, and for repair of accoutrements and arms, including, in European Corps, all arms except the interchangeable Rifles.

3. In the Sappers and Miners the cost of repairing tools, under ordinary circumstances, will be met from the contingent allowance.

4. Compensation for loss of Troop or Company Command, when allowed, will be given at Rupees 30 (thirty) per mensem, which rate will govern also any forfeiture of Troop or Company Command money under the existing Rules.

5. The Troop allowance in a Regiment of Regular Cavalry, as exhibited above, is included in the Troop consolidated allowance of Rupees seventy-five per mensem, which was authorized for the European Cavalry in the Bengal Presidency by Government General Order No. 1547, dated 15th November 1858.

6. This Order will have effect from the date of its receipt by the different Corps concerned.

Notification.

In cancellation of Notification of this Department, under date the 9th March 1861, relative to the Stamps required on Powers of Attorney either for the realization of interest on, or for the sale of Government Promissory Notes, notice is hereby given that Powers of Attorney executed after the passing of Act X. of 1862 must be on Stamped Paper of the value prescribed in Article 43, Schedule A. of Act X. of 1862.

Schedule A., 43.—"*Letter* or *Power* of *Attorney* not being of the kinds provided for in Schedule B." ... Rs. 1

"*If the letter or Power of Attorney be for the performance of one act only, and the value of the property to be dealt with be expressed in the letter or Power and do not exceed Rupees* 500 ... „ 1

Copy of the Standing Counsel's Opinion on the point, dated 10th September 1862, is subjoined.—

Opinion.

I entirely agree in the conclusions in the within letter of July 29th. It is very clear that Schedule B, Clause 8, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities; therefore the

Stamp to be required in all cases for Powers to draw interest executed after Act X. of 1862 should be of (1) four Rupees except in the excepted instance at the end of Clause 43 of Schedule A, in which it ought to be a Stamp of one Rupee.

J. I. HARVEY,
Offg. Accnt.-Genl. to the Govt. of India.

FORT WILLIAM;
Loan Office,

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhie and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3. The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhie and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6. When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

MILITARY DEPARTMENT.

Fort William, the 7th October 1862.

No. 924 *of* 1862.—His Excellency the Governor-General of India in Council is pleased to direct, that, in future, the following Regulations shall be observed with regard to the daily allowance of Firewood for Hospitals.

2. In all ordinary circumstances, where the number of Patients is twelve, or more, the allowance of Firewood shall be restricted to two seers per man per diem.

3. In cases where the number of Patients is less than twelve, or where (in the Hills or in other places) the Firewood supplied is not tolerably dry and good, two and a half seers per man per diem may be allowed, or even three seers if necessary, but the cause which renders the increase necessary must be certified by the Medical Officer at the time, and the reason why better fuel cannot be or is not supplied is to be stated, in order that the increased expenditure may be passed by the Examiner of Medical Accounts or the Controller, as the case may require.

1. In the case of outbreaks of epidemic disease or other extraordinary circumstances, no fixed limits can be either assigned or observed, but in such cases Medical Officers will certify as to the necessity of the extra expenditure which may be incurred, stating distinctly all the circumstances of the necessity of such increase.

5. His Excellency in Council desires it to be noted, that the reported experience of Medical Officers has proved that the expenditure of Firewood in Hospitals may, by proper care, be generally, and often considerably, reduced below the limits above laid down, and it will be the duty of all Medical Officers to pay close attention to the

economical use of the Firewood which is issued for the use of Patients under their care.

REVENUE DEPARTMENT.

No. 1035A.

Nynee Tal, the 17th September 1862.

Mr. W. Tyrrell, Assistant to the Collector of Furruckabad, is invested with the powers of a Deputy Collector for the trial of suits under Act X. of 1859.

No. 1037A.

Whereas it appears to the Hon'ble the Lieutenant-Governor that land is required to be taken up by Government at the public expense for a public purpose, *viz.* for the Shamlee Tehseel Buildings in the District of Meerut, it is hereby declared that a piece of land at Shamlee, measuring about 4 acres, is required for the above purpose.

This Declaration is made under Section II., Act VI. of 1857.

No. 1042A.

With reference to paragraphs 8 to 37 of the Resolution of His Excellency the Viceroy and Governor General in Council, No. 3264, dated 17th October 1861, relative to the sale of waste lands in Fee-simple, as modified by the Despatch of the Right Hon'ble the Secretary of State, No. 11, (Revenue), dated 9th July 1862, the Hon'ble the Lieutenant-Governor is pleased to publish, for the information of all concerned, the following revised Rules of Procedure which have been prepared by the Sudder Board of Revenue, North-Western Provinces, and have received the approval of this Government :—

Rules of Procedure.

The attention of all Officers in charge of Districts containing unassigned waste lands is directed to the first portion of the Revenue Resolution of the Viceroy in Council No. 3264, dated the 17th October, to the provisions of which, as modified by the further Orders of the Supreme Government, dated 15th August 1862, No. 4206, they are required to give full and immediate effect.

2. The Collector should at once proceed to prepare a Statement of all special tracts reserved from the operation of this Circular, under paragraphs 23 and 24 of the first named orders, as being required for Forest purposes, for grazing, or firewood preserves, for building sites, or for any other public object. This Statement should be exposed in his Office, and facilities should be given to intending applicants to make themselves aware of its contents.

3. When an application for the assignment of a specific tract of waste land is received, the Collector will first consider whether any objection, or special limitation, is required by reason of the land being required for any of the above named purposes, and in the event of such being the case, and the applicant still prosecuting his demand, the Collector will report the matter for the information of the Commissioner.

4. In other cases he will at once proceed to enquire whether the land applied for is encumbered by any prior claim of property or occupancy.

5. Where it is evident that there exist rights of property, or of exclusive occupancy, either active or latent, the applicant will be informed that the case cannot be taken up under the Grant Rules, excepting in favor of the party originally possessed

of those rights, or who has purchased them from such party. "It will be an important part of the Collector's duty to make certain that any transfer of such rights shall have been made with a complete and fair understanding on the part of all concerned."

6. In case of there being any doubt as to whether existing rights are of the exclusive character necessary to bar alienation, the Collector will report the case through the Commissioner to the Sudder Board of Revenue. If the rights claimed, though not exclusive, should appear to the Sudder Board of Revenue to be such rights of pasturage, wood cutting, turf cutting, &c., as commonly obtain in the Hill Districts, and are entitled, as "existing rights XX in a rude form," to protection under paragraph 6 of the Resolution of the Governor General in Council, No. 3264, dated the 17th of October 1861, the Board will instruct the Collector to endeavor to bring the applicant for the Grant, and the parties who possess a right to use the spontaneous products of the soil within the tract applied for, to a mutual agreement as to the terms upon which (if any) an hereditary and transferable property in the soil may be given to the former, subject to the exercise of their customary rights by the latter. If an amicable arrangement be come to the Collector will report the particulars for the information and sanction of the Sudder Board of Revenue. Otherwise the Collector will proceed to estimate the value of the prescriptive rights, as above, on a liberal basis, and will submit the case, through the Sudder Board of Revenue, to the Government in view to the payment of full compensation.

7. Where no claims of the nature supposed are known to exist, the Collector will calculate the cost of surveying the Grant, and of erecting durable pillars of demarcation. This will be at the lowest rate for which land of the nature applied for is ordinarily surveyed in the District. But provision must be made for the measurement being accurately conducted on the plane table system, and in such wise that a correct estimate may be formed of the amount of land "uncultured," and of the amount "unencumbered with jungle," as also of the portion which may fairly be held to be unculturable. A scale of charges of Survey should be prepared and hung up in the same way as the Statement referred to in paragraph 2. The Collector will submit a copy of this scale to the Commissioner for the approval of the Board.

8. No allotment as above will be made exceeding 5,000 acres; and in the Hill Districts no grant of Tea lands shall exceed 2,000 acres. Where any special reason may exist against the assignment of so large an area, such a proximity to a Station, &c., and the Grantee may not be content with a smaller area, the Collector will report the case for orders, with his opinion as to the degree of farther limitation which is called for.

9. When the cost of Survey has been paid in the Survey will be proceeded with forthwith, and no time should be lost in the erection of the boundary pillars.

10. Where an Estate has been already surveyed and marked off this portion of the operations will, of course, be disposed with, and no charge will be made against the applicant further than is necessary to secure an accurate plan of the new Estate with the requisite boundary marks.

11. On the completion of the demarcation and Survey, or, in the case of surveyed land, immediately on the boundaries of the proposed Grant being marked by substantial pillars, the Collector will issue an advertisement, describing the land to be sold, stating the upset price, and specifying the place and date of sale. The period of the advertisement will be for not less than thirty days. The upset price will be fixed at Rupees 5 for cultivated and Rupees 2-8 for uncultivated land, unless for some special reason (such as proximity to a Station, valuable timber being on the land, &c.,) that rate be held to be inadequate; in the latter case the Collector will report what upset price he thinks proper, and on its being confirmed by the Board, he will prepare his advertisement accordingly.

12. The advertisement will be published in the *Official Gazette* and in two up-country newspapers, and the Collector will also cause an Istemar to be stuck up in his Office, and in the Police and Revenue posts nearest to the property, as well as in any villages on the land, or adjoining thereto. He will also, where he deems it advisable, have the purport of the application verbally explained to the inhabitants of those Villages, and to any other parties likely to be interested in the Grant.

13. Any objections to the Grant will be carefully considered and disposed of on their merits. If they are held to be valid the sale will be stayed, and the circumstances reported through the Commissioner to the Board.

14. At the sale, which will be conducted on the usual footing of an auction sale, the land will be assigned to the person offering the highest price; or, in the event of no competitors, to the applicant at the upset price, the cost of Survey (if made) being added in both cases. In case the applicant is not the purchaser, all monies paid by him on account of Survey will be forthwith refunded to him.

15. Immediately on conclusion of the sale the purchaser will pay down one-tenth of the sale price. On this payment being made the Collector will at once deliver the Deed of Grant (Form A), with plan of the Estate, to the Grantee, and will enter his name in the District Records as proprietor of the Grant. Possession will at the same time be given.

16. Wherever it may seem necessary to make any reservation of the rights of Government, under paragraphs 12 and 13 of the Resolution, the Collector will report the circumstances for the orders of the Commissioner.

17. Grants, which have already been given for a term of years at progressively increasing rents, will be treated as if the land were permanently settled, if the holder wishes to redeem the future land revenue, at the highest rate fixed for any year during the currency of the Grant, provided there is no right of occupancy other than that of the Lessee, or that derived from him. The rates for redemption will be calculated according to the market rate of four per cent. Government Securities at the time being, as directed in paragraph 75 of the Despatch of Her Majesty's Secretary of State.

18. As laid down in paragraph 11 of the same Despatch, the title acquired, by sale, under the Rules now promulgated is to be held subject to the provisions of any legislative enactment which may hereafter be passed for disposing of the claims of third persons subsequently preferred.

19. From the date of the Deed of Sale three months will be calculated, and whatever balance

of purchase money is found to be then unpaid, will be entered as an arrear against the Grantee, who is to be charged with ten per cent. per annum on such arrear. This charge should be treated in the same manner as a demand of Land Revenue, liable on default to the same measures for recovery of arrears.* The amount should be demanded twice a year with the May and November instalments, and should be entered at the foot of the Pergunnah Towzee in the same manner as Land Revenue, though the amount "being subject to diminution on each further payment" will not be added to the Rent Roll of the District.

* "The land will be held liable to re-sale in default of the regular payment of such interest should there be no crop or other moveable property on the land from which the claim of Government can be satisfied."

20. Each Grant will be reported through the usual channel for the information of Government immediately on the Deed being delivered to the Grantee.

21. Every six months a Report will be submitted of any sums that may have been realized within the period as purchase money. This must be carefully drawn up, in order that the provisions of paragraph 56 of the Resolution may be carried into effect. A copy of the six Monthly Report will be simultaneously sent to the Deputy Auditor and Accountant-General.

22. In the Annual Administration Report the amount so realized within the year, and the total amount from the commencement of the system up to date will be noted, and also the sum realized as interest on unpaid balances of purchase money.

23. A separate Register of all Grants made under these Rules will be carefully maintained in the following Form in the Collector's Office both in English and in the Vernacular. No transfer of proprietary right will be recognized by the Revenue Officers of Government unless duly registered, after having been acknowledged by the transferee in person or by duly authorized Agent before the District Officer or one of his Assistants:—

Number.	Number of Grant.	Name of Grantee.	Purchase Money.	Payments in instalments with dates of receipt.	Date of Deed of Grant.	Subsequent registered transfers and successions.

The Maps or Plans of all Grants sold under these Rules will be kept in a series corresponding with the numbers in this Register.

24. All previous Circular Orders on the subject of Grants of waste land are hereby cancelled. Future applications will be disposed of under the present orders.

A.

Form of Grant.

Know all men by these presents that the Government, North-Western Provinces, has conferred on ————, his Heirs, Executors, Administrators, and Assigns, the Grant of a tract of land measuring British Statute acres ————, situate in ————, to be holden by him in full proprietary right subject to the following conditions:—

I. The purchase money for this Grant of Rupees ————, of which Rupees ———— have been already paid. On the*—— ——, if the entire purchase money has not been paid up, interest at ten per cent. per annum will be charged on the balance, and thereafter, until the entire purchase money be paid up, such interest will be chargeable on all unpaid arrears of the purchase money, and all payments by the Grantee shall be first carried to the credit of any outstanding arrear of interest due on such purchase money.

* Enter the date calculated three months from date of this Deed.

II. Arrears of interest shall be treated in the same manner as arrears of Land Revenue, and shall be subject to the same measures of realization.

III. No transfer of proprietary right will be recognized by the Revenue Officers of Government unless duly registered; and no transfer of interest or creation of new interest in the Grant beyond a lease of three years, without an acknowledgment by the transferee in person, or by authorized Agent, before the District Officer, or one of his Assistants.

IV. The right of way heretofore enjoyed by the public in roads now existing in the Grant is not to be interfered with. The Grantee is to pay a contribution of one Rupee per annum for every thousand Rupees of purchase money in lieu of all demand of the State for aid in repairing the high roads, he will have no claim on the Government for making or repairing private roads.

V. The Grantee is to erect permanent boundary marks round his Grant, and to keep them in a state of repair.

VI. The Grant conveys the plenary right to all products both above the surface and below the same. [Here any exceptions which may have been approved by Superior Authority to be noted].

VII. For the preservation of the public peace the Grantee shall, at the requisition of the Magistrate, maintain a Chowkeedar for every sixty houses or families resident in the Grant. The Chowkeedar shall receive Rupees 3 per mensem. For every three Chowkeedars there shall also be maintained by the Grantee a Goryt or Reporter at a salary of Rupees 2 per mensem.

VIII. Arrears on account of Road Fund or Chowkeedar's salary may be realized by distraint of the crops or other property of the Grantee.

IX. The prescriptive rights of other proprietors in streams running through, or bounding the estate will be maintained for purposes of irrigation or navigation, and for the transport of timber or other property, and for other purposes of general utility. The Government reserves to itself the right which it everywhere possesses over all such streams, whether for purposes of irrigation or navigation, and whenever it sees fit can assume the control of the waters and distribute them in such manner and on such conditions as may seem most conducive to the public good.

X. The lands included in this Grant are shown in the subjoined Table.—

Number of Map	Number of Grant	Name of Grant	Name of Grantee	Area in Acres	Deduct irremediable barren Area	Remaining habitable Area	Area encumbered with	Reserved for	Purchase Money.

No. 1043A.

Under paragraph 26 of the Despatch of Her Majesty's Secretary of State, dated the 9th of July last, a discretion is granted to the Local Government to allow redemption of the Land Revenue in respect of "lands required for dwelling-houses, factories, gardens, plantations and other similar purposes." This permission extends "to portions of land comprised within Zemindaries, the jummah of which is not redeemed, a proportionate reduction being, of course, made in the jummah payable to the Government."

2nd.—Under this authority the Government will be prepared to receive applications from the proprietors of lands of the nature above indicated, for the commutation, by a single payment, for ever of the Land Revenue assessed thereon.

3rd.—The price to be paid will, under paragraph 75 of the same Despatch, be fixed according to the actual value at the time being of Government Four Per Cent. Securities.

4th.—Under paragraphs 35 and 75 of the Despatch redemption will only be allowed where the revenue is found to be fairly assessed, otherwise "a full, fair, and equable rent" will be imposed as a necessary preliminary to the measure.

No. 1771A.

Nynee Tal, the 17th September 1862.

The following letter, addressed to the Civil Pay Master of the North Western-Provinces, is published for the information and guidance of all Officers submitting applications for Pensions in behalf of their Subordinates:—

No. 1770A.

FROM SIR GEORGE COUPER, *Bart.* AND C. B.,
Secy. to Govt., N. W. Provinces,

TO L. C. PROBYN, ESQ.,
Offg. Civil Pay Master, N. W. Provinces,
Allahabad.

Dated Nynee Tal, the 17th September 1862.

SIR,—I am directed by the Hon'ble the Lieutenant-Governor to request that whenever you are unable to test any portion of the service of an applicant for Pension, you will return the Pension Roll to the sending Officer with an intimation to that effect, and with a request that before forwarding the application to Government, he (the said Officer) will cause the untested service of the applicant to be established by his affidavit, or by authentic documents, and will further call upon the applicant to certify that he has held a substantive office during such period of untested service, and has not merely acted as "an occasional substitute for another."

No. 1789A.

Nynee Tal, the 20th September 1862.

The following Resolution of the Government of India, in the Financial Department, is re-published for general information:—

No. 5250.

Extract from the Proceedings of the Government of India, in the Financial Department, dated 29th March 1862.

From BABOO SREENAUTH GHOSE, Assistant, East Indian Railway, Rajmehal, to C. H. LUSHINGTON, Esq., Secretary to the Government of India, Financial Department, Calcutta, dated 15th February 1862.

I MOST respectfully beg the favor of your submitting this my application for a gratuity for the kind consideration of His Excellency the Governor-General of India.

After a faithful service of upwards of ten years in the Government Savings Bank, as the enclosed copy of a Certificate from J. I. Harvey, Esquire, the Secretary of the Bank, will testify, I was thrown out of employ in consequence of the abolition of the Military Branch of the Bank. I had to remain unemployed for some months before joining the present temporary post at the Office of the Resident Engineer to the East Indian Railway Company at Rajmehal. A Certificate in original from whom, as to the date of my employment I beg also to enclose. But the Secretary to the Government Savings Bank hearing of my having obtained an employment omitted my name from the revised list of discharged Officers recommended for gratuity, without being aware, perhaps, of the *precarious nature* of the appointment or the *interval* after which it was obtained.

I beg therefore humbly to urge that as I had to remain unemployed for some months, and instances are not rare of persons joining permanent appointments even in a Government Office a day or two after (and sometimes before) drawing the gratuity allowance, His Excellency will be pleased not to debar me from a benefit now accorded to all who, after a service of several years in a Government Office, have the misfortune of remaining unemployed for some months.

His Excellency may be pleased to consider that if the Secretary's recommendation had been submitted to him only six months after the loss of my appointment (instead of one year), there would have been no bar to my receiving a gratuity; and that the fact of a temporary employment under a private Company after eight months cannot disqualify me, therefore, from availing of the usual award.

Under the above considerations, His Excellency may be kind enough to do justice to me, otherwise the loss of so many years' Government service will be keenly felt.

In conclusion I humbly pray that the original Certificate when no longer required may be returned to me, together with the favorable orders of His Excellency.

No. 16 of 1861-62.

CERTIFIED that Sreenauth Ghose was employed as a Ledger Keeper, Dispatcher, and subsequently an Examiner in the Military Branch, Government Savings Bank, for a period of ten years, five months and thirteen days, from 6th May 1850 to 19th October 1860; that he is active and well-behaved, and that his intelligence and business habits were highly satisfactory.

He has lost his situation owing to the abolition of the Military Branch on 19th October 1860.

H. C. DUTT,
Auditor and Accountant.

BABOO SREENAUTH GHOSE was employed for three or four years under me in the Government Savings Bank when I was Actuary, and I have much pleasure in certifying that he always performed the work entrusted to him satisfactorily. He is intelligent and laborious. I shall always be happy to hear of his welfare in life.

Fort William, the 25th February 1862.

Forwarded to the Civil Pay Master, Calcutta, for report. Original papers to be returned.

CIVIL PAY MASTER'S OFFICE.

Fort William, the 8th March 1862.

ON a reference to the Books of this Office, Baboo Sreenauth Ghose appears to have been continuously employed in the Government Savings Bank from 6th May 1850 to 19th October 1860. He drew a monthly salary of Rupees 50 at the time of his discharge.

FINANCIAL DEPARTMENT.

Fort William, the 29th March 1862.

RESOLUTION.—The Governor-General in Council observes that the name of Baboo Sreenauth Ghose appears in the Statement submitted by the late Sub-Treasurer, of the Clerks, &c., who were discharged on the abolition of the Military Branch of the Government Savings Bank, but that Officer did not recommend the grant of a gratuity to the present applicant on the ground that he had received *employment under the Railway Company*. It is now stated by the applicant that he obtained this employment *eight* months after the abolition of his Office, which fact, His Excellency in Council thinks, entitles him to a gratuity, seeing that under the Rules a gratuity is grantable if a servant is out of employ for six months after his discharge.

But His Excellency in Council observes, the Sub-Treasurer's reason for excluding Sreenauth Ghose from his recommendation for a gratuity raises a question as to whether *private* employment within the usual six months, or after, can be held to debar a servant from any claim to a gratuity. From the tenor of the Orders passed in this Department on the 26th February 1858, in the case of Mr. E. D'Souza, Head Clerk and Examiner in the Chief Engineer's Office, Madras, His Excellency in Council observes that a servant of Government can be debarred from a gratuity only when he is provided with Government employment within the usual six months, so that his employment whether in a *Government* Office *after* that time or in a *private* Office *within* or *after* that time cannot bar his claim to gratuity. The present applicant was therefore clearly "out of employ," in the sense in which the terms are used in the Rules, at the time that Mr. Harvey applied for gratuities for the Assistants of the Savings Bank, and should have then received his gratuity. His Excellency in Council is accordingly pleased to sanction the grant to him of a gratuity of four months' pay.

Copy of the Standing Counsel's Opinion on the point, dated 10th September 1862, is subjoined:—

Opinion.

I entirely agree in the conclusions in the within letter of July 29th. It is very clear that Schedule B, Clause 8, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities; therefore the

Stamp to be required in all cases for Powers to draw interest executed after Act X. of 1862 should be of (4) four Rupees except in the excepted instance at the end of Clause 48 of Schedule A, in which it ought to be a Stamp of one Rupee.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhie and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3. The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhie and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6. When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

Cultivation of Flax and of the Neilgherry Nettle in the Madras Presidency.

From the Right Hon'ble the Secretary of State for India, to His Excellency the Hon'ble the Governor in Council of Fort St. George,—(dated London, the 30th August 1862.)

I HAVE received and considered in Council your letter dated May 24, (No. 36,) 1862, forwarding papers respecting the cultivation of Flax in the Districts of the Madras Presidency and of the Neilgherry Nettle.

2. Flax appears to be cultivated to a very limited extent, and it is not likely that the Ryots will be induced to engage in its cultivation on a large scale. At the same time there are good grounds for the belief that private Companies or individuals might undertake the cultivation of Flax in the Madras Presidency with as hopeful a prospect of success as in the Punjab, and it is therefore very desirable that experiments tending to demonstrate the probability of such results should receive every encouragement from your Government.

3. I have read Mr. McIvor's Report on the cultivation of the Neilgherry Nettle with much interest. There is now no doubt that this plant yields a fibre of great value. Messrs. Noble, the well known Fibre Brokers, have valued the samples of Neilgherry Nettle at £80 per ton, and they add that £60 per ton may be calculated on for this fibre for some time to come.

4. Mr. McIvor's experimental cultivation is therefore of great practical utility, tending as it does to disseminate a knowledge of the proper treatment of the plants, and of the value of the fibre amongst the Planters and other inhabitants of the Hill Districts in your Presidency.

5. I am glad to be able to add that Mr. McIvor has received a Medal from the Commissioners of the International Exhibition for his Neilgherry Nettle Fibre.

Notification.

IN cancellation of Notification of this Department, under date the 9th March 1861, relative to the Stamps required on Powers of Attorney either for the realization of interest on, or for the sale of Government Promissory Notes, notice is hereby given that Powers of Attorney executed after the passing of Act X. of 1862 must be on Stamped Paper of the value prescribed in Article 43, Schedule A. of Act X. of 1862.

Schedule A., 43.—"*Letter* or *Power* of *Attorney* not being of the kinds provided for in Schedule B." ... Rs. 4

"*If the Letter or Power of Attorney be* "*for the performance of one act only, and* "*the value of the property to be dealt with* "*be expressed in the Letter or Power and* "*do not exceed Rupees* 500 ... „ 1

Copy of the Standing Counsel's Opinion on the point, dated 10th September 1862, is subjoined.—

OPINION.

I entirely agree in the conclusions in the within letter of July 29th. It is very clear that Schedule B, Clause 8, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities; therefore the

Stamp to be required in all cases for Powers to draw interest executed after Act X. of 1862 should be of (1) four Rupees except in the excepted instance at the end of Clause 43 of Schedule A, in which it ought to be a Stamp of one Rupee.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhie and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3. The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhie and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6. When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

Government of Bengal.

Report on the Police Administration of the Town of Calcutta for the Year 1861-62

From S WAUCHOPE, Esq., C B, Commissioner of Police, Calcutta, to the Secretary to the Government of Bengal,—(No. 878, dated the 6th September 1862)

SIR,—I HAVE the honor to submit, for the consideration and orders of the Hon'ble the Lieutenant-Governor of Bengal, a detailed Statement of crime in Calcutta for the year ending 30th April 1862, embracing the results of all cases brought before the Magistrates of Calcutta by Summons as well as those in which the Police have brought up persons charged with offences, together with a Statement of crime during that year as compared with 1860-61, and beg to offer the following remarks.

2. MURDERS.—Three murders were reported to the Police during the year.

1860-61	5
1861-62	3

The first was that of a collecting Sircar named Sreenath Chatterjea, who was murdered on the evening of the 8th September in a street a little to the north of the Mint while returning home. The murder was evidently for the sake of a bag containing Rupees 500 he had with him, which the assassins failed in carrying away, escaping, however, from the Police into dark lanes, and, as it afterwards appeared, out of the Town.

There was a large number of Natives close to the spot, but none made any attempt to seize the murderers.

The two persons concerned, named Bholanath Khettree and Gunness Aheer, were arrested in December and March, the latter in Benares; but at the trial in the Supreme Court, as the Jury considered that there was not sufficient evidence, no conviction followed. This was a most unsatisfactory case. The Chowkeedar, whose beat was at the mouth of the dark lane up which the murderers ran, had been removed on the reduction of the Police a short time previously; but the whole affair occurred in so short a space of time that it was all over before a European Inspector, who was on duty within two hundred yards, arrived at the spot. That Gunness and Bholanath were the murderers there can be no moral doubt; but after once getting clear away, I confess I had no hopes of obtaining a conviction, as it was impossible to procure evidence against them.

In the next murder Munnooah Khan, a Khalassie, in a drunken squabble, stabbed another, named Khoda Bux,

between the shoulders, causing immediate death. He was arrested, tried, and transported for life.

The third, in which Narain Doss, the Gomastah of a Shawl Merchant, was murdered by Kaleechurn Khettree, a Shawl Broker, was about the most cold-blooded murder I ever heard of. As I have given a full report of the case in my letter No. 365 of the 11th April last, to your address, I need only here state that Kaleechurn Khettree, in order to get possession of a number of Shawls, inveigled Narain Doss to a house where he had previously prepared a grave, and then murdered and buried him. In the grave a large quantity of Salt had been placed, Kaleechurn believing, as he himself informed me, that the features of his victim would thereby be quickly destroyed. The Police in this case behaved well, recovered the Shawls, and proved the murder against Kaleechurn, who was executed on the 14th April 1862.

3. Manslaughter.—Eight cases of

1860-61	7	manslaughter were
1861-62	.. 8	reported during the

year, in which seven persons were convicted. One of these was the Manjee of a boat bringing a Lady to Calcutta, who was drowned owing to his gross neglect and carelessness, by which the boat fouled a buoy and upset. The Manjee was sentenced to one year's imprisonment, but the boatmen, who were also committed to take their trial, were acquitted.

A Native Police-man was wounded above the eye by a piece of brick thrown at him in a disturbance. No danger was at first apprehended, but he died of tetanus caused by the injury inflicted. The person who threw the brick could not be identified.

Charles Kooray, a Serjeant of Police, while taking a Deserter from Her Majesty's 75th Regiment ashore in a Dinghee, was pushed by his Prisoner, and losing his balance fell overboard and was drowned. The Deserter jumped overboard to rescue the Police Officer and was with difficulty saved himself. He was committed to take his trial, but was acquitted.

4. I am obliged to insert in my Statement all cases in which persons are arrested; but, of the eight reported, there were three in which I can hardly say that any offence was committed. That in which the Police Serjeant referred to above was drowned is one. In another a firework-maker accidentally set fire to some composition used in his trade and blew up his two children, who died in consequence, and in a third a child was knocked over and killed by a man named Bahadoor who was driving a restive horse.

5. Cutting and Wounding.—Five

1860-61	5	cases of cutting and
1861-62	.. 5	wounding were re-

ported during the year: at one time this offence was very common, generally arising from drunken brawls in Punch Houses and low Coffee Shops, where the Police had no control. The best results have followed the closing all Liquor Shops at sunset, and I attribute the decrease in cutting and wounding chiefly to this as well as to the Police taking every opportunity of disarming seamen of their clasp knives and other offensive weapons. There has also been a great decrease in the number of those who are generally called "Loafers," a European population living by crime. In January 1861 I had occasion to make some enquiries regarding this class, and ascertained that there were then in Calcutta at least three hundred Europeans and Americans without ostensible means of livelihood, many of them old offenders. Of these there are not ten remaining. It is difficult to say what has become of the remainder; but I have reason to believe that a very large proportion are scattered over the North-West Provinces, the Punjab, and other parts of India, where they can make an easier and more profitable livelihood than in Calcutta, where they are well known to the Police.

6. Highway Robbery.—There has

	Number of Cases.	Value of Property stolen.	Value of Property recovered.
		Rs. As. P.	Rs. As. P.
1860-61	3	103 0 0	80 0 0

only been one case of highway robbery. A Soldier of Her Majesty's 75th Regiment while under the influence of

liquor, broke open a box containing Official Despatches while carried across the Mydaun in the evening by a Chuprassie in the Foreign Office Department. The Soldier was immediately arrested by the Police on duty, and was sentenced to eighteen months' imprisonment with hard labor.

7. BURGLARY.—The Return of property stolen and recovered in cases of burglary during the year is apparently most unsatisfactory. Nearly the whole amount, however, was stolen in the robbery on the premises of Messrs. Thacker, Spink and Company in the month of January. An entry appeared to have been effected by the removal of a pane of glass, through which a hand could be inserted and the window opened. We have by no means given up hopes of arriving at the bottom of this case, and therefore, for obvious reasons, I shall not go further into the particulars, but may say that it is very questionable if the case was one of burglary at all.

	Number of Cases	Value of Property stolen	Value of Property recovered
		Rs As P	Rs As P
1860-61	39	4,235 0 0	3,466 0 0
1861-62	35	21,405 0 0	262 0 0

8. In the Mofussil one of the chief difficulties encountered by the Police is the reluctance of sufferers to report burglaries. In Calcutta the reverse is the case. When a person wishes to make away with property entrusted to his charge, as pawn-broker or for other purposes, he forthwith has a burglary in his house. He knocks a hole through the wall of his house and declares that the goods are gone. Some of those charges are so palpably false that there is no difficulty in proving them to be so. For instance, in one case the hole in the wall was so small that no child could be pushed through. In another the operator had evidently commenced from the inside, but coming on an unyielding piece of wood was obliged to make the hole in another place. I recollect proceeding to the house of a watchmaker in which a burglary was said to have been committed and a large number of watches made over to him for repair stolen: a large hole had been made through the wall, but the Police Officer in charge of the case pointed out to me that a particular clock must have been removed to one side by the supposed burglar previous to his entry, and that this was impossible if the breach had been made from the outside. Eventually we recovered the watches from the place of concealment, where they had been deposited by the watchmaker.

9. The majority of the burglaries reported were of the simplest description, the entry being effected by cutting the string fastening of the mat door and a few brass vessels or silver ornaments abstracted. But there are some of the professional thieves of Calcutta who carry on their trade with an amount of skill which appears incredible. A woman was accustomed to sleep on the top of her chest locked, and the keys deposited in the recess of a wooden bed alongside. On waking one morning she found the chest opened and her property gone. At first she did not recollect having moved off the chest for a moment during the night, but at last remembered she had done so for a short period and slept on the bed in which the keys were kept. This robbery was committed by a burglar named Neemye, who, on entering the house, stole the keys from the bed, and when the woman moved off the chest opened it and decamped with the property. In another case a Shopkeeper kept his money in an iron box, which was deposited in a large wooden chest with the keys of the iron box. The wooden chest was locked, and on the top of all was placed a matrass on the which shop-keeper slept. One night on waking up he thought his bed was not quite straight, and on examination found the chest on which he slept broken open and the keys of the iron box missing. He sent for the Police who, with great difficulty, forced open the box and discovered his money had been stolen, as he believed, while he slept on the chest. I afterwards ascertained that a servant, in collusion with a very celebrated burglar named Petumber Ghose, had induced the shop-keeper to go upstairs for a short time before retiring to his bed on the top of the chest, and during his absence the burglar entered and carried off the money.

10. THEFT.—The only cases of theft which call for remark are those in which women of the Town were drugged and their ornaments stolen. A person representing himself to be a wealthy Baboo, with another as his Sircar, drugged and robbed a woman in October 1861. The Police at that time could procure no trace of them. The same persons robbed another woman in January 1862. The Police were more successful in this case, traced out the offenders, and the two were convicted of both crimes.

	Number of Cases.	Value of Property stolen.	Value of Property recovered.
		Rs. As. P.	Rs. As. P.
1860-61	2,61 7	1,17,793 0 0	36,768 0 0
1861-62	2,883	1,30,520 8 5	61,971 8 5

The third case was precisely of the same description and occurred in January last. The Police with much difficulty traced out the perpetrator and arrested him in May 1862 at Serampore, and he was sentenced to transportation for seven years at the July Sessions.

11. I have good reason to believe that the offences proved against these persons were by no means the first they had committed, but that they had been concerned in many others in Calcutta and the Mofussil. And yet these ruffians produced evidence and Certificates to prove that they were men of the highest respectability and they were very probably supposed to be so. Professional murderers of women are also seldom of the lowest class. A Sircar receiving a good salary was executed not long ago for a murder of this description, and I have the most complete evidence against a Writer in an English Mercantile House for two murders of women which he committed in Calcutta. A reward of one thousand Rupees was offered at the time for his apprehension, but he has succeeded hitherto in eluding the search of the Police.

12. There is generally an annual outbreak of some particular description of theft in Calcutta. One year hackerymen steal the loads entrusted to them. In another Coolies appropriate property given to them for conveyance, and in the present year the number of domestic theft by servants has been very great, and the Police are quite helpless in their prevention, and nearly so in their detection. The theft is generally not discovered till some time after it has occurred. The Master does not know whom to charge; and, as the Police have no power to make an arrest on their own bare suspicion, the servants have every facility to conceal the stolen property. Servants are hired without enquiry and without Certificates from their previous employers. Taking advantage of this laxity, I recollect some of our professional thieves going into service as table attendants, and the result may be imagined. One celebrated thief served as Kidmutgar in no less than seven houses under different names, and in each he succeeded in stealing a large amount of property. In not one of them did his Master know any thing of him except his assumed name. He was eventually transported.

13. Thieves also obtain employment by means of forged Certificates, and a case occurred in which the Master discovering their nature discharged the servant and wrote across the documents the word "Forgery." An action was forthwith brought by the servant against his Master in the Small Cause Court for the "wrong" done, and the latter, who thought he had done rather a laudable action, was compelled to pay the sum of 25 Rupees as compensation for the injury to the character of his servant.

14. I have referred to the false charges of burglary; but the number of false and exaggerated cases of theft is quite extraordinary. Jewellers report the theft of gold and silver given to them to make up into ornaments, pawnbrokers of valuables pledged far below their value. Masters charge their servants who have left them when long deferred hopes of pay have made their hearts sick, and faithless paramours are accused by their mistresses to force their return. In fact, the Police are continually harassed, not so much in the endeavor to recover the stolen property, as in ascertaining whether a theft has actually been committed.

15. The cases of theft in the Fort are numerous, and there are no Police in it, which causes it to be a place of refuge for many of the Calcutta

professional thieves, who have means of entry and exit over the ramparts without passing through the gates. Owing to the delay in sending information of the occurrence of offences to the Police their subsequent investigations are usually futile.

16. During the year 16,662 persons were brought up for trial by the Police and by Summons, of whom 178 were convicted, and seventy-five acquitted at the Sessions, and 9,786 convicted, and 6,148 acquitted by the Magistrates of Calcutta, 475 having been released without trial. Property valued at Rupees 1,58,699 was reported to have been robbed and stolen, of which Rupees 62,289, or nearly 10 per cent., were recovered by the Police.

17. Native Festivals and Processions.—There is little else which calls for notice in this Report. There have been no disturbances, no riots, and no resistance to the Police in the execution of their duty, and I may say that Calcutta has been in a state of profound quiet during the year. On the occasion of the Mohurrum and other festivals where large crowds of people throng the streets I have prohibited the Police taking any part in the processions, as they had hitherto done, for the purpose of preserving the peace. I was of opinion that their so doing, without being of real use, gave an eclât to these festivals which was altogether inconsistent with the proper duty of Police. I have, however, had strong bodies of Police in reserve ready at hand, but their services have not been required. I have also of late declined granting passes for Musical processions on Sundays in the southern parts of the Town, for I consider that the Christian population of Calcutta are as much entitled to enjoy their Sabbath evenings in quiet as the Natives to have noisy assemblages and discordant music. No person has objected to this measure.

18. Honorary Magistrates.—The Honorary Magistrates have given much assistance in the administration of justice. They have sat regularly since September last and decided all Conservancy cases brought forward by the Municipal Officers. They have also on several occasions taken the place of the Stipendiary Magistrates when prevented by sickness from attending to their duties, and they have heard the appeals made against the decision of the Municipal Commissioners in cases of House Assessment.

19. Executive Police.—The Executive Police of Calcutta and the Suburbs under my orders consist of—

1	Commissioner.
1	Deputy Commissioner.
7	Superintendents of Divisions.
52	European Inspectors.
45	European Serjeants and Constables.
156	Native Officers.
2,715	Native Constables.
6	Mounted Police.
116	Manjees, Dandies, and Peons of the River Police.

The mounted Police are employed solely in the conveyance of messages. During the year very nearly seventy thousand charges, complaints, and applications were made to the Executive Police.

20. Rewards.—Rupees 1,316 were paid by Government during the year as rewards to the Police and others who did good service or gave useful information.

21. Punishments of Police.—One European and twenty-two Native Police Officers were convicted and sentenced to imprisonment by the Magistrates. Fifteen Europeans and 104 Natives were dismissed from the Force, and 3,394 fines were inflicted by me for neglect of duty, of which forty-one were on European Officers.

22. Bank Notes and Government Securities found.—Valuable Securities and Bank Notes representing a sum of Rupees 67,729-12-9 were made over to the Police by various persons who had found them in the streets and public places. Owners for nearly the whole amount were found and the finders rewarded.

23. Additional Constables' Fund.—The receipts on account of the Additional Constables' Fund paid for the use of Police in 1861-62 were Rupees 18,153

24. Police Superannuation Fund.—The receipts on account of the Police

Superannuation Fund for the same period were Rupees 15,361-4-11. The payments as compensation in lieu of Pensions to Superannuated Police Officers since November 1856, when the Fund was first instituted, have been Rupees 9,591-4-0, and the balance in hand on 30th April 1862 was Rupees 64,816-10-8.

25. Accidents.—Two hundred and seventeen accidents by carriages and horses were reported to the Police during the year, from which thirteen deaths resulted; and, considering that this list includes only those in which some injury has been caused to the person, it may be imagined that those in which damage has been done to property are not few in number.

26. Mortality.—In the margin is noted the number of bodies of Natives burnt or buried. As observed in former years the Returns obtained cannot be regarded as correct or reliable. I, however, furnish it as reported to me.

	Hindoos.	*Mahomedans.*

Other diseases ...	6,027	2,653

Total ...	10,089	4,136

27. Fires.—The steps taken by the Municipal Commissioners to enforce the Law regarding the removal of inflamable roofs from huts in the Native parts of the Town have caused an extraordinary diminution in the number of fires. Last year I noticed a very striking reduction, and the Memorandum given in the margin shews those which occurred in the last three years. There were no Ships or Boats destroyed by fire in 1861-62.

	1859-60.	1860-61.	1861-62.

Total ...	1,351	317	11

28. Conduct of Police.—The conduct of the Police has been, on the whole, satisfactory. I am indebted to Mr. Roberts, the Deputy Commissioner, for the assistance he has given in all matters and on all occasions. Mr. Superintendent Younan has conducted the very heavy duties of his Division excellently, and I have had reason to be pleased with the manner in which Mr. Greene has managed the Police of the Northern Division during the year. Inspectors Boyle, Smith, Greenwood, and Graves are meritorious Officers, and have given me much satisfaction.

Resolution by the Hon'ble A. Eden, Officiating Secretary to the Government of Bengal,—(No. 3327, dated the 24th September 1862.)

Read a letter, No. 878, dated the 6th instant, from the Commissioner of Police, Calcutta, submitting a Report on the Police Administration of the Town for the year 1861-62, together with a Statement of crime in the Town for that year and a Comparative Statement of the same for that and the previous year.

1. The results exhibited in the Report are generally satisfactory. Mr. Wauchope's remarks regarding Criminal Statistics are interesting, and the Lieutenant-Governor desires to acknowledge his able administration of the Metropolitan Police during the year under review.

2. The Lieutenant-Governor learns with much pleasure that the Honorary Magistrates have given effective assistance in the administration of justice, and desires that the thanks of Government may be communicated to those gentlemen.

3. A copy of Mr. Wauchope's remarks in paragraph 15 regarding Thefts in Fort William will be forwarded for the consideration of the General Commanding the Presidency Division with a view to the adoption of such remedial measures as may appear necessary.

4. The Lieutenant-Governor is glad to observe that the measures adopted by the Municipal Commissioners for diminishing the number of fires in the Town continue to be attended with remarkable success.

5. The Lieutenant-Governor also notices with satisfaction the testimony borne by the Commissioner to the zealous and efficient services of the Deputy Commissioner, Mr. Roberts, and of Superintendent Mr. Younan, as well as the favorable mention made of the services of the Superintendent of the Northern Division, Mr. Greene, and of Inspectors Boyle, Smith, Greenwood, and Graves.

Order.—Ordered, that a copy of the above Resolution be forwarded to the Commissioner of Police, Calcutta, for his information.

MILITARY DEPARTMENT

Fort William, the 13th October 1862.

No. 935 of 1862.—With reference to Government General Order No. 1048 of the 19th November 1861, the following Military Letter from the Right Hon'ble the Secretary of State for India, to His Excellency the Right Hon'ble the Governor General of India in Council, No. 239, dated India Office, London, the 2nd July 1862, is published for general information:—

MILITARY.
No. 239.

TO HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD,—"I HAVE received and considered in Council your letter No. 154 of the 3rd May last, transmitting further correspondence connected with the conduct of Captain Maxwell and Lieutenants Orchard and Hare.

2. I observe that Captain Maxwell is stated to have submitted an earnest and proper solicitation, praying your Government to overlook the impropriety of which he was guilty, and of which he is fully conscious, and that he has also interceded in favor of the other two Officers, and has, in extenuation of their conduct, attributed their proceedings to the influence of his own example.

3. Under these circumstances, the Commander-in-Chief considers that discipline has been sufficiently vindicated by the publicity with which the Government have marked its disapprobation of the conduct of these Officers, and suggests that an act of clemency might now be very appropriately exercised in their favor.

4. Your Government support this appeal, and I shall therefore not object to your allowing to Captain Maxwell and Lieutenants Orchard and Hare the privilege of entering the Staff Corps upon their original applications."

I have, &c.,
(Sd.) C. WOOD.

II. The number of Commissioners for carrying out the provisions of the Act shall not exceed twelve, or be less than six. One of the Commissioners shall be the Magistrate of the District ex-Officio.

III. Of the Commissioners the Magistrate of the District shall be the Chairman.

IV. The annual Meeting of the Commissioners to be held in August, at which all will attend, unless prevented by sickness, or otherwise unavoidable absence.

V. If after the orders of Government appointing Commissioners for the year have been received any vacancy shall occur in the number of Commissioners, the remaining Commissioners shall nominate a person to act as a Commissioner, and such nomination shall be reported, through the Commissioner of Rohilcund, for the sanction of Government.

VI. The Commissioners shall hold an ordinary Meeting on the second Tuesday in every month for the despatch of business. At this Meeting not less than three Commissioners shall attend. Any number less than this not to constitute a quorum.

VII. If after a matter has been settled by three or four Members of the Committee, and business has been despatched accordingly, the remaining Members shall raise any objection to it, the matter shall be brought before the next Meeting, at which all shall attend, and give their opinions as to the continuance or cessation of the measures agreed upon at the first Meeting.

VIII. The Commissioner of the Rohilcund Division shall be entitled to attend all Meetings of Commissioners and to bring before such Meetings any matters which he may consider to require notice: he shall be entitled to call for and inspect all records and accounts of the Commissioners, and the Commissioners shall be bound to furnish him with any information he may call for connected with the duties entrusted to them.

IX. A Memorandum of the Funds to be at the disposal of the Commissioners, as also the Schedule of rates to be levied on Imports, are appended to these Rules.

X. These duties are to be levied on goods brought from outside to within the boundaries of the City of Budaon and Town of Bilsee for the sake of realizing any profit thereon.

XI. The goods to be exempted from the duties are—

1*st.*—Salt, under orders of Government No. 151A., dated 12th July 1862.

2*nd.*—All goods carried from outside through the City or Town to other Towns and Districts and which have in transit to pass through the boundaries of the said City or Town.

3*rd*.—All goods which are brought in and stored in the said City or Town for a time before despatched to other places, but not intended for sale in the said City or Town.

4*th*.—All goods produced and manufactured within the boundaries of the said City or Town.

5*th*.—All exports whatever made therefrom.

6*th*.—Corn, vegetables, grass, wood, and cow-dung, &c., which may be brought into the said City or Town by Villagers to exchange for other necessaries of life.

XII. The Commissioners shall entertain from time to time, on such salaries as they may think fit, such Officers and Servants as may be required to carry out the system of Octroi Duties for the execution of all works undertaken by them, and for the maintenance of the Conservancy.

XIII. The Commissioners shall from time to time determine the manner in which the duties devolving upon them shall be distributed, so that for the due performance of each work or branch of public business there shall be some one Member specially and directly responsible.

XIV. It shall be the special duty of the Magistrate of the District in his capacity of Official Commissioner to protect the public interest by providing all legal means for the prompt suppression of all nuisances defined in Rule XV.

XV. The nuisances alluded to above are—

1*st*.—The acts defined as nuisances in Section XXXIV., Act V. of 1861, and in Section CCCVIII., Act XXV. of 1861.

2*nd*.—Throwing or allowing to fall stones, earth, wood, or other rubbish upon the public roads, or laying building materials thereon, except by the permission of the Commissioners.

3*rd*.—Quarrying kunkur, or cutting timber or grass, or damaging trees on public ground without the sanction of the Commissioners.

4*th*.—Quarrying kunkur, digging pits, cutting timber, burning lime, or carrying on building operations on private ground, in such a manner as shall cause danger or inconvenience to any parties, or injury to roads, trees or property.

5*th*.—Making any permanent or temporary building, shed, enclosure, or awning for any purpose in any situation which shall be declared by the Commissioners to be objectionable.

6*th*.—Performing the offices of nature in any other public place than such as may be appointed by the Commissioners.

7*th*.—Neglect on the part of any proprietor or other occupant to keep in proper repair, and in a state of proper cleanliness, any necessary or cesspool constructed on his premises.

8*th*.—Neglect on the part of any proprietor or other occupant to keep in a state of proper cleanliness any estate, compound, enclosure, or premises by permitting the growth of rank vegetation, or the accumulation of filth, or other cause likely to be prejudicial to the public health or convenience.

9*th*.—Picketting animals or collecting carts on any ground other than that prescribed by the Commissioners not being the private ground occupied by the owners of such animals.

10*th*.—Growing high crops that in the opinion of the Commissioners are prejudicial to the public health.

11*th*.—Intramural interment, slaughter of animals of any kind save in localities to be set aside by the Commissioners for the purpose, burial of dead animals within the City boundaries.

12*th*.—Softening (Pukana) leather at any place other than that prescribed by the Commissioners.

XVI. Breaches of Rule XV. shall be punishable on conviction by fine not exceeding Rupees 50, and continuing a nuisance after such conviction shall be punishable by fine not exceeding Rupees 5 for every day during which such nuisance is continued.

XVII. The sum realized on account of the fines alluded to above shall be credited to the Octroi Fund.

XVIII. These Rules may be amended or rescinded, and new Rules may be proposed by the Commissioners for the time being, and such amendment or repeal of old Rules or preparation of new Rules shall be submitted by the Commissioners, through the Commissioner of the Rohilcund Division, to the Government of these Provinces for approval, with the reasons which make the change desirable.

No. 2547A.—*Nynee Tal, the* 30*th September* 1862.—Two months privilege leave of absence, under Section VII. of the Uncovenanted Service Absentee Rules, is granted to Koour Wuzeer Allee Khan, Deputy Collector in the District of Meerut, with effect from Mr. A. Financial Department.—No. 1809A.—*Nynee Tal, the* 26*th September* 1862.—The following Extract from the Proceedings of the Government of India, in the Financial Department, No. 228A, dated the 8th instant, is re-published for general information:—

No. 228A.—Extract from the Proceedings of the Government of India, in the Financial Department, dated 8th September 1862.

Read the following letters from the Auditor-General of India.

Letter No. 412 of 16th July 1862, forwarding an enquiry from the Deputy Auditor and Accountant-General, Bombay, as to whether he should distribute to Treasury Officers printed blank Budget Forms as he did last year, and also arrange for the submission of a printed Budget for 1863-64, or whether Forms may be expected from Calcutta.

Letter No. 598 of 13th August 1862, forwarding a somewhat similar application from the Deputy Auditor and Accountant-General, Bengal, on behalf of the Chief Commissioner of British Burmah.

Letter No. 295 of 28th June 1862, } submitting
" " 570 of 9th August " } a proposition by the Deputy Auditor and Accountant-General, Bengal, which is supported, in a great measure, by an accompanying recommendation from the Board of Revenue for transferring to the several Deputy Auditors and Accountants-General and Civil Pay Masters the preparation of various parts of the Annual Estimates which are now framed in the first instance by District Officers.

Resolution.—The Governor-General in Council observes that the Board of Revenue, and, in a greater degree, the Deputy Auditor-General, Bengal, have misapprehended one object of the Budget, in the remark that Salaries, Establishments, and some other items can be more correctly estimated by the Deputy Auditor-General and the Civil Pay-Master than by District Officers.

2. Had the sole object been to obtain correct Estimates, it would not have been necessary to supersede the former system, by which the Esti-

mates were wholly prepared in the Offices of the Deputy Auditors and Accountants-General, and to which system the Government would, in fact, revert by complying with the suggestions of the Board of Revenue and the Deputy Auditor-General, Bengal. But it is a main object to obtain an Estimate in full detail from the Disbursing, not from the Checking Officer, the province of the latter being to correct the Returns of the former.

3. The requirement of Budget Estimates from the District Heads of Departments ensures a consideration of all items of expenditure in detail in the District where it is best understood, and tends to promote intelligent acquaintance with the accounts.

4. For Estimates of Salaries and fixed Establishments, the Deputy Auditor-General or the Board of Revenue can obviously have no better ground-work than a Statement prepared by each Disbursing Officer from the existing scale of actual expenditure at the time the Estimate is prepared. The District Officer may not be responsible for this, and the details of distribution may vary from one year to another, but the totals will be the same, and any variations in them will be checked and explained by the Deputy Auditors.

5. To urge that the Government alone can tell the number of Uncovenanted Deputy Collectors is beside the question. The Government wish to know the actual number of *employés* and the actual expense. If they propose to increase or diminish that number, they will state it in their review of the Budget Returns. If, however, the Board or the Deputy Auditor-General has any doubt, there is nothing to hinder an application to Government for information.

6. The difficulty felt by the Deputy Auditor-General and the Board of Revenue regarding the distribution, by debits, of one salary to different Departments may perhaps arise from a mistaken notion that expenditure under the several heads in the Estimate is to be rigidly restricted to the District distribution, but this was never intended except under such heads as are absolutely local, such as fixed and temporary Establishments, Contingent charges, and the like.

7. The general principle intended by the Budget and Audit Committee was that Heads of Departments should submit well-considered Budgets based upon actual and detailed data obtained from their Subordinates, thus exhibiting expenditure in a form best calculated, by combining locality and detail, to facilitate its review by Government.

8. Again, to throw the preparation of Estimates upon the Civil Pay-Master is to reverse the entire system. That Office is one of check and can be used to any extent which is thought advisable by this Department; but what is required by the Budget is an Estimate, not by the Checking but by the Executive Departments of the funds required for the service of the year within which they undertake to confine the expenditure.

9. In this view, one exception only may be made as to requiring an Estimate from the Civil Pay-Master, his Office contains the latest and complete information of the state of the Pension List, and the Estimate of Pensions may accordingly be framed by him, and submitted to the Deputy Auditor and Accountant-General.

10. In other respects no relaxation of the system of District Estimates can be permitted.

11. At the same time the difficulties of District Officers and of the Deputy Auditor-General are recognized, and to a certain extent they may be remedied.

12. The chief if not the sole difficulty, and the most fruitful cause of delay in submitting the Estimates, consists, it would appear, in the necessity, under existing orders, of inserting opposite each class or grade of salary the actual expenditure for that class or grade for the year last completed, instead of for the head to which that class belongs.

13. For example, under the head Salaries the Estimate for a Collector's District shews the following details in the following Form:—

	Number.			Actuals	Estimates.	
	1861-62.	1862-63	1863-64	1861-62.	1862-63.	1863-64
Salaries and Expenses.				Rs.	Rs.	Rs.
1. Collectors						
2. Deputy Commissioners						
3. Assistant Commissioners						
4. Extra Assistant Commissioners,						
5. Deputy Collectors.						
6. Assistant Collectors.						
7. Uncovenanted Deputy Collectors,						

In this Form the Estimate for 1863-64 would exhibit in the column for 1861-62 the actuals for that year for each item, and in the column for 1862-63 the figures of the sanctioned Estimate for that year *plus* any authorized additions thereto. The number and money columns for 1862-63 can be readily filled in by the District Officer and checked by the Deputy Auditor General from their respective copies of the Estimate for 1862-63, in which copies alterations ordered during the year will have been noted. But the Treasury Officer cannot for 1861-62, or year last completed, readily supply the actual expenditure under salaries and expenses as distinguished from Establishments (still less the particulars for each of the seven items above detailed), nor can the Deputy Auditor-General give the detail so readily as the aggregate of actual expenditure under salaries and expenses. The aggregate, therefore, need only be supplied by him in the column for the year last completed, which, for the next Budget, will be the column for 1861-62. But the number column for 1861-62 must be filled up, if possible, for each of the seven items by the Treasury Officer.

14. Similarly, with the next two Divisions in the Estimate of a Collector's District; for the items, as per margin, numbered 8 to 11 and 14 to 16, the money columns for only 1862-63 and 1863-64, and the numbers for all three years would be filled in by the District Officers, while only the aggregate of actual expenditure, under each Division of charge, for 1861-62, would be entered by the Deputy Auditor-General. The actuals of items 12, 13, and 17

Collectors or Head Treasury Establishments.

15. Gomastahs and Cerks, @ Rupees to Rupees.
16. Servants

17. Contingencies 0 0 0

for 1861-62 might, however, be shewn by District Officers as marginally indicated.

15. For the last two divisions in the Estimate of a Collector's District, *viz.*, Temporary Establishments and Miscellaneous, the actuals for 1861-62 must needs be given in the same detail as at present.

16. The preceding illustrations will apply also to the Estimates of Judges, Magistrates, &c.

17. For each coming year, as for the year 1863-64, the Estimates both as to numbers and amounts must be in the same detail as hitherto.

18. A special injunction is necessary, however, with regard to Police. It is required that the Estimates for Police should shew the total or gross charge to be incurred under that head, including the cost of Guards supplied to the several Departments. But as the charge for these Guards will be separately provided for in the several Departmental Estimates, it should be shewn in an Appendix in detail of Offices, the aggregate charge being entered at foot of the Abstract of the Police Budget in reduction of the Departmental expenditure, thus :—

ABSTRACT OF POLICE BUDGET.

1. Presidency Police.
2. Mofussil Police.
3. Military Police.
   a. Inspector.
   b. Battalions or Regiments.
4. Dacoity and Thuggee.

GROSS TOTAL.

Deduct.

Guards payable by other Departments, as per Appendix.

NET TOTAL.

19. The Revenue Estimates for 1862-63 did not in all cases shew the total receipts for Police, which can be set off against the expenditure of the Police Department. This defect also should be remedied. The payments by Departments for the Police supplied to them should however be excluded from the receipts, as they will, under paragraph 18, be deducted from the gross amount of the Police Budget.

20. With these general instructions for the guidance of Deputy Auditors-General, it suffices to add, as respects Forms, that they were issued, in the first instance, as a guide to Departments generally as to the degree of detail required, and to ensure uniformity of action. But so long as the Budget Estimates are submitted by the Heads of Departments and the Deputy Auditors-General, in the standard Forms issued by the Auditor-General for 1862-63, those Authorities are at perfect liberty to procure the details from the local Officers in such Forms as they may find most convenient, without departing from the principles above laid down, or failing in the requirements above prescribed.

21. It is of essential importance, however, that delay should be obviated by no new check being introduced, no additional Form prescribed, or references permitted, which are likely to add to the period necessary for the preparation of the Budget, or to interfere with its punctual submission at the due date.

22. The Deputy-Auditors will submit a Memorandum of the charges in their Budget which are payable elsewhere, in India or in England, to guide the preparation of the X. Y. Z. Statements.

Ordered, that a copy of the foregoing be forwarded to the Home and Foreign Departments, to each Local Government, to the Auditor-General, to the several Deputy Auditors and Accountants-General, and to the several Civil Pay-Masters.

Notification.

MILITARY Officers on detached employ, and others, who individually draw their salaries, are requested to affix to all future Receipts for the amount of their Pay, a Receipt Stamp of the value of one anna, in accordance with Government Notification dated 16th August 1862.

In the absence of a Receipt Stamp, the Pay Master is prohibited granting a Cheque for the amount of Pay.

C. F. M. MUNDY, *Major*,
Presidency Pay Master.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

Parties having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhie and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3. The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhie and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the duty on which the claimant took charge and relinquished the duty

6 When claims are submitted by representatives, a Power of Attorney must be sent and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for,

Copy of the Standing Counsel's Opinion on the point, dated 10th September 1862, is subjoined.—

Opinion.

I entirely agree in the conclusions in the within letter of July 29th It is very clear that Schedule B, Clause 8, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities; therefore the Stamp to be required in all cases for Powers to draw interest executed after Act X. of 1862 should be of (1) four Rupees except in the excepted instance at the end of Clause 13 of Schedule A, in which it ought to be a Stamp of one Rupee.

Infusion of the leaves of Cinchona Succirubra used as a Febrifuge.

From T. ANDERSON, ESQ., M. D., Officiating Superintendent, Botanic Gardens, Calcutta, to H. BELL, ESQ., Under-Secretary to the Government of Bengal,—(No 13, dated the 9th September 1862)

I HAVE the honor to report to you, for the information of the Lieutenant-Governor, that I have succeeded in forming an infusion of the leaves of *Cinchona Succirubra* from the plants of that species in the Cinchona Nursery, near Darjeeling. The leaves fell off spontaneously during the months of June and July.

I sent the infusion to Dr. Collins, Civil Surgeon of Darjeeling, with a request that he would administer the infusion to some of the Patients in the Civil Hospital.

He has just informed me that he had given the infusion in doses of one fluid ounce to the first four cases of intermittent fever that occurred, and that these Patients had been cured without any other medicine whatever.

This result proves that the infusion of the leaves of *Cinchona Succirubra* possesses some of the febrifuge properties of Cinchona, the infusion is of a dark chocolate color and is intensely bitter. I hope to be able to submit an account of the chemical analysis of this infusion by Dr. Macnamara, Chemical Examiner to Government.

MARINE DEPARTMENT.

No. 528.

Fort William, the 17th October 1862.

The following Rules for entering the Harbour of Port Blair are published for general information :—

The Penal Settlement of Port Blair on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11 48' North, and Longitude 92° 47' East from Greenwich; it has a spacious and safe harbour extending a considerable distance in land; the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent.

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of 1¼ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it in not less than 10 fathoms, and stands to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E. Magnitude then stands for the anchorage about S. S. E, and anchor off the town in from 9 to 15 fathoms sandy bottom about 500 yards from the beach with the Superintendent's house on the hill bearing from E. by N. W, E. N. E. Magnitude and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys inside of which it would not be prudent to burrow.

The South Channel formed between the South end of Ross Island and the Main is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesostris Reef," a dangerous patch, having only 1½ fathoms, in some parts rocky, uneven ground, bears S½ E Magnitude about three-fourths of a mile from the South end of Ross Island; it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth as the ground about is rocky and uneven

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E. Magnitude and steer for it, passing well to the Westward of the Reef buoy; and with the buoy bearing S. 25 E. Magnitude and the South end of Ross Island N by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island if possible and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.

By Order,

JOHN G. REDDIE.

Offg. Secy. to the Govt. of India.

Notification.

MILITARY Officers on detached employ, and others who individually draw their salaries are requested to affix to all future Receipts for the amount of their Pay a Receipt Stamp of the value of one anna in accordance with Government Notification dated 16th August 1862.

In the absence of a Receipt Stamp, the Pay-Master is prohibited granting a Cheque for the amount of Pay.

Presidency Pay-Master.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhie and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3. The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhie and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6. When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of claimable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

FORT WILLIAM;
Executive Commissariat Office,
The 25th September 1862.

A. D. DICKENS, *Major,*
Assistant Commissary General.

Advertisement.

SEALED TENDERS will be received by the Executive Commissariat Officer, Madras, until 12 o'clock noon on the 15th November 1862, for the supply of 1,250 Chests of Congo Black Tea, averaging 86 lbs. each, to be delivered into the Commissariat Stores free of all extra charges whatsoever on or about 31st July 1863, but no payments will be made prior to June 1863.

2. Each Chest must be well packed in good matting, and secured with strong rattan lashings. No broken or damaged Chest will be received.

3. The quality of Tea to be subjected as usual to approval or rejection of a Committee, and payment will be made for such quantity only as may be passed by the said Committee.

4. The Contractor must lodge in deposit at this Office the sum of Company's Rupees (10,000) ten thousand in cash, Government Paper, Bank Shares, or other tangible Security for the due fulfilment of his engagement.

5. Tenders will be opened on the 15th November 1862 at 1 P. M., in the presence of such of the parties interested as may attend, and the most favorable offer, if approved of, will be accepted.

6. Samples of Tea required can be had on application at this Office.

7. Each Tender must be accompanied with a deposit of (2,500) two thousand and five hundred Rupees, and be sealed and superscribed—"Tender for Tea."

8. The deposit on the approved Tender will be retained, and the Tenderer will be required to sign the Contract Bond, and furnish his Security within three days from the date of the acceptance of his Tender by the Commissary General being notified to him, in failure of which his deposit will be forfeited to Government.

9. The deposits of all others will be returned to the respective parties immediately after the successful competitor has been declared.

10. The Commissary General reserves to himself the right of rejecting any Tender without assigning any reason for so doing.

By Order of the Commissary General,

R. Q. MAINWARING, *Captain,*
Sub-Assistant Commissary General.

MADRAS;
Commst. Office,
The 18th July 1862.

"WITH reference to the above it is intimated, for the information of parties desirous of tendering, that the Officiating Commissary General at Calcutta will be prepared to receive all Tenders that may be submitted at this Presidency. The rate will be telegramed to the Commissary General at Madras, and should the offers be more favorable than those tendered at that Presidency, intimation of acceptance will be telegramed by the Commissary General, Madras, to the Commissary General, Calcutta, who will receive the security deposit of the successful competitor and the Contract Bond can be subsequently executed".

MARINE DEPARTMENT.

No. 528.

Fort William, the 17*th October* 1862.

The following Rules for entering the Harbour of Port Blair are published for general information:—

The Penal Settlement of Port Blair, on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11° 43′ North, and Longitude 92° 47′ East from Greenwich; it has a spacious and safe harbour extending a considerable distance inland; the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent,

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of 1½ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it, in not less than 10 fathoms, and stand to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E., Magnetic, then stand for the anchorage about S. S. E., and anchor off the town in from 9 to 15 fathoms, sandy bottom, about 500 yards from the beach, with the Superintendent's house on the hill bearing from E. by N. to E. N. E. Magnetic, and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys inside of which it would not be prudent to borrow.

The South Channel, formed between the South end of Ross Island and the Main, is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesostris Reef," a dangerous patch, having only 1½ fathoms in some parts, rocky, uneven ground, bears S½ E. Magnetic, about three-fourths of a mile from the South end of Ross Island, it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth as the ground about is rocky and uneven.

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E. Magnetic, and steer for it, passing well to the Westward of the Reef buoy; and with the buoy bearing S. 25 E. Magnetic, and the South end of Ross Island N. by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S. W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island, if possible, and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.

By Order,

JOHN G. REDDIE.

No. 2595 *A.*—*Nynee Tal, the 6th October* 1862.—In continuation of the Notification No. 522A, dated the 1st of March 1862, the following Office Memorandum from the Secretary to the Government of India, in the Military Department, to the address of the Secretary to that Government, in the Financial Department, is re-published for the information of those concerned.—

No. 317.—Office Memorandum.—*Military Department, the 10th September* 1862. In reply to Office Memorandum No. 138A., dated the 15th of August, the undersigned has the honor to inform the Secretary to the Government of India, Financial Department, that Government General Order No. 1212, dated the 31st of November last, was intended to grant the sum of (5) five Rupees for the proficiency in English therein stated to *all* "Native Doctors" in addition to their pay, whatever their length of service, and although they might have received the premium of (250) two hundred and fifty Rupees when they left the Medical College.

2. Had it been withheld from the latter, they would be in three and half or four years, as observed by Mr. Drummond, on a worse footing than their juniors, who might have entered the service under the new order.

3. The Officiating Principal Inspector-General, Medical Department, will, it may be added, be informed that it is the duty of Medical Officers to stimulate the Native Doctors under them not only to keep up but to improve their acquaintance with English; and to report any case where a Native Doctor may neglect to *maintain* the Standard of proficiency for which the reward was originally granted to him, as it was the intention of Government that the addition to the pay should be always liable to be taken away from any one who failed to *keep up* his knowledge of English.

No. 2602 *A.*—One month's privilege leave of absence, under Section XII. of the Civil Service Absentee Rules, is granted to Mr. C. J. Daniell, Deputy Commissioner of Jhansie, with retrospective effect from the 17th September 1862.

Captain J. Davidson, Assistant Commissioner, is appointed to officiate as Deputy Commissioner of Jhansie during the absence on leave of Mr. Daniell, or until further orders.

No. 2605 *A.*—Mr. W. Tyrrell, Assistant to the Magistrate and Collector of Furruckabad, is invested with the full powers of a Magistrate, under the Code of Criminal Procedure, and of a Deputy Collector.

No. 2638 *A.*—*Nynee Tal, the 7th October* 1862.—Mr. F. M. Bird, Officiating Magistrate and Collector of Allygurh, is appointed to be Magistrate and Collector of Boolundshuhur, with effect from the 1st of August 1862, but will continue to act as Magistrate and Collector of Allygurh until further orders.

No. 2611 *A.*—Mr. Gore Ouseley, Officiating Magistrate and Collector of Gorruckpore, is appointed to be Magistrate and Collector of that District, with effect from the 1st of August 1862.

No. 2612 *A.*—*Nynee Tal, the 8th October* 1862.—The six months special leave of absence to proceed to Europe, on private affairs, under Section XIV. of the Civil Service Absentee Rules, granted to Mr. J. H. Prinsep, Magistrate and Collector of Allygurh, in Orders No. 1852A, dated the 12th July 1862, has, as a special case, been converted by the Right Hon'ble the Secretary of State to one year's sick leave under Section VI. of the Rules.

No. 2613 *A.*—Ten days privilege leave of absence, under Section VII. of the Uncovenanted Service Absentee Rules, is granted to Mr. J. V. Sturt, Extra Assistant Commissioner, in the District of Humeerpoor, from the date on which he may avail himself of the same.

By Order of the Hon'ble the Lieutenant-Governor, North-Western Provinces,

George Cooper,
Secy. to Govt., N. W. P.

Public Works Department.—*Nynee Tal, the 8th October* 1862.—*No.* 1211 *A. Dismissal.*—Petumber Sing, Sub-Engineer, Third Class, and Deputy Superintendent, Allyghur Division, Ganges Canal, having been convicted of Forgery and sentenced to ten years rigorous imprisonment, is removed from the list of Subordinates in the Public Works Department.

No. 1213 *A.*—*Transfer.*—Supervisor Baboo Muddoo Soodun Chatterjee, Native Master in the Thomason College, is transferred to the Allyghur Division, Ganges Canal, as a Deputy Superintendent, *vice* Petumber Sing, removed from the Department.

WEDNESDAY, OCTOBER 22, 1862.

Circular Order of the Board of Revenue, L P.

No. 63.

Dated 11th October 1862.

To all Commissioners and District Revenue Officers.

The Board of Revenue circulate herewith the Rules for the sale of unassessed waste lands, and for the redemption of the Revenue of such lands already granted for a term of years in the Lieutenant Governorship of Bengal, as issued by the Government of Bengal in the Notification dated 30th August 1862, together with Supplementary Rules approved by the Government.

A. Grote, and H. D. H Fergusson, Esqrs.

2. District Officers are requested to give effect to these Rules at once.

By Order of the Board of Revenue,

H. L. Dampier,

Secretary.

Rules for the sale of unassessed waste lands, and for the redemption of the Revenue of such lands already granted for a term of years, in the Lieutenant Governorship of Bengal, issued by Notification of Government of Bengal, dated 30th August 1862.

SUPPLEMENTARY RULES.

A. There is no prohibition against the same person applying for two or more lots of land, provided that each application comprises no more than 3,000 acres, or such other maximum as may be prescribed.

RULES.

Rule 1 All unassessed waste lands in which no right of proprietorship or exclusive occupancy is known to exist, or to have existed and to be capable of revival, are available for purchase under these Rules, unless specially reserved under Rule 21.

2. No greater quantity of land than three thousand acres shall be sold in one lot except with the express sanction of the Government. If for special reasons, in particular localities, a lower maximum area than three thousand acres should be determined upon, it will be duly notified hereafter.

B. If it should appear from the Survey or otherwise, that the application does not comply with these conditions, the Collector may call for an amended application; and in the event of a revised application not being given in within 15 days, the application shall be held to be cancelled and the deposit shall be returned to the applicant less the amount of expense actually incurred for Advertisement, Survey and the like.

C In Darjeeling the Superintendent, and in Assam, Chota Nagpore, and the Sonthal Pergunnahs, the Deputy Commissioners in charge of Districts, will perform the duties of Collectors under these Rules. Applications shall immediately be entered in a Register in the Form A attached to these Rules.

D. An Advertisement shall also be published in the *Government Gazette*. The form of Advertisement is given in annexure C A sum of 16 Rupees to cover all estimated expenses connected with advertising shall be paid by the applicant in advance at the time of application

E. The sum to be deposited will include the estimated cost of clearing the boundaries for Survey, but is not under any circumstances to exceed four annas an acre.

F. Until the 1st of May 1863, sales of waste lands shall be held not less often than once a month, after that date sales shall be held Quarterly on the 2nd of May, 2nd of August, 2nd of November, and 2nd of January, or on the first day after those dates, on which the Collector's Office may be open Where a sale is deferred, the notice of the date fixed for it will be given by an Advertisement at the Collector's Office If the day to which the sale is postponed be more than 15 days after the date originally fixed, the date to which it is deferred shall be published in the manner prescribed by Rule 5, for the original Notification of the day of Sale. In this case all expenses of Advertisement shall be borne by the Government

G. The cost of Survey and Advertisement will be payable by the highest bidder in addition to the upset price Immediately on the conclusion of the Sale the highest bidder (if he be not the original applicant) shall deposit a sum equal to four annas an acre on the whole area of the lot In default of immediate payment of this deposit the Collector may at once re-sell the lot If he think it necessary he may refuse to recognize any bid which is not supported by the deposit of the amount required by this Rule. Immediately a sale is made, it shall be entered in a Register in the form B annexed.

3. Every lot shall be compact, and shall include no more than one tract of land in a ring fence; and when the land touches a public road or a navigable river, the length of the road or river frontage shall not exceed one half the depth of the lot. No lot will be sold unless it has been previously surveyed and demarcated, or until it shall have been surveyed and demarcated in consequence of an application for purchase. The Survey need only be in sufficient detail to ensure the ready identification of the boundaries of the lot, and to ascertain its gross area. If on completion of the Survey it shall appear that the area of the lot applied for exceeds the prescribed maximum the excess shall be excluded.

4 Applications for the purchase of waste land shall be made to the Collector of the District, and every application shall contain the following particulars —

1*st*. The estimated area of the land applied for.

2*nd* The situation of the land and its boundaries as accurately as can be ascertained.

5 If the Collector be satisfied that the land applied for is available for purchase and within the conditions prescribed in Rules 2 and 3, and if it have been previously surveyed and demarcated he shall advertise the lot for sale on a given day at an upset price of not less than two Rupees eight annas an acre on the whole area The Advertisement shall be published in the Collector's Office, in the Court of the principal Judicial Officer of the District, and at the Moonsiff's Court (if there be one) and Police Station within the limits of which the lands are situated.

6 If the Collector be satisfied as above, and if the land have not been surveyed, he shall cause it to be surveyed, and its boundaries demarcated, the estimated cost of such survey and demarcation being first deposited by the applicant On the completion of the Survey the Advertisement of Sale shall be published as above

7 The day of Sale to be named in the Advertisement shall not be less than thirty days from the date of publication, and the Sale shall be held at the Collector's Office The Sale may be postponed if in the Collector's judgment it should be necessary, due notice being always given of the date on which the Sale will be held

8 If before the day of Sale no claim of proprietary or occupative right in the land be preferred, the lot shall be sold by auction to the highest bidder above the upset price, or to the applicant at the upset price, if there be no higher bid.

H. Forms of Deed of Sale will be prepared and forwarded as soon as possible.

I. The interest due for any year or part of a year under this Rule shall be payable on or before the 15th of May, and if the amount be not paid on that date the Collector may realize the amount by sale of the lot under the Rules in force at the time being for the sale of Estates on account of arrears of Revenue due from other Estates. Any balance of the purchase money which may not have been paid up before the 15th of May of the tenth year following that of the Sale may be realized in the same manner as an arrear of interest outstanding on that date. The proceeds of the sale shall be applied in the first instance to the payment of the costs of sale, and to the satisfaction of the demand of Government, the surplus shall be payable to the late registered proprietor or proprietors on their joint receipt.

J. *Vide* Supplementary Rule G. above. Where the Collecter is of opinion that for special reasons a higher upset price than Rupees 2-8 an acre should be put upon the lot, he will,

9. On payment of one-tenth of the purchase money, and of all expenses of survey, demarcation, advertisement and sale, the purchaser shall receive a Deed (in a form which will hereafter be issued by the Board of Revenue) signed by the Collector, conveying to him the lot, in full hereditary and transferable proprietary right, free for ever from all demand on account of Land Revenue, but subject nevertheless to all general taxes and local rates imposed by Law, and to any other claim, whether of the Government or otherwise, that may have been or may hereafter be established in any Court of competent jurisdiction.

10. If before the day of Sale a claim of proprietary or occupative right in any part of the land be preferred, the Collector shall investigate the claim, and, if satisfied that it is groundless, shall reject it and proceed with the Sale.

11. If on investigation any such claim should appear to be well grounded, the Collector may either reject the application for purchase of the lands or refer it for the orders of the Commissioner. In the former case the applicant may appeal to the Commissioner.

12. The Commissioner may direct the Collector either to reject the application or to proceed with the sale of the land either unreservedly on the conditions prescribed in Rule 9, or, if any claim to right of proprietorship, occupancy, or use in any part of the lands be established to the satisfaction of the Commissioner, with a special reservation of such right, or exclusive of the area in which such right exists. If the application for purchase of the land be rejected the amount deposited as cost of Survey will be forfeited.

13. On being put in possession of the lot the purchaser shall be bound to erect as many substantial boundary marks of masonry as the Collector may think necessary.

14. If the land be purchased by any person other than the applicant, the estimated cost of Survey deposited by the applicant shall be returned to him.

15. The purchaser may, if he choose, pay the whole of the purchase money when the lot is sold or the Deed delivered to him. Or, if he choose, he may pay a portion, not being less than ten per cent. at the time of sale, and the remainder in instalments at any future time not being more than ten years from the date of Sale. In the latter case simple interest at the rate of ten per cent. a year will be charged on the unpaid portion of the purchase money, and the whole lot will remain hypothecated as security for the full discharge of the amount including principal and interest, and be liable to sale by order of the Collector if the said amount be not paid within the stipulated period.

16. If the purchaser fails to pay one-tenth of the purchase money and all other expenses within three months from the day of sale the lot will be put up to sale again on the same conditions as before and sold at the risk of the first purchaser, whose deposit will also be forfeited.

17. The upset price will be calculated on the whole area of the lot without any deduction on any account whatever. Ordinarily, the upset price will be two Rupees eight annas an acre, but

immediately the application is made, submit a report for the orders of the Commissioner. From Darjeeling such reports will be made to the Board. In considering the upset price to be fixed, Collectors will not overlook the value of the trees on the land applied for.

K. The sum to be refunded will be calculated on the average price paid per acre, excluding the cost of Survey and Advertisement.

L. Tables illustrating the mode of computing the value of future payments will be issued hereafter.

M. The Report will be in the form of an extract of the entry from Register B. prescribed in Supplementary Rule G. above.

N. Until the list be published, District Officers will reserve all forest lands, that is lands on which valuable timber is growing.

O. All proceedings taken in conformity with the Resolution of 17th October 1861, will be recognized, and pending proceedings will be continued under the provisions of that Resolution. Where the application has only been made and registered, the next step will be the issue of the Advertisement required by paragraph 17 of the Resolution, if the Advertisement have already been issued, and the term of it have expired, the Collector will proceed to give the applicant a certificate of allotment under paragraph 18, unless others have come forward with offers to purchase the land, in which case the lot must be put up to Auction under paragraph 30 of the Resolution. In all such cases the sales will be regulated by the Rules laid down in the present Notification.

in special cases the Collector, with the sanction of the Commissioner, may put up a higher upset price on any lot, provided that the upset price of available waste lands shall in no case exceed ten Rupees an acre

18. If it should at any time be found that the same land has been included in more than one lot, it shall be held to belong to the lot first sold, and all subsequent sales shall, as regards such land, become null and void. In the event of any dispute regarding the boundary of two or more adjoining lots, the Collector may, on the application of any one of the parties, re-adjust the boundaries of the lots, and his decision shall be final. The price paid by any subsequent purchaser for land thus excluded from his lot will be refunded to him with simple interest at 10 per cent.

19. All grants of waste land already made for a term of years under previously existing rules, in which no right of occupancy or proprietorship exists, except that of the grantee or that derived from him, will be treated for the purposes of this Rule as if the land were permanently settled; and the grantees or their representatives may redeem the future Land Revenue of such grants or of any compact part of them in perpetuity for an amount equal to the present value of all future stipulated annual payments calculated at five per cent. interest, provided the said amount is not less than two Rupees eight annas an acre on the whole area of which the Revenue is redeemed.

20. All sales of waste land and all redemptions made under these Rules in each Division will be reported immediately to the Board of Revenue in such form as the Board may direct, but no sale of waste lands once made by a Collector in conformity with these Rules will be disturbed by any higher executive authority.

21. Reserves of grazing and forest land, of land for the growth of firewood near towns and stations, of building sites, parks, recreation grounds, and the like, and of land required for other special purposes are not to be sold under these Rules without the express sanction of the Government. A list of these lands is under preparation by the Board of Revenue, and when it has been approved by the Government it will be published in the *Gazette*.

22. Lands for the purchase of which application has been made under the Resolution of the 17th October 1861 will, if such application were duly registered, be dealt with in accordance with the terms of the said Resolution so far as the Law allows.

23. From and after the date of the promulgation of these Rules no fresh applications for grants of waste land under any previous Rules will be entertained.

Secretary.

Present:

The Queen's Most Excellent Majesty in Council.

Whereas, by an Act passed in the fifty-ninth year of the reign of His late Majesty King George the Third, intituled "An Act to prevent the enlisting or engagement of His Majesty's Subjects to serve in Foreign service, and the fitting out or equipping in His Majesty's Dominions Vessels for Warlike purposes without His Majesty's Licence" it was enacted and declared, that if any natural-born Subject of His Majesty, His heirs and successors, without the leave or licence of His Majesty, His heirs or successors, for that purpose first had and obtained under the Sign Manual of His Majesty, His heirs or successors, or signified by Order in Council, or by Proclamation of His Majesty, His heirs or successors, should take or accept, or should agree to take or accept, any Military Commission, or should otherwise enter into the Military service as a Commissioned or Non-Commissioned Officer, or should enlist or enter himself to enlist, or should agree to enlist or to enter himself to serve as a Soldier, or to be employed, or should serve in any Warlike or Military operation in the service of or for or under or in aid of any Foreign Prince, State, Potentate, Colony, Province, or part of any Province or people, or of any person or persons exercising or assuming to exercise the powers of Government in or over any Foreign Country, Colony, Province, or part of any Province or people, either as an Officer or Soldier, or in any other Military capacity; or if any natural-born Subject of His Majesty should, without such leave or licence as aforesaid, accept, or agree to take or accept, any Commission, Warrant, or appointment

as an Officer, or should enlist or enter himself, or should agree to enlist or enter himself to serve as a Sailor or Marine, or to be employed or engaged, or should serve in and on board any Ship or Vessel of War, or in and on board any Ship or Vessel used or fitted out, or equipped, or intended to be used, for any Warlike purpose, in the service of or for or under or in aid of any Foreign Power, Prince, State, Potentate, Colony, Province, or part of any Province or people, or of any person or persons exercising or assuming to exercise the powers of Government in or over any Foreign Country, Colony, Province, or part of any Province or people; or if any natural-born Subject of His Majesty, should, without such leave and license as aforesaid, engage, contract, or agree to go, or should go to any Foreign State, Country, Colony, Province, or part of any Province, or to any place beyond the seas, with an intent or in order to enlist or enter himself to serve, or with intent to serve in any Warlike or Military operation whatever, whether by land or by sea, in the service of or for or under or in aid of any Foreign Prince, State, Potentate, Colony, Province, or part of any Province or people, or in the service of or for or under or in aid of any person or persons exercising or assuming to exercise the powers of Government in or over any Foreign Country, Colony, Province, or part of any Province or people, either as an Officer or a Soldier, or in any other Military capacity, or as an Officer, or Sailor, or Marine, in any such Ship or Vessel as aforesaid, although no enlisting money, or pay, or reward should have been or should be, in any or either of the cases aforesaid, actually paid to or received by him, or by any person to or for his use or benefit; or if any person whatever, within the United Kingdom of Great Britain and Ireland, or in any part of His Majesty's Dominions elsewhere, or in any Country, Colony, Settlement, Island or place belonging to or subject to His Majesty should hire, retain, engage or procure, or should attempt or endeavor to hire, retain, engage or procure any person or persons whatever to enlist, or to enter or engage to enlist, or to serve or to be employed in any such service or employment as aforesaid, as an Officer, Soldier, Sailor, or Marine, either in land or sea service, for or under or in aid of any Foreign Prince, State, Potentate, Colony, Province, or part of any Province, or people, or for or under or in aid of any person or persons exercising or assuming to exercise any powers of Government as aforesaid, or to go, or to agree to go, or embark from any part of His Majesty's Dominions for the purpose, or with intent to be so enlisted, entered, engaged, or employed as aforesaid, whether any enlisting money, pay, or reward should have been or should be actually given or received, or not; in any or either of such cases every person so offending should be deemed guilty of a misdemeanor, and upon being convicted thereof, upon any information or indictment, should be punishable by fine and imprisonment, as in the said Act is mentioned.

And that if any person, within any part of the United Kingdom, or in any part of His Majesty's Dominions beyond the seas, should, without the leave and licence of His Majesty for that purpose first had and obtained as aforesaid, equip, furnish, fit out, or arm, or attempt or endeavor to equip, furnish, fit out, or arm, or procure to be equipped, furnished, fitted out, or armed, or should knowingly aid, assist, or be concerned in the equipping, furnishing, fitting out, or arming of any Ship or Vessel with intent, or in order that such Ship or Vessel should be employed in the service of any Foreign Prince, State, or Potentate, or of any Foreign Colony, Province, or part of any Province or people, or of any person or persons exercising or assuming to exercise any powers of Government in or over any Foreign State, Colony, Province, or part of any Province or people as a transport or store Ship, or with intent to cruize or commit hostilities against any Prince, State, or Potentate, or against the Subjects or Citizens of any Prince, State, or Potentate, or against the persons exercising or assuming to exercise the powers of Government in any Colony, Province, or part of any Province or Country, or against the inhabitants of any Foreign Colony, Province, or part of any Province or Country with whom His Majesty should not then be at war; or should, within the United Kingdom, or any of His Majesty's Dominions, or in any Settlement, Colony, Territory, Island, or place belonging or subject to His Majesty issue or deliver any Commission for any Ship or Vessel, to the intent that such Ship or Vessel should be employed as aforesaid, every such person so offending should be deemed guilty of a misdemeanor, and should, upon conviction thereof, upon any information or indictment, be punished by fine and imprisonment, or either of them, at the discretion of the Court in which such offender should be convicted; and every such Ship or Vessel, with the tackle, apparel, and furniture, together with all the materials, arms, ammunition, and stores which may belong to or be on board of any such Ship or Vessel, should be forfeited; and it should be lawful for any Officer of His Majesty's Customs or Excise, or any Officer of His Majesty's Navy, who is by law empowered to make seizures for any forfeiture incurred under any of the laws of Customs or Excise, or the laws of Trade and Navigation, to seize such Ships and Vessels aforesaid, and in such places and in such manner in which the Officers of His Majesty's Customs or Excise and the Officers of His Majesty's Navy are empowered respectively to make seizures under the laws of Customs and Excise, or under the laws of Trade and Navigation; and that every such Ship and Vessel, with the tackle, apparel, and furniture, together with all the materials, arms, ammunition, and stores which may belong to or be on board of such Ship or Vessel, may be prosecuted and condemned in the like manner and in such Courts as Ships or Vessels may be prosecuted and condemned for any breach of the laws made for the protection of the revenues of Customs and Excise, or of the laws of Trade and Navigation.

Her Majesty, by and with the advice of Her Privy Council, being desirous of enabling Her Subjects to engage in and enter the Naval and Military service of the Emperor of China, is pleased to order, and it is hereby ordered, that from and after the first day of September next it shall be lawful for Horatio Nelson Lay, one of Her Majesty's Subjects, and Sherard Osborn, a Captain in Her Majesty's Navy, to enter into the Military and Naval Service of the said Emperor, and to accept any Commission, Warrant, or other appointment under the said Emperor, and to accept any money, pay, or reward for their services, and to fit out, equip, purchase, and acquire Ships or

Vessels of War for the use of the said Emperor, and to engage and enlist British Subjects to enter the Military and Naval service of the said Emperor. And it is hereby further ordered, that it shall be lawful for every British Subject to enlist and enter himself, by engaging and enlisting himself with the said Horatio Nelson Lay and Sherard Osborn, and no other person or persons whatsoever, in the Military and Naval service of the said Emperor, and to serve the said Emperor in any Military, Warlike, or other operations, either by land or by sea, and for that purpose to go to any place or places beyond the seas, and to accept any Commission, Warrant, or other appointment from or under the said Emperor, and to accept any money, pay, or reward for his service: Provided, always, that the licence and permission hereby given shall be in force only for the term of two years from the said first day of September next, unless, by Order in Council made in manner aforesaid, such period should be further extended.

MARINE DEPARTMENT.

No. 528.

Fort William, the 17th October 1862.

The following Rules for entering the Harbour of Port Blair are published for general information :—

The Penal Settlement of Port Blair, on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11° 43' North, and Longitude 92° 47' East from Greenwich; it has a spacious and safe harbour extending a considerable distance inland; the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent.

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of 1½ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it, in not less than 10 fathoms, and stand to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E., Magnetic, then stand for the anchorage about S. S. E., and anchor off the town in from 9 to 15 fathoms, sandy bottom, about 500 yards from the beach, with the Superintendent's house on the hill bearing from E. by N. to E. N. E. Magnetic, and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys inside of which it would not be prudent to borrow.

The South Channel, formed between the South end of Ross Island and the Main, is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesostris Reef," a dangerous patch, having only 1½ fathoms in some parts, rocky, uneven ground, bears S½ E. Magnetic, about three-fourths of a mile from the South end of Ross Island; it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth as the ground about is rocky and uneven.

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E. Magnetic, and steer for it, passing well to the Westward of the Reef buoy; and with the buoy bearing S. 25 E. Magnetic, and the South end of Ross Island N. by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S. W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island, if possible, and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.

JOHN G. REDDIE.

TREATY of Commerce and Navigation between Her Majesty and he King of the Belgians.

Signed at London, July 23, 1862.

[*Ratifications exchanged at London, August* 30, 1862.]

HER Majesty the Queen of the United Kingdom of Great Britain and Ireland, and His Majesty the King of the Belgians, being equally animated by the desire to facilitate and extend the relations of commerce and navigation between their respective dominions; and being desirous, with a view to so beneficial an object, to remove the obstacles which impede the commercial relations between the two countries, have resolved to conclude a Treaty for that purpose, and have named as their Plenipotentiaries, that is to say:

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Right Honorable John Earl Russell, Viscount Amberley of Amberley and Ardsalla, a Peer of the United Kingdom, Knight of the Most Noble Order of the Garter, a Member of Her Britannic Majesty's Most Honourable Privy Council, Her Britannic Majesty's Principal Secretary of State for Foreign Affairs; and the Right Honourable Thomas Milner Gibson, a Member of Her Britannic Majesty's Most Honourable Privy Council, a Member of Parliament, and President of the Committee of Privy Council for Affairs of Trade and Foreign Plantations;

And His Majesty the King of the Belgians, the Sieur Sylvain Van de Weyer, His Envoy Extraordinary and Minister Plenipotentiary to Her Britannic Majesty, Grand Cross of the Order of Leopold, decorated with the Iron Cross, Grand Cross of the Order of Charles III of Spain, of the Order of the Ernestine Branch of Saxony, of the Tower and Sword, of St. Maurice and St. Lazarus, Commander of the Legion of Honour, &c.;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon the following Articles:—

SA Majesté la Reine du Royaume Uni de la Grande Bretagne et d'Irlande, et Sa Majesté le Roi des Belges, animés d'un égal désir de faciliter et d'étendre les rapports de commerce et de navigation entre leurs Etats respectifs; et voulant, pour arriver à un but si utile, faire disparaître les obstacles qui entravent les relations commerciales entre les deux pays, ont résolu de conclure un Traité à cet effet, et ont nommé pour leurs Plénipotentiaires, savoir:

Sa Majesté la Reine du Royaume Uni de la Grande Bretagne et d'Irlande, le Très Honorable Jean Comte Russell, Vicomte Amberley de Amberley et Ardsalla, Pair du Royaume Uni, Chevalier du Très Noble Ordre de la Jarretière, Membre du Très Honorable Conseil Privé de Sa Majesté Britannique, Principal Secrétaire d'Etat de Sa Majesté Britannique pour les Affaires Etrangères; et le Très Honorable Thomas Milner Gibson, Membre du Très Honorable Conseil Privé de Sa Majesté Britannique, Membre du Parlement, et Président du Comité du Conseil Privé pour les Affaires de Commerce et des Colonies:

Et Sa Majesté le Roi des Belges, le Sieur Sylvain Van de Weyer, Son Envoyé Extraordinaire et Ministre Plénipotentiaire prés Sa Majesté Britannique, Grand-Croix de l'Ordre de Léopold, décoré de la Croix de Fer, Grand-Croix de l'Ordre de Charles III d'Espagne, de l'Ordre de la Branche Ernestine de Saxe, de la Tour et de l'Epée, de St. Maurice et St. Lazare, Commandeur de la Légion d'Honneur, &c.;

Lesquels, après s'être réciproquement communiqué leurs pleins pouvoirs respectifs, trouvés en bonne et due forme, sont convenus des Articles suivants:—

ARTICLE I.

There shall be reciprocal liberty of commerce between all the dominions and possessions of the two High Contracting Parties; and the subjects of each of them shall, throughout the whole extent of the territories and possessions of the other, enjoy the same rights, privileges, liberties, favours, immunities, and exemptions, in matters of commerce and navigation, which are or may be enjoyed by native subjects.

ARTICLE II.

The subjects of one of the two High Contracting Parties residing in the dominions of the other, shall have the same liberty as native subjects to manage their own affairs themselves, or to commit them to the management of any other persons, as brokers, factors, agents, or interpreters. They shall not be restrained in their choice, and shall not be obliged to pay any salary or remuneration to any person whom they shall not choose to employ in those capacities; buyers and sellers being at perfect liberty to bargain together, and to fix the price of any goods or merchandize imported or destined for exportation, on condition of observing the regulations and the Customs laws of the country.

ARTICLE III.

In all that relates to navigation and commerce, the High Contracting Parties shall not grant any privilege, favour, or immunity to any other country, which shall not be also and immediately extended to their respective subjects.

ARTICLE IV.

All vessels which according to the laws of Great Britain are to be deemed British vessels, and all vessels which according to the laws of Belgium are to be deemed Belgian vessels, are declared to be British and Belgian vessels respectively.

ARTICLE V.

No duties of tonnage, harbour, light-house, pilotage, quarrantine, or other similar or corresponding duties, of whatever nature or under whatever denomination, levied for the profit or in the name of the Government, public functionaries, *communes*, corporations, or establishments of whatever kind, shall be imposed in the ports of either country, upon the vessels of the other country, from whatever port or place arriving, which shall not be equally imposed in the like cases on national vessels.

ARTICLE VI.

In all that regards the stationing, the loading, and unloading of vessels in the ports, basins, docks, roadsteads, harbours, or rivers of the two countries, no privilege shall be granted to national vessels, which shall not be equally granted to vessels of the other country; the intention of the High Contracting Parties being, that in this respect also the respective vessels shall be treated on the footing of perfect equality.

ARTICLE VII.

British vessels entering a port of Belgium, and reciprocally, Belgian vessels entering a port of Great Britain or of the British Possessions, and desiring to discharge only a part of their cargo, may, subject to compliance with the laws and regulations of the respective countries, retain on

ARTICLE I.

Il y aura liberté réciproque de commerce entre tous les Etats et possessions des deux Hautes Parties Contractantes; et les sujets de chacune d'elles, dans toute l'étendue des territoires et possessions de l'autre jouiront des mêmes droits, privilèges, libertés, faveurs, immunités, et exemptions, en matière de commerce et de navigation, dont jouissent ou jouiront les nationaux.

ARTICLE II.

Les sujets de l'une des Hautes Parties Contractantes résidant dans les Etats de l'autre, seront respectivement libres de régler, comme les nationaux, leurs affaires par eux-mêmes, ou de les confier aux soins de toutes autres personnes, telles que courtiers, facteurs, agents, ou interprètes. Ils ne pourront être contraints dans leur choix, et ils ne seront tenus à payer aucun salaire ni aucune rétribution à ceux qu'ils n'auront pas jugé à propos d'employer à cet effet; étant absolument facultatif aux vendeurs et acheteurs de contracter ensemble leur marché, et de fixer le prix de toutes denrées ou marchandises importées ou destinées à l'exportation, sous la condition de se conformer aux règlements et aux lois des douanes du pays.

ARTICLE III.

En tout ce qui concerne la navigation et le commerce, les Hautes Parties Contractantes ne pourront accorder aucun privilège, faveur, ou immunité à un autre Etat, qui ne soit aussi et à l'instant étendu à leurs sujets respectifs.

ARTICLE IV.

Tous les navires qui, d'après les lois de la Grande Bretagne, sont considérés comme navires Britanniques, et tous les navires qui, d'après les lois de la Belgique sont considérés comme navires Belges, sont déclarés respectivement navires Britanniques et navires Belges.

ARTICLE V.

Aucun droit de tonnage, de port, de phare, de pilotage, de quarantaine, ou autres droits semblables ou équivalents, de quelque nature ou sous quelque dénomination que ce soit, perçu au profit ou au nom du Gouvernement, des fonctionnaires publics, des communes, corporations, ou établissements quelconques, ne sera imposé dans les ports de chacun des deux pays sur les navires de l'autre nation, arrivant d'un port ou endroit quelconque, qui ne soit pas également imposé en pareil cas sur des navires nationaux.

ARTICLE VI.

En tout ce qui concerne le placement des navires, leur chargement et leur déchargement dans les ports, basins, docks, rades, hâvres, ou rivières des deux Etats, il ne sera accordé aucun privilège aux navires nationaux, qui ne le soit également à ceux de l'autre Etat; la volonté des Hautes Parties Contractantes étant que, sous ce rapport aussi, les bâtiments respectifs soient traités sur le pied d'une parfaite égalité.

ARTICLE VII.

Les navires Britanniques entrant dans un port de Belgique, et réciproquement les navires Belges entrant dans un port de la Grande Bretagne ou de ses Possessions, et qui n'y voudraient décharger qu'une partie de leur cargaison, pourront, en se conformant toutefois aux lois et réglements des

board that part of the cargo which is destined for another port, whether in the same country or in any other country, and may re-export the same, without being compelled to pay, upon such retained part of their cargo, any duty of Customs save those for watching, which, of course, shall be levied only at the rate fixed for national vessels.

ARTICLE VIII.

Goods of every kind which are or many be legally importable into the ports of the United Kingdom of Great Britain and Ireland, its Colonies and Possessions, in British vessels, may likewise be imported into such ports in Belgian vessels, without being liable to other or higher duties, of whatever denomination, than if such goods were imported in national vessels.

Reciprocally, goods of every kind which are or may be legally importable into the ports of Belgium in Belgian vessels, may likewise be imported into such ports in British vessels, without being liable to other or higher duties, of whatever denomination, than if such goods were imported in national vessels.

ARTICLE IX.

Goods of every kind which may be exported either from Belgium by British vessels, or from Great Britain and the British Possessions by Belgian vessels, for whatever destination, shall not be liable to any other duties or formalities on departure than if they were exported in national vessels; and they shall enjoy, under either flag, all bounties and drawbacks, or other favours, which are or may be granted in each of the two countries to national vessels.

ARTICLE X.

During the period allowed by the laws of the two countries for the warehousing of goods, no other duties than those for custody and storage shall be levied upon articles imported from one of the two countries into the other, until they shall be removed for transit, re-exportation, or internal consumption.

In no case shall such articles pay higher duties, or be liable to other formalities, than if they had been imported under the national flag, or from the most favoured country.

ARTICLE XI.

Goods of every kind coming from or going to either of the two countries shall reciprocally be exempted from all transit duty.

The prohibition in regard to gunpowder is, however, maintained; and the two High Contracting Parties reserve to themselves to subject the transit of arms of war to special authorizations.

The treatment of the most favoured nation is reciprocally guaranteed to each of the two countries in all that concerns transit and warehousing.

Etats respectifs, conserver à leur bord la partie de cargaison qui serait destinée à un autre port, soit du même pays, soit d'un autre, et la ré-exporter, sans être astreints à payer pour cette dernière partie de leur cargaison aucun droit de douane, sauf ceux de surveillance, lesquels, d'ailleurs, ne pourront naturellement être perçus qu'au taux fixé pour la navigation nationale.

ARTICLE VIII.

Les marchandises de toute espèce dont l'importation dans les ports du Royaume Uni de la Grande Bretagne et d'Irlande, ses Colonies et Possessions, est ou sera légalement permise sur des bâtiments Britanniques, pourront également y être importées sur des bâtiments Belges, sans être assujetties à d'autres ou de plus forts droits, de quelque dénomination que ce soit, que si les mêmes marchandises étaient importées sur des bâtiments nationaux.

Réciproquement, les marchandises de toute espèce dont l'importation dans les ports de Belgique est ou sera légalement permise sur des bâtiments Belges, pourront également y être importés sur des bâtiments Britanniques, sans être assujetties à d'autres ou de plus forts droits, de quelque dénomination que ce soit, que si les mêmes marchandises étaient importées sur des bâtiments nationaux.

ARTICLE IX.

Les marchandises de toute nature qui seront exportées de Belgique par navires Britanniques, ou de la Grande Bretagne et de ses Possessions par navires Belges, pour quelque destination que ce soit, ne seront pas assujetties à d'autres droits ni formalités de sortie que si elles étaient exportées par navires nationaux; et elles jouiront, sous l'un et l'autre pavillon, de toutes primes ou restitutions de droits, ou autres faveurs, qui sont ou seront accordées, dans chacun des deux pays, à la navigation nationale.

ARTICLE X.

Pendant le temps fixé par les lois des deux pays respectivement pour l'entreposage des marchandises, il ne sera perçu aucuns droits autres que ceux de garde et d'emmagasinage sur les objets importés de l'un des deux pays dans l'autre, en attendant leur transit, leur réexportation, ou leur mise en consommation.

Ces objets, en aucun cas, ne paieront de plus forts droits, et ne seront assujettis à d'autres formalités, que s'ils avaient été importés sous pavillon national, ou provenaient du pays le plus favorisé.

ARTICLE XI.

Les marchandises de toute nature venant de l'un des deux Etats, ou y allant, seront réciproquement exemptes, dans l'autre Etat, de tout droit de transit.

Toutefois, la prohibition est maintenue pour la poudre à tirer; et les deux Hautes Parties Contractantes se réservent de soumettre à des autorisations spéciales le transit des armes de guerre.

Le traitement de la nation la plus favorisée est réciproquement garanti à chacun des deux pays pour tout ce qui concerne le transit et l'entreposage.

ARTICLE XII.

With regard to the coasting trade, it is agreed between the High Contracting Parties that the subjects and vessels of each of them shall, in the dominions and possessions of the other, enjoy the same privileges, and be treated in all respects on the same footing, as national subjects and vessels.

With regard to the coasting trade in the Colonies, the stipulations of the present Article shall be applicable only to the coasting trade of such of the Colonies of Her Britannic Majesty as have applied or shall hereafter apply, in conformity with the Acts of Parliament which govern this matter, that their coasting trade may be open to foreign vessels.

ARTICLE XIII.

The regulations established for goods imported from France into Belgium by Articles XVIII to XXVI inclusive, of the Treaty of Commerce concluded between the two countries on the 1st of May 1861, shall equally apply in Belgium to the same goods imported from Great Britain and its Possessions.

With regard to pure or mixed tissues, taxed *ad valorem*, the valuation of which in the ports may appear to the Belgian Government to present difficulties, the Belgian Government reserves to itself the power to designate the Custom-house of Brussels exclusively for the admission of such goods.

ARTICLE XIV.

Neither of the two High Contracting Parties shall impose upon goods the produce or manufacture of the other party, other or higher duties of importation than such as are or may be imposed upon the same goods the produce of any other foreign country.

Each of the two Parties engages to extend to the other any favour or privilege, or reduction in the Tariff of duties of importation or exportation, on articles mentioned, or not mentioned, in the present Treaty, which either of them may grant to any third Power. They engage, moreover, not to establish against each other any duty or prohibition of importation or exportation, which shall not, at the same time, be applicable to all other nations.

It is further agreed that if sea salt refined in Belgium should obtain a deduction of more than seven per cent. from the general duty of excise, British salt refined in Belgium shall enjoy, at the same moment, a deduction from the excise which shall not be inferior by more than seven per cent. to the deduction granted to sea salt.

ARTICLE XV.

Articles the produce or manufacture of Belgium shall not be subject in the British Colonies to other or higher duties than those which are or may be imposed upon similar articles of British origin.

ARTICLE XVI.

The subjects of one of the High Contracting Parties shall enjoy, in the dominions of the other, the same protection as native subjects in all that relates to property in trade marks, as well as in industrial and manufacturing patterns and models of every description.

ARTICLE XII.

En ce qui concerne le cabotage, il est convenu entre les Hautes Parties Contractantes que les sujets et les navires de chacune d'elles jouiront, dans les Etats et possessions de l'autre, des mêmes privilèges, et seront traités à tous égards sur le même pied, que les sujets et les navires nationaux.

En ce qui concerne le cabotage dans les Colonies les stipulations du présent Article ne seront applicables qu'au cabotage de celles d'entre les Colonies de Sa Majesté Britannique qui ont demandé ou qui demanderont ultérieurement, conformément aux Actes du Parlement qui régissent cettematière, que leur cabotage soit ouvert aux navires étrangers.

ARTICLE XIII.

Les règles consacrées pour les marchandises importées de France en Belgique, par les Articles XVIII à XXVI inclus, du Traité de Commerce conclu entre ces deux Etats le 1er Mai 1861, s'appliqueront également en Belgique aux mêmes marchandises importées de la Grande Bretagne et de ses Possessions.

A l'égard des tissus purs ou mélangés, taxés à la valeur, dont l'estimation dans les ports lui paraîtrait présenter des difficultiés, le Gouvernement Belge se réserve la faculté de désigner exclusivement la Douane de Bruxelles pour l'admission de ces marchandises.

ARTICLE XIV.

Ni l'une ni l'autre des deux Hautes Parties Contractantes n'imposera sur les marchandises provenant du sol ou de l'industrie de l'autre partie, d'autres ni de plus forts droits d'importation que ceux qui sont ou seront imposés sur les mêmes marchandises provenant de tout autre Etat étranger.

Chacune des deux Parties s'engage à faire profiter l'autre de toute faveur, de tout privilége, ou abaissement dans les Tarifs des droits à l'importation ou à l'exportation des articles mentionés ou non dans le présent Traité, que l'une d'elles pourrait accorder à une tierce Puissance. Elles s'engagent, en outre, à n'établir l'une envers l'autre aucun droit ou prohibition d'importation ou d'exportation, qui ne soit en même temps applicable aux autres nations.

Il est convenu, enfin que si les sels marins raffinés en Belgique venaient à obtainer une déduction de plus de sept pour cent du droit général de l'accise le sel Britannique raffiné en Belgique jouira, à l'instant même, d'une déduction de l'accise qui ne pourra être inférieure de plus de sept pour cent à la déduction accordée aux sels marins.

ARTICLE XV.

Les produits d'origine ou de manufacture Belge ne seront pas grevés dans les Colonies Britanniques d'autres ou de plus forts droits que ceux qui frappent ou frapperont les produits similaires originaires de la Grande Bretagne.

ARTICLE XVI.

Les sujets de l'une des Hautes Parties Contractantes jouiront, dans les Etats de l'autre, de la même protection que les nationaux, pour tout ce qui concerne la propriété des marques de fabrique ou de commerce, ainsi que des dessins ou modèles industriels et de fabrique de toute espèce.

The exclusive right to make use of an industrial or manufacturing pattern or model shall not, with regard to British subjects in Belgium, and reciprocally with regard to Belgian subjects in Great Britain, have a duration longer than that fixed by the law of the country for native subjects.

If the industrial or manufacturing pattern or model is open to the public in the country of origin, it cannot be made the subject of an exclusive right in the other country.

The provisions of the two preceding paragraphs are applicable to trade marks.

The rights of subjects of one of the High Contracting Parties in the dominions of the other are not subject to the condition that the models or patterns shall be worked there.

The present Article shall not be put into operation in either country, with regard to such models or patterns, until the expiration of a year from the date of the signature of the present Treaty.

ARTICLE XVII.

Belgian subjects shall not have the right to claim in Great Britain exclusive property in a mark, model, or pattern, unless they shall have previously complied with the regulations, if any, which are or may be in force for the deposit at London, by British subjects, of marks, models, or patterns.

Reciprocally, British subjects shall not have the right to claim in Belgium exclusive property in a mark, model, or pattern, unless they shall have previously complied with the laws and regulations on those subjects which are or may be in force in Belgium.

ARTICLE XVIII.

Each of the High Contracting Parties shall have the right to name Consuls for the protection of trade in the dominions and territories of the other Party; and the Consuls who may be so appointed shall enjoy, within the territories of each Party, all the privileges, exemptions, and immunities which are or may be granted in those territories to Agents of the same rank and character appointed by or authorized to act for the Government of the most favoured nation.

Before any Consul can act as such, he must, however, in the usual form, be approved and admitted by the Government of the country to which he is sent; and each of the two High Contracting Parties shall have the right to except from the residence of Consuls any particular places which either of them may judge proper to be excepted.

ARTICLE XIX.

If any vessel of war or merchant-vessel of either of the two countries should be wrecked upon the coasts of the other, such vessel, or any parts thereof, and all furniture and appurtenances belonging thereunto, as well as all goods and merchandize which shall be saved therefrom, or the proceeds thereof, if sold, shall be restored to the proprietors or to their agents, on being claimed by them. In case there should be no such proprietors or agents upon the spot, the said articles and goods, or the proceeds thereof, as well as all the papers found on board of any such vessel, shall be delivered to the British or Belgian Consul in whose district the wreck shall have taken place; and such Consul, proprietors, or agents shall

Le droit exclusif d'exploiter un dessin ou modèle industriel ou de fabrique ne pourra avoir, au profit des sujets Britanniques en Belgique, et réciproquement au profit des Belges dans la Grande Bretagne, une durée plus longue que celle fixée par la loi du pays à l'égard des nationaux.

Si le dessin ou modèle industriel ou de fabrique appartient au domaine public dans le pays d'origine, il ne peut être l'objet d'une jouissance exclusive dans l'autre pays.

Les dispositions des deux paragraphes qui précèdent sont applicables aux marques de fabrique ou de commerce.

Les droits des sujets de l'une des Hautes Parties Contractantes dans les Etats de l'autre ne sont pas subordonnés à l'obligation d'y exploiter les modèles ou dessins industriels ou de fabrique.

Le présent Article ne recevra son exécution, dans l'un et l'autre pays, à l'égard des modèles ou dessins industriels ou de fabrique, qu'à l'expiration d'une année à dater du jour de la signature du présent Traité.

ARTICLE XVII.

Les Belges ne pourront revendiquer dans la Grande Bretagne la propriété exclusive d'une marque, d'un modèle, ou d'un dessin, s'ils ne se sont préalablement conformés aux règlements, s'il en est, qui sont ou seront en vigueur pour le dépôt à Londres, par les sujets Britanniques, des marques, modèles, ou dessins.

Réciproquement, les sujets Britanniques ne pourront revendiquer en Belgique la propriété exclusive d'une marque, d'un modèle, ou d'un dessin, s'ils ne se sont préalablement conformés aux lois et aux réglements sur cette matière qui sont ou seront en vigueur en Belgique.

ARTICLE XVIII.

Chacune des Hautes Parties Contractantes aura le droit de nommer des Consuls pour la protection du commerce dans les Etats ou territoires de l'autre partie; et les Consuls qui seront nommés ainsi, jouiront dans les territoires de chaque Partie de tous les privilèges, exemptions, et immunités qui sont ou pourront être accordés dans ces Etats aux Agents du même rang et caractère nommés ou autorisés par le Gouvernement de la nation la plus favorisée.

Avant que quelque Consul puisse agir comme tel, il devra être approvè et admis dans les formes usitées par le Gouvernement auprès duquel il est envoyé; et chacune des Hautes Parties Contractantes aura la faculté d'excepter de la résidence des Consuls tels endroits spéciaux que chacune d'elles pourra juger à propos d'excepter.

ARTICLE XIX.

S'il arrivait que quelque vaisseau de guerre ou navire marchand de l'un des deux Etats fît naufrage sur les côtes de l'autre, ce bâtiment ou ses parties ou débris, ses agrès, et tous les objets qui y appartiendront, ainsi que tous les effets et marchandises que en auront été sauvés, ou le produit de leur vente, en seront rendus aux propriétaries ou à leurs ayant-droits sur leur réclamation. Dans le cas où ceux-ci se trouveraient absents, les dits objets, marchandises, ou leur produit, seront consignés, ainsi que tous les papiers trouvés à bord de ce bâtiment, au Consul Britannique ou Belge dans le district duquel le naufrage aura eu lieu; et il ne sera exigé, soit du Consul, soit des propriétaires ou

not be called upon to pay any charge but the expenses incurred in the preservation of the property, and the same rate of salvage which would be equally payable, under the like circumstances, by a national vessel. The goods and merchandize saved from the wreck shall not be subject to the established duties, unless cleared for consumption.

ARTICLE XX.

The British flag shall continue to enjoy in Belgium the re-payment of the Scheldt Toll so long as the Belgian flag shall enjoy the same.

ARTICLE XXI.

From and after, at latest, the day on which the capitalization of the Scheldt Toll shall be effected by a general arrangement,—

1. The tonnage duty imposed in Belgian ports shall cease to be levied;

2. The pilotage duties in Belgian ports and in the Scheldt, so far as depends upon Belgium, shall undergo a reduction—

Of 20 per cent. for sailing vessels;
Of 25 per cent. for vessels towed;
Of 30 per cent. for steam-vessels.

3. The system of local taxes imposed by the city of Antwerp shall be throughout diminished.

ARTICLE XXII.

As a temporary exception to the stipulations of Article XIV, and for the space of two years from the 1st of October 1862, the new system shall be applied in the following manner to certain articles of British origin hereinafter enumerated:—

Cotton yarns twisted, warped, or dyed, shall pay the duties imposed upon single yarns unbleached or bleached, with an addition of five centimes for twisted yarns, ten centimes for warped yarns, and fifteen centimes for dyed yarns, per kilogramme.

The duty on stuff of wool mixed with cotton shall be twenty-two and a half per cent. until the 1st of October 1863, and twenty per cent. until the 1st of October 1864. During the continuance of the transitory system the importer may, at his choice, pay either one hundred and eighty francs the hundred kilogrammes, or the duties stipulated above.

The duty upon printed cotton tissues shall be one hundred and fifty francs the hundred kilogrammes.

ARTICLE XXIII.

It is understood that in case the present duty on the importation of foreign spirits should be maintained in the British Tariff, the Article relative to spirits which is contained in the Treaty concluded between Belgium and France on the 1st of May 1861, shall not be applied to British spirits, so far as regards the reductions therein stipulated, until the 1st of October 1865.

ARTICLE XXIV.

The Ionian Islands being under the protection of Her Britannic Majesty, the subjects and vessels of those islands shall enjoy, in the dominions of His Majesty the King of the Belgians, all the advantages which are granted to the subjects and vessels of Great Britain by the present Treaty, as soon as the Government of the Ionian Islands shall have agreed to grant to the subjects and vessels of His Majesty the King of the Belgians the same advantages which are granted in those islands to

ayant-droits, que le paiement des dépenses faites pour la conservation de la propriété, et les mêmes droits de sauvetage ou autres qui seraient également payés, en pareille circonstance, par un bâtiment national. Les marchandises et effets sauvés du naufrage ne seront assujetties aux droits établis, qu'autant qu'ils seraient déclarés pour la consommation.

ARTICLE XX.

Le pavillon Britannique continuera à jouir en Belgique du remboursement du péage de l'Escaut, tant que le pavillon Belge en jouira lui-même.

ARTICLE XXI.

A partir, au plus tard, du jour où la capitalisation du péage de l'Escaut sera assurée par un arrangement général,—

1. Le droit de tonnage prélevé dans les ports Belges cessera d'être perçu.

2. Les droits de pilotage dans les ports Belges et dans l'Escaut, en tant qu'il dépendra de la Belgique, seront réduits—

De 20 pour cent pour les navires à voiles;
De 25 pour cent pour les navires remorqués;
De 30 pour cent pour les navires à vapeur.

3. Le régime des taxes locales imposées par la ville d'Anvers sera, dans son ensemble, dégrevé.

ARTICLE XXII.

Par dérogation provisoire à l'Article XIV, et pendant deux années à partir du 1er Octobre 1862, le nouveau régime sera appliqué de la manière suivante aux produits d'origine Britannique ci-après dénommés:—

Les fils de coton tors, ourdis, ou teints, paieront les droits afférents aux fils simples, écrus ou blanchis, augmentés de cinq centimes pour les fils tors, de dix centimes pour les fils ourdis, et de quinze centimes pour les fils teints, par kilogramme.

Le droit sur les étoffes de laine mélangées de coton sera de vingt-deux et demi pour cent jusqu'au 1er Octobre 1863, et de vingt pour cent jusqu'au 1er Octobre 1864. Pendant la durée du régime transitoire, l'importateur pourra, à son choix, payer cent quatre vingts francs par cent kilogrammes, ou les droits stipulés ci-dessus.

Le droit sur les tissus de cotton imprimés sera de cent cinquante francs par cent kilogrammes.

ARTICLE XXIII.

Il est entendu que, dans le cas où le droit actuel sur l'importation des alcools serait maintenu dans le Tarif Anglais, l'Article relatif aux alcools contenu dans le Traité conclu entre la Belgique et la France le 1er Mai 1861, ne recevra son application aux alcools Anglais, dans les réductions qu'il stipule, qu'au 1er Octobre 1865.

ARTICLE XXIV.

Les Iles Ioniennes se trouvant sous la protection de Sa Majesté Britannique, les sujets et les navires de ces îles jouiront, dans les Etats de Sa Majesté le Roi des Belges, de tous les avantages qui sont accordés aux sujets et aux navires de la Grande Bretagne par le présent Traité, aussitôt que le Gouvernement des Iles Ioniennes sera convenu d'accorder aux sujets et aux navires de Sa Majesté le Roi des Belges les mêmes avantages qu'il accorde, dans ces îles, aux sujets

the subjects and vessels of Her Britannic Majesty: it being understood, that in order to prevent abuses, every Ionian vessel claiming the benefits of that Treaty shall be furnished with a patent signed by the Lord High Commissioner of Her Britannic Majesty, or by his representative.

ARTICLE XXV.

The present Treaty shall continue in force for ten years dating from the tenth day after the exchange of the ratifications. In case neither of the two High Contracting Parties should have notified, twelve months before the end of the said period, its intention to terminate the Treaty, it shall remain in force until the expiration of a year dating from the day on which either of the High Contracting Parties shall have given notice for its termination.

The High Contracting Parties reserve to themselves the right to introduce into the Treaty, by common consent, any modifications which may not be at variance with its spirit or principles and the utility of which may be shown by experience.

ARTICLE XXVI.

From and after the date fixed by the preceding Article, the Treaty of Commerce and Navigation of the 27th of October 1851, shall cease to be in force.

ARTICLE XXVII.

The present Treaty shall be ratified, and the ratifications shall be exchanged at London before the first day of September one thousand eight hundred and sixty-two.

In witness whereof the respective Plenipotentiaries have signed the same, and have affixed thereto the seal of their arms.

Done in duplicate at London, the twenty-third day of July, in the year of Our Lord one thousand eight hundred and sixty-two.

et aux navires de Sa Majesté Britannique; bien entendu toutefois que pour prévenir des abus, tout navire Ionien qui sera dans le cas de réclamer les bienfaits de ce Traité sera muni d'une patente signée par le Lord Haut Commissaire de Sa Majesté Britannique, ou par celui qui le représente.

ARTICLE XXV.

Le présent Traité restera en vigueur pendant dix années à partir du dixième jour après l'échange des ratifications. Dans le cas où aucune des deux Hautes Parties Contractantes n'aurait notifié, douze mois avant la fin de la dite période, son intention d'en faire cesser les effets, le Traité demeurera obligatoire jusqu'à l'expiration d'une année, à partir du jour où l'une ou l'autre des Hautes Parties Contractantes l'aura dénoncé.

Les Hautes Parties Contractantes se réservent la faculté d'introduire, d'un commun accord, dans ce Traité, toutes modifications qui ne seraient pas en opposition avec son esprit ou ses principes, et dont l'utilité serai démontrée par l'expérience.

ARTICLE XXVI.

A partir de l'époque fixée à l'Article précédent, le Traité de Commerce et de Navigation du 27 October 1851, sera hors de vigueur.

ARTICLE XXVII.

Le présent Traité sera ratifié, et les ratifications en seront échangées à Londres avant le premier September, mil huit cent soixante-deux.

En foi de quoi les Plénipotentiaires respectifs l'ont signé, et y ont apposé le cachet de leurs armes.

Fait à Londres, en double original, le vingt-troisième jour du mois de Juillet, de l'an de grâce mil huit cent soixante-deux.

Protocol of Conference held at the Foreign Office, July 23, 1862, between the Plenipotentiaries of Great Britain and of Belgium.

THE Plenipotentiaries of Her Britannic Majesty and of His Majesty the King of the Belgians, in proceeding to the signature of the Treaty of Commerce and Navigation between their august Sovereigns, place upon record that they have agreed upon the following points:—

1. That the declarations relative to the arrest of seamen deserters, dated the 4th of January 1855, and the Order in Council bearing date the 8th of February, 1855, and published in the "London Gazette," of the 13th of February, shall continue in force and validity, as if they had been inserted in the said Treaty.

2. That although the Fishery Convention concluded on the 22nd of March 1852, between Her Britannic Majesty and His Majesty the King of the Belgians, is provisionally maintained, it is under the reservation made by the Government of His Majesty the King of the Belgians, that they will again bring forward, in a future negotiation, the proposition relative to the reciprocal permission to fish within the marine territorial limit.

Protocole d'une Conférence tenue au Foreign Office, le 23 Juillet 1862, entre les Plénipotentiaires de la Grande Bretagne et de Belgique.

LES Plénipotentiaires de Sa Majesté Britannique et de Sa Majesté le Roi des Belges, en procédant à la signature du Traité de Commerce et de Navigation entre leurs augustes Souverains, constatent qu'ils sont tombés d'accord sur les points suivants:—

1. Que les déclarations relatives à l'arrestation des marins-déserteurs datées du 4 Janvier 1855, et l'Ordre en Conseil daté du 8 Février 1855, et publié dans la Gazette de Londres du 13 Février continueront à avoir force et valeur, comme s'ils eussent été insérés au dit Traité.

2. Que, si la Convention de Pêche conclue le 22 Mars 1852, entre Sa Majesté Britannique et Sa Majesté le Roi des Belges, est provisoirement maintenue, c'est sous la réserve faite par le Gouvernement de Sa Majesté le Roi des Belges qu'il reproduira, dans une subséquente, négociation, la proposition relative à la faculté réciproque de pêcher dans les limites de la mer territoriale.

In maintaining the said Convention concluded on the 22nd of March 1852, an exception to the stipulations of the Treaty of Commerce and Navigation signed this day, is made in so far as regards the advantages which are or may be given in either country to the produce of national fishery.

3. With regard to sugar, the Government of His Majesty the King of the Belgians reserve to themselves to renew their proposition that an agreement should be come to between Great Britain, Belgium, France, the Zollverein, and the Netherlands, for respectively bringing the duties upon raw and refined sugars imported from any one of those countries into the others to an equality with the taxes imposed upon the same productions of national origin, and for terminating simultaneously in those five countries the system of bounties on the exportation of sugar.

The Belgian Government rely upon the support and co-operation of the Government of Her Britannic Majesty for this purpose.

(Signed) Russell.
Thos. Milner Gibson.
Sylvain Van De Weyer.

Il est fait exception, en maintenant la dite Convention conclue le 22 Mars 1852, aux stipulations du Traité de Commerce et Navigation conclu aujourd'hui, en ce qui concerne les avantages dont les produits de la pêche nationale sont ou pourront être l'objet dans l'un ou l'autre pays.

3. En ce qui concerne les sucres, le Gouvernement de Sa Majesté le Roi des Belges se réserve de revenir sur la proposition tendante à établir un accord entre la Grande Bretagne, la Belgique, la France, le Zollverein, et les Pays-Bas, pour ramener respectivement les droits sur les sucres bruts et raffinés, importés de l'un de ces Etats dans les autres, au niveau des taxes imposées aux mêmes produits de fabrication nationale, et pour faire cesser simultanément dans ces cinq pays le régime des primes à l'exportation des sucres.

Pour atteindre ce but, le Gouvernement Belge compte sur l'appui et le concours du Gouvernement de Sa Majesté Britannique.

FINANCIAL DEPARTMENT.

No. 236.

Extract from the Proceedings of the Government of India, in the Financial Department, under date the 28th October 1862.

Resolution.—His Excellency the Governor General in Council observes that the new Silver and Copper Coinage provided by Act XIII. of 1862 will come into circulation from the 1st proximo and that the distinctive appellation of "Company's" Rupee in the transactions of the Indian Empire will no longer be correct and may with advantage be allowed to drop

His Excellency in Council is therefore pleased to direct that in all future public correspondence and accounts the word "Rupee" only be employed to designate the Government Coin of that denomination.

Order.—Ordered, that a copy of the above Resolution be forwarded for information and guidance to the several Departments of the Government of India, to all Local Governments and Administrations, and to all Officers of Audit and Account subordinate to this Department.

Ordered also, that the Resolution be published in the *Calcutta Gazette* for general information and guidance.

MARINE DEPARTMENT.

No. 528.

Fort William, the 17th October 1862.

The following Rules for entering the Harbour of Port Blair are published for general information:—

The Penal Settlement of Port Blair, on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11° 13' North, and Longitude 92° 47' East from Greenwich; it has a spacious and safe harbour extending a considerable distance inland; the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent.

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of 1½ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it, in not less than 10 fathoms, and stand to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E., Magnetic, then stand for the anchorage about S. S. E., and anchor off the town in from 9 to 15 fathoms, sandy bottom, about 500 yards from the beach, with the Superintendent's house on the hill bearing from E. by N. to E. N. E. Magnetic, and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys inside of which it would not be prudent to borrow.

The South Channel, formed between the South end of Ross Island and the Main, is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesostris Reef," a dangerous patch, having only 1½ fathoms in some parts, rocky, uneven ground, bears S½ E. Magnetic, about three-fourths of a mile from the South end of Ross Island; it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth as the ground about is rocky and uneven.

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E Magnetic, and steer for it, passing well to the Westward of the Reef buoy; and with the buoy bearing S. 25 E. Magnetic, and the South end of Ross Island N. by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S. W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island, if possible, and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.

By Order,
JOHN G. REDDIE.

Notice.

Camp Nynee Tal, 21st October 1862.

WITH the sanction of His Excellency the Governor General in Council the following Rules are published for information —

Rules relating to the registration of Letters sent through the Post Office.

By the payment of a fee of four annas in addition to the ordinary postage, *both of which must be prepaid in Stamps,* any Letter, Newspaper, Pamphlet or Book may be registered to any place under the Government of India, or in the United Kingdom and Colonies.

2. Information regarding the Foreign Countries to which letters can be registered, and the conditions thereof, will be found in the "Steam Postage Schedule for the Post Office in India."

3 Letters intended to be registered must be brought to the Post Office at least half an hour before the time fixed for closing the Mail,—if brought after that time they will be stamped "too late" and returned for the following Mail.

4 A Post Master or other Official on being applied to register a letter will grant a receipt and return a copy on the counterpart of the Cheque Book for the purpose, the dated Office Stamp should be affixed to the receipt and also to the copy.

5 So soon as a letter is registered the postage labels thereon should be defaced, and the special Stamp "*Registered*" should be affixed, the address and weight should then be entered in the *yellow cover*, after which the letter and cover should be folded up together and placed under lock and key until the time for closing the Mail

6. On opening a Mail Packet the Post Master should carefully examine the registered letters, and compare the weight of each, with the entries thereof in the Challan and yellow cover, the Office dated Stamp should then be affixed to them and also to the yellow cover, after which they should be disposed of as prescribed in the Rules for opening and distributing the Mail.

7. In disposing of a registered letter care must be taken to ensure *proof* of transfer by each Official through whose hands it passes from the time of receipt to that of delivery, an acknowledgment must therefore be taken by initials or otherwise from each person into whose hands it may be given for *custody, despatch,* or *delivery*

8 On delivery of a registered letter the Postman should obtain the signature of the addressee on the yellow cover, the "original" receipt will be returned in the Delivery Office, and the "duplicate" returned to the Office of Despatch *by the first Mail*

9 The "duplicate" receipt on being returned should be pasted to the counterpart in the Cheque Book, when not received back within the proper time it should be called for, and a note of the requisition made on the duplicate receipt.

10. On a registered letter having to be *redirected,* the duplicate portion of the yellow cover should be receipted and returned to the Office of Despatch, with a remark shewing the Office to which it has been forwarded.

11. When a registered letter cannot be delivered, it should be forwarded, without delay, together with the original yellow cover, to the Office of Despatch, in view to be returned to the sender, and, if he cannot be found, it should be sent to the Dead Letter Office.

12 When a registered letter is found to be missing, the Post Master must *immediately* submit a full and and clear report of the circumstance to the Inspecting Post Master and Post Master General, and also to the Office of Despatch, in view to a searching enquiry being at once instituted to ascertain *where* and *how* it disappeared.

13. The Post Master General will, without delay, bring to the notice of the Director General the loss, or theft, of a registered letter, and on completion of the enquiry instituted thereon report the result.

14. By Section 49 of the Postal Act, Government does not guarantee and is not responsible for the safety of a registered letter, but any Official through whose neglect it may be lost or made away with will be called to strict account and may be required to make good any loss.

15. Registration makes the transmission of a letter more secure by rendering it practicable to trace it from one Official to another. If, therefore, by neglect of prescribed precautions it is lost or made away with, the Officials of the Post Office will have no ground for complaint if held responsible for the consequences of their neglect.

16. As registration does not involve a receipt for the *contents* of a letter, and as abstraction thereof may take place *before*, as well as *after the cover is posted, and even after delivery*, it is recommended that the addressee who expects valuable enclosures should, at the time of granting a receipt, open the letter *in the presence of the Postman.*

17. A letter containing Bank Notes, Postage Stamps, or other valuable articles, should, as a rule, be registered and should be securely folded or enclosed in a substantial envelope and *always sealed with wax*, in order to prevent, as far as possible, its being tampered with.

N. B.—A letter is not ordinarily of importance to any person excepting the addressee, but if valuable articles are enclosed the case is otherwise, and temptation is thrown in the way of the numerous persons in the Post Office through whose hands it passes. Hence the precaution of registering such letters is recommended.

G. Paton,
Director-General of the Post Office of India.

Government of Bengal.

Report of the Dacca Lunatic Asylum for 1861

From DR J McCLELLAND Officiating Principal Inspector, General Medical Department to the HON'BLE A EDEN, Officiating Secretary to the Government of Bengal,—(No 284, dated the 3rd July 1862)

IN transmitting the enclosed carefully prepared Annual Report of the Dacca Lunatic Asylum for 1861 I would very respectfully call the attention of His Honor the Lieutenant-Governor of Bengal to a few points contained in it, these are, first the great benefit which may justly be anticipated from the additional accommodation afforded by the new Buildings lately completed consisting of an extra Ward, a Cook-room both house, and Work shed, as well from the completion by the Overseer of the healthy and commodious house over the gateway commenced for him in September 1860, and finished in the corresponding month of 1861

2 The improvement effected in the internal economy of the Asylum as regards the sleeping, bathing, and conservancy arrangements

3 The success which has attended the use of the Dullundah scale of diet of 1859

4 The encouraging results of the attempt to introduce education.

5 Dr. Simpson is apprehensive that, under the instructions contained in letter No 216 of 13th September 1861, from the Junior Secretary to the Government of Bengal (which allow harmless and imbecile Lunatics to be taken charge of at home by their relatives, if the latter can afford it and prefer the arrangement to that of paying for their support in the Asylum), unfortunate objects will occasionally have no care at all taken of them But these fears seem to be nearly groundless, such cases being specially provided for in Act XXXVI of 1858, which empowers Magistrates to punish severely neglect or ill-treatment of Lunatics on the part of relatives.

6. Dr. Simpson also invites special notice to a new form of Admission Roll* for Native Insanes introduced by him for the Dacca Asylum, with the permission of the Visitors It merely puts forward in more clear detail a demand for the information which the existing form requires to be supplied; and, as I think the new form a decided improvement upon the old one, I would strongly recommend that the sanction of Government be granted to its general substitution for the latter. As, however, it calls at first sight from the terms of the Certificate given in the Act, it might be well to add a note to the effect that the first six heads belong to the Descriptive Roll, and that the succeeding ones merely in expansion of the 1st and 2nd Clauses of the Certificate

I HAVE the honor to forward the Annual Return of the Dacca Lunatic Asylum for the year ending 31st December 1861

1*st Buildings.*—The general plan and construction of the Asylum are both very defective, and could scarcely be improved without re-building the whole A plan of the Asylum, as it now stands, since the completion of the new works, is annexed

2*nd Additional Accommodation.*—There are, since the additional accommodation has been finished, seven large Wards for the males and females, six smaller Wards for six patients in each, and thirty-three single Cells The proportion of the latter is greatly too small.

The "additional" accommodation consists of a Ward for thirty patients. The work was sanctioned on 12th May 1856, but suspended in

consequence of the meeting, and has now been completed. The Ward has a verandah on each side, is well ventilated, and has a privy at one end, on the plan now sanctioned for Jails. The Ward will be used for criminal Lunatics.

This accommodation relieves the overcrowding which has existed for some years, but does not provide for any subsequent increase. Any great increase is not now likely to occur soon, as, under recent orders of the Government as per margin, greater care will be taken in the admission of Lunatics, so that none but those whom it is a public object to confine and pauper Lunatics will be admitted.

Letter No. 127, from Junior Secretary to Government of Bengal, dated 13th September 1861.

3*rd*. *Overseer's House*.—The Overseer's house, sanctioned by the Lieutenant-Governor on 13th August 1860, and commenced in September 1860, was finished in September 1861, and was occupied by the Overseer in October. The house is a two-storied building over the gateway of the Asylum, and will be healthy and commodious. The revised Estimate sanctioned was for Rupees 3,929. The Lunatics supplied labor for making Soorkee, the estimated value of their labor being for 1,924 ferrahs Rupees 86-6-5. In the Estimate Lunatic labor was not chargeable, so that the value could not be credited to the Labor Fund.

4*th*. *Cook-room*.—This Cook-house, sanctioned in 1860, has now been completed. The plan is a good one and the work well executed, and will give ample space for cooking. It has been erected near the gateway close to the Overseer's house, so that he can readily observe what is going on. In this work the Lunatics supplied labor for making 456 ferrahs of Soorkee, valued at Rupees 20-8-4.

This labor was not chargeable on the Estimate, and therefore the values could not be credited to Labor Fund. The Lunatics also have made the fire-places which were not included in the Estimate. A plan of the Cook-shed will be seen in the plan of the Asylum annexed.

5*th*. *Bath House*.—As part of the additional accommodation a Bath house has been erected with boiler and bath, which will be most valuable addition to the Asylum.

6*th*. *Work-shed*.—A Work-shed on pucka pillars and tiled roof substantially made has been erected. The work was finished last month.

The Shed is ninety-six feet long and thirty-two feet broad, and fifteen feet high to ridge.

The cost of the building has been paid from the profits of the Labor Fund. Rupees 700 has been already paid, the balance has not been called for, and amount is not known.

7*th*. *Sentry Box*.—Since the completion of the additional accommodation a Sentry Box will be necessary on the south-west corner (*vide* 35 ground plan of the Asylum). There was an old thatched Sentry Box at 34 on the west wall, which from time had become utterly useless, and has been renewed. This was not renewed in prospect of the additional accommodation being finished, rendering it necessary to change the position of the Keeper on guard. A plan of one has been prepared by the Executive Engineer, and will be submitted to the Visitors of the Asylums for sanction.

8*th*. *Control and Management of Asylum*.—The control and management of the Asylum remains, as before vested in the Visitors, under the revised Rules of 19th July 1860, based on Act XXXVI. of 1858.

The Asylum has been visited monthly by the Visitors, and monthly Reports made through the Deputy Inspector-General of Hospitals to the Principal Inspector-General, Medical Department. These visits have been of the highest practical importance in securing the efficient management of the Asylum and shewing the beneficient care of the Government to the unfortunate objects under confinement.

9*th*. *Establishment of Asylum*.—The Establishment sanctioned by the Visitors on the 2nd June 1860, within the limit of that laid down in the revised Rules, has been found sufficient. Statement No. 27 shews the Establishment on 31st December. The cost is Rupees 57 per mensem less than the standard. This saving has been effected by employing Lunatics who are sufficiently tractable in domestic and other duties within the Asylum.

The employment of Convicts as Mehters, Dhobees, and Day Instructors, has been found successful. From the close contiguity of the Jail they can be made available for a longer time during the day than any I could obtain on same pay, and the Jail has been benefitted by receiving their pay at Rupees 4 per mensem.

During the year the value of convict labor paid to the Jail has been Rupees 304-13.

10*th*. *System of Management*.—During the past year the non-restraint system has been carried out more satisfactorily. The Overseer and Keepers now understand the beneficial effects of the system better. The most dangerous criminal Lunatic, Kishore Chunder, whose case I reported last year, continues to behave most satisfactorily, and from his acuteness in detecting peculation on the part of the cooks, &c., he has been employed as a Keeper on duty at the Cook-room. Mechanical restraint of every kind is strictly prohibited and never employed.

The only restraint employed towards the violent and mischievous during paroxysms is seclusion in one of the compartments during the day and confinement in their Cells during the night.

Locking up violent and excited patients in their Cells during the day has been found to aggravate the paroxysms; locking up by night, being usual, has not that effect. They are unrestrained in their compartment, watched by the Keeper on duty, but not unnecessarily interfered with.

As soon as the Cells are cleaned out in the morning they are locked and not allowed to be used until night, so that they are clean, and the patients compelled in a measure to breathe a purer atmosphere than that of the Cells can be.

Hypodermic Opiate injections continue to be used with marked benefit, and combined with small blisters, to the crown of the head, have been sufficient in a few days to moderate paroxysms: wire setons in the nape of the neck have also been found useful in milder paroxysms.

Under this system there has been no accident or injury of any importance. Occasionally they will quarrel among themselves, but, on the whole, such cases have been few, generally they have occurred during the night in the large Wards.

11*th*. *Conservancy of the Asylum*.—The conservancy is satisfactory: the whole of the night soil is removed daily in iron filth carts to a distance, and no Cess-pools outside or inside the

Asylum allowed. The ground formerly used for Cess-pools has been cultivated. The Establishment of Sweepers is sufficient, and since Convicts have been employed in the in-door part of the duty the cleanliness has been greater.

The Copper Stool Pans, part of the Dullundah system of conservancy, recommended for adoption and sanctioned by the Lieutenant-Governor in 1859, have been introduced, and the amount of Estimate sanctioned has not been exceeded.

12*th*. *Sleeping Arrangements*.—The whole of the Lunatics sleep on wooden platforms, each six feet by two feet six inches and raised four inches on cross battens.

There can be no doubt this tends materially to their health. Thirty additional tukhtposhes have been made up and charged to the Labor Fund, so that there should always be sufficient in store. Each Lunatic has for hot weather a piece of tat and a blanket for night use, and in the cold season two blankets (one old and a new). This is both necessary and most beneficial in this climate.

In consequence of the overcrowded condition of the Asylum forty to fifty Lunatics slept at night in the verandahs, jhamps being used to protect them from the rain; sleeping on tukhtposhes and with the above bedding no injurious effects have resulted.

This was deemed more prudent than overcrowding the Wards. Now that the additional accommodation has been finished this will be no longer necessary.

13*th*. *Bathing*.—The Lunatics, both male and female, are bathed daily under the shower bath. In the hot weather they bathe twice, once early in the morning and again before dinner, after their work. Before the bath they are rubbed with "khullee," mustard oil cake, made into a thin paste with water. This cleanses the skin and leaves it soft and pliant. The emaciated and cachectic patients are daily rubbed with oil and have tepid water bath. The warm Bath-room has been finished, and will, from the 1st proximo, come into use. This Bath-room formed part of the additional accommodation works.

14. *Diet*.—The Dullundah scale of diet, sanctioned in 1859 by the Lieutenant-Governor, has been continued and has been found sufficient as ordinary diet. This allows a little animal food daily to every patient. Those who will eat flesh receive it on alternate days with fish; those who do not eat flesh have fish daily. The cost of the Dullundah diet scale one anna and seven pies per day. Ration has not been exceeded; extra diet articles have been included in it. The articles are supplied by contract and are of good quality, great care being taken that they are supplied in full. The contractor receives the daily indent from the Overseer, and brings the exact quantities of each article ordered, and re-weighs them before him, and at my morning visit they are laid out for my inspection. The quantities are occasionally tested and found correct.

The rations shown to me in the morning are for the evening meal and following morning's breakfast. This enables me to see cooked as well as uncooked rations. Intermediate changes on admission or discharges are made by supplementary indent or deduction.

The accounts of diet are kept by means of Diet Rolls, and separate Statements of extras in strict conformity with the revised Rules on that subject.

To guard against peculation, and to see that the weak and imbecile receive their full share, require the utmost vigilance on the part of the Overseer and Jemadars. Any peculation from the rations on the part of the Keepers, and they are sometimes caught, I punish by fine.

I continue to give each Lunatic in the morning a hot cake made of soojee, ghee, and milk, weighing four ounces, and costing each about ¾ pie, or Rupee 1-2 per 100; they are much relished. One of the casualties was caused by one of these cakes; a poor, old, imbecile, paralized woman stuffed her mouth with more than she could swallow and was choked, dying in a few minutes before assistance could be given her.

Considering the miserable condition on which the majority are admitted, it is gratifying to see the gradual improvement of body and mind under good diet and attention to their comfort.

The new Cook-room which has been built (*vide* ground plan) will enable me to divide them into more messes, and from its position the Overseer will be better able to see what is going on.

The Lunatics assist in cooking. For the males there are two cooks entertained, but for the females there is none. They cook their own food, assisted by their attendants, and as I find it difficult to get them to do other than domestic duties, I hope I may be able now to make them assist in cooking for the whole Establishment and relieve some of the males employed.

15*th*. *Clothing*.—During the past year there was one issue of two suits of Cotton clothing, *viz*., two Chudders of two and a half yards each of Manchester Sheeting, and two Dhotees of three and a half yards each of American Sheeting. The cloth was strong and good, and cost Rupees 3-14 per thirty-eight yards of Dhotee cloth, and Rupees 7-8 per thirty-eight yards of Chudder cloth. In addition to this 100 Jackets of Dasootee were made for the more tractable and charged to the Labor Fund profits.

These Jackets were for cold weather use and are most useful in protecting them, but only the more tractable will wear them. The Blanket Coats made in 1859 were taken into store and repaired and re-issued this cold reason and found very serviceable; the material being good, it has lasted. At the Fair held in November 230 Blankets were purchased, so that each Lunatic can be provided with two at night. The Blankets as well as all articles of clothing are stamped (by Lunatics) and carefully mustered to prevent peculation: using only stamped clothes has enabled escaped Lunatics to be recognized and brought back.

The clothing is changed weekly, kept in repair by Lunatic labor. The clothing of the intractable and dirty patients are colored yellow.

16*th*. *Occupation*.—During the past year there has been a daily average of—

Sick in Hospital	19
Intractable, not working	60
Working at domestic duties	35
Working at manufactories	85
And gardening	18

The employment has consisted of oil-making rope-making, soorkee-making, basket and morah-making, carpentering, gardening, repairing clothes, jhamp-making, domestic duties, cooking, bringing water from river, keeping the grounds in order, and attendance on the sick in Hospital.

As occupation is so essential to the preservation of health, both of body and mind, and valuable in promoting the recovery of sound intellect, every effort is made to induce as many as possible to occupy themselves; the value of occupation depends greatly on its being undertaken voluntarily and with pleasure; after the habit is formed it is easy to keep it up.

Adaptation of the labor to the mental capacities and fancies of the Lunatics is far from easy. In the idiotic we have the Oil Mill which requires little teaching, and it is also occasionally used as the first step in training to habits of occupation the newly admitted and intractable Lunatics.

Regular and full work cannot be exacted from Lunatics, and they are not kept so long at work as sane individuals.

Compulsory efforts and punishment for not working have been studiously avoided, at the same time every inducement by persuasion humouring their fancies or granting some coveted indulgence in diet, &c., have been employed to form the habit. When this is once formed the approach of a paroxysm can often be recognized by the Lunatic ceasing to work.

Work is not carried on Sundays, but to keep them employed as much as possible, it is made a day for particularity cleaning the whole premises, overhauling the clothing, and washing the tukhtposhes with hot water, to destroy the vermin between the planks.

Lunatics with the delusion of greatness are the most difficult to induce to work, or to employ themselves usefully. Such Lunatics are classed among the intractable not working, though in other respects they are harmless and tractable.

Basket and morah-making has been continued; the work is a favourite one and is remunerative; the only drawback is that it requires the use of the Daô, a dangerous weapon. I tried a simple mechanical contrivance for cutting, so as to dispense with the Daô, but failed. They are all so expert with the instrument (their national one) that they cannot readily be made to use any substitute. Great care is taken in the selection of the Lunatics permitted to work with such instruments, and no accidents have ever occurred.

During the year I have introduced carpentering under an Instructor Carpenter. There were two Lunatics who knew the trade, and one or two more are now being taught.

A chest of Carpenter's tools have been purchased from the profits of the labor. I am thus able to make up articles for the Asylum and Mitford Hospital much cheaper than by employing Bazar labor and allowing fair remuneration of the labor. I have taken some small contracts from the Executive Engineer for Carpenters' labor, and as more are taught I shall be able to extend our operation. It will be my endeavor to teach the criminal Lunatics such work, as they must remain a much longer period after recovery in the Asylum than non-criminal patients. It is probable a forge will also be set up and such tools purchased as can be used. There are two Blacksmiths by trade (Lunatics) in the Asylum to commence with. The Superintending Engineer has sent me a good and cheap plan of one, such as used in the Regimental Workshops.

Pounding Bricks for Soorkie is a labor easily taught and profitable.

During the year the Lunatics have pounded for the Department Public Works, for the Overseer's house, and new Cook-houses, 2,380 ferrahs of Soorkie (each ferrah weighing almost two maunds); the value of the labor, as estimated by the Executive Engineer, being Rupees 106-14-9.

In the Estimate of the above works Lunatic labor was entered as extra, and therefore the value has not been received so as to be credited to the Labor Fund.

17*th*. *Profits of the labor of the Lunatics.*—Statement No. 23 shews that during the past year the realized profits of the labor of the Lunatics have been Rupees 1,019-9-6, and adding the estimated value of their labor, Rupees 571-14-3, as per Statement No. 24, makes a total value of their labor of Rupees 1,591-7-9.

Considering the inconvenience experienced during the whole year for want of proper Work-shed, and that the Overseer, until October, was not living on the premises, his house not being finished, I consider the result as favorable as could be anticipated.

Now that the Overseer lives on the premises, and the Work-shed has been finished, I trust the labor of the ensuing year may be more profitable.

Statement No. 23 shews that, including the balance of 1860, Rupees 2,280-14, with the amount realized during the year, Rupees 1,019-9-6, and deducting the amount expended, Rupees 1,198-6-8, there is a balance in hand of Rupees 1,082-7-3½.

In the letter marginally noted, the Lieutenant-Governor has been pleased, with the sanction of the Secretary of State for India, to make the profits of Lunatic labor available for extra comforts for the Lunatics.

Letter No. 307 of 17th June 1861, from Secretary to Government of Bengal, to Principal Inspector-General, Medical Department, paragraph 4.

This will be carefully acted on as far as possible in providing extra comforts of a permanent kind, and in furnishing means for making their labor as productive as possible.

18*th*. *Education.*—During the past year the attempt to introduce education, commenced in 1860, has been continued, and the results have been sufficiently encouraging to go on. Bengallee Books, such as are used in the Schools, and also educational prints, have been purchased from the profits of the labor, and as many as have shewn a disposition to read have been encouraged, more especially after work hours. Some of the criminal Lunatics who are rational have made fair progress, and have pleasure in reading, and a few have learnt to read and write, who had no such previous knowledge. Among these is Kishore, the most dangerous Lunatic in the Asylum, and whose case was mentioned in last Report, in illustration of the effects of the non-restraint system. Little progress has been made among the imbecile and intractable patients, but by their attendance they have been kept from engaging in mischievous practices, and their minds more diverted from their morbid trains of thought.

The School Master is entertained as a Jemadar in the sanctioned Establishment and has Jemadar's pay and authority in the Asylum. He also superintendents their amusements after work hours.

19*th*. *Amusement.*—Native musical instruments and games are allowed in the evening, after the the evening meal, under superintendence of the School Master. No amusements are allowed during the working hours, otherwise it would be

difficult to keep them engaged in profitable occupations.

20*th*. *Admission of Lunatics into Asylum.*—Until the receipt of a letter No. 217, from the Junior Secretary to Government of Bengal, dated 13th September 1860, with annexed Extracts from Doctor Payne's Report on the Dullundah Asylum for 1860-61, Lunatics were frequently admitted, whom it was not a public object to confine. Greater discretion on the part of the Magistrates in the transmission of Lunatics to this Asylum is now exercised, and only such Lunatics whom it is a public object to confine, and such as are found wandering about without relatives, or whose relatives are not in circumstances to maintain them at home, are admitted.

Several harmless and imbecile Lunatics, whose relatives were found in circumstances sufficient to maintain them, have had the option given them of taking charge of them, or paying the amount of their dieting in the Asylum; but, with one exception, they preferred taking them to their homes, and this will, in most cases, be found to be the case. Though in circumstances to maintain them in the Asylum, unless compelled they will decline paying for their maintenance, and the unfortunate objects will have no care taken of them at their homes.

During the past year there have been ninety-five admissions, almost the same as in 1860, but the operation of the above orders will cause a great diminution in the admissions for the future, so long as they are rigidly acted on.

21*st*. *Certificates of Insanity and Descriptive Rolls of Lunatics.*—With reference to a communication as per margin, regarding the careless manner in which Certificates of Insanity are drawn up in the several Districts from which Lunatics are sent, and drawing attention to the directions contained in Schedule appended to Act XXXVI. of 1858, that they may be complied with, I brought to the notice of the Visitors the very meagre information regarding Lunatics sent to this Asylum, and that it was difficult for the Magisterial Authorities to supply the requisite information, as the Police were not aware of the exact nature of the information required, and consequently the information given in the old Descriptive Roll, regarding the previous history and conduct of the Lunatics, was either nothing or extremely vague. I suggested the necessity of adopting a new form of Descriptive Roll, containing the exact points on which information was required regarding Lunatics, and that the Police Darogahs should be supplied by the Magistrates with a Vernacular Translation, to be carefully filled in in sending Lunatics to the Sudder Stations, to be forwarded to this Asylum. This would, if carefully attended to, enable Medical Officers to supply the information required in Schedule Form A., Section IV. of Act XXXVI. of 1858.

Letter, No. 123 of 25th April 1861, from Junior Secretary to Government of Bengal, to Commissioner of Dacca, with copy of a letter, No. 2227 of 12th April 1861, from Principal Inspector-General, Medical Department.

The Visitors, on the 8th July 1861, sanctioned the annexed Form (No. 28) of Descriptive Roll, in supersession of the old, and copies were sent to the Commissioners of the Districts from which Lunatics are sent to this Asylum, with the request that they should issue to the Magistrates of the Districts copies of the new Descriptive Roll, in English and Bengallee, with instructions that they may be strictly and carefully adhered to.

Since the adoption of this Form of Descriptive Roll more information has been obtained, but I am sorry to say that they have not been adhered to in all cases, but by taking notice of all cases where they are not attended to gradually more accurate attention will be obtained.

22*nd*. *Forms of Insanity.*—From Statement No. 8 it will be seen that of the 304 cases treated there were—

No.	7	under Acute Mania.		
„	5	or 1·64	per cent under	Moral Insanity.
„	10	or 3·28	„ „	Monomania.
„	152	or 50·00	„ „	Mania chronic.
„	30	or 9·86	„ „	Mania chronic with lucid intervals.
„	4	or 1·31	„ „	Mania chronic with Epilepsy.
„	87	or 28·61	„ „	Dimentia from protracted Mania.
„	4	or 1·31	„ „	Congenital Dimentia.
„	5	or 1·64	„ „	Amentia.
„	7	or 2·30	„ „	Dimentia with Epilepsy.

These results correspond with those of the previous year.

23*rd*. *Causes of Insanity.*—Of the 304 cases of Insanity treated during the year the apparent and assigned causes have been given in Statement.

This Statement shews that No. 174 or 57·18 were referred to physical causes, No 23 or 8·65 were referred to moral causes, No. 107 or 35·19 causes unknown. The physical causes in the order of their frequency have been Ganjah 44·73 per cent, Epilepsy 3·61, Hereditary Tendency 3·28, Opium 2·63.

The moral causes in the order of their frequency have been love 2·76, religion 2·30, loss of property, infidelity of wife, grief, jealousy.

Indulgence in Ganjah may therefore be stated to be the great cause of insanity here.

24*th*. *Insanity with reference to Sex.*—Statement No. 2 shews that during the year 241 males and sixty-three females have been treated. Of these fifty-six males have been discharged cured, and twenty-six females; ten males have died, and three females. Of the males four are criminal Lunatics, and of the females none are criminal Lunatics. As to the forms of Insanity, Statement No. 8 shews the relative proportion between males and females. The ratio of mortality among females has been 4·60, that among the males has been 4·15.

25*th*. *Cures of Insanity*—During the past year eighty-two have been discharged cured, or transferred to friends improved, making a total of cures and transfers of 26·95 per cent on the number treated.

The standard of cure is not a high one, a lucid interval of three or four months, and in some cases shorter, where the patients have shewn no dangerous tendencies during paroxysms, have been

considered sufficient evidence of cure and fitness for discharge; but a patient, properly speaking, cannot be considered cured, merely because the mental excitement has subsided for a few months, and he no longer appears to be under the influence of hallucination or delusions.

In the case of criminal Lunatics, or Lunatics confined under orders of the Judicial Authorities on account of the commission of heinous offences, a much more prolonged period of tranquillity and freedom from mental delusions is considered necessary, and where the cause has been from intemperance, especially from indulgence in Ganjah, there is great risk in setting such men at liberty until several years of good and rational conduct has elapsed.

26*th*. *Sickness and Mortality.*—The annexed Return, No. 10, shews the diseases most prevalent among the Insanes during the past year. They have, as usual, been Fevers, Pulmonary, and Bowel Complaints.

The causes of death have been detailed in the annexed Casualty List, Appendix No. 13.

No. 1 or 7·69 per cent arose from diseases of the nervous system.

No. 2 or 15·38 per cent arose from diseases of lungs.

No. 6 or 46·14 per cent from diseases of the digestive system.

No. 2 or 15·38 per cent from cholera epidemic.

Out of 304 treated, or a daily average of 217, there have been thirteen casualties, giving a ratio of 4·27 per cent on actual strength, and 5·98 on daily average strength. This is highly satisfactory. The mean annual mortality, from 1846 to 1855, in English Public Asylums, Dr. Hood estimated at 11·86 per cent where private and pauper patients are treated, and in pauper Asylums the mortality is slightly greater.

Considering that the patients admitted into this Asylum are most frequently in a bad state of health from the combined influence of disease, poverty, and vice, a ratio of mortality under 10 per cent ought to be considered favorable.

Statement No. 10 shews the comparative mortality during the last years.

This decrease in the ratio of mortality I attribute to the improved diet and conservancy and attention to the comforts of the Lunatics.

27*th*. *Criminal Lunatics.*—The annexed Statement, No. 19, gives a list of criminal Lunatics under confinement during the year.

During the year seven have been admitted, two discharged under orders of Government, and four have died.

There are now forty males and four females under this class, and confined on account of the following criminal offences :—

For murder	...	29 males and 3 females.
For homicide	...	1 male.
Implicated in murder	...	1 male.
Wounding	...	8 males.
Theft	...	1 female.
Perjury	...	1 male.

This shews that of the 304 Lunatics treated during the year fifty, or 16·44 per cent, were criminal Lunatics, and of them forty-two, or 13·81 per cent, are confined for the most heinous offences of killing and wounding.

Criminal Lunatics on recovery were formerly sent into Jail, and, after undergoing surveillance for a longer or shorter period, were released under orders of Government. The Lieutenant-Governor, in reference to my remarks regarding this class of Lunatics in my last Report, has ordered that criminal Lunatics confined during pleasure under the law should be kept always in an Asylum and never in a Jail, and that steps would be taken to ensure this in practice.

Letter, No. 307 of 17th January 1861, from the Junior Secretary to the Government of Bengal, to Principal Inspector-General, Medical Department.

28*th*. *Expenditure and annual cost of each Lunatic.*—Statement No. 18 shews the amount expended in keeping, dieting, and clothing the Lunatics during the year. The annual average charge incurred for each Lunatic has been Rupees 52-6-6. This is greater, as will be seen by the Statement, than in the previous years. In 1859 a European Overseer was appointed. In 1860 the Establishment was increased under the revised Rules for the management of the Native Lunatic Asylums, and the scale of Diet was also increased up to the Dullundah standard under orders of Government. Both these additions caused an increase of cost in 1860; but as they were not in force during the whole of that year the increased cost did not fully appear as it has done in 1861. During 1861 there has been no charge for extra diet or extras, and each Lunatic has had but one blanket and two suits of clothing purchased for them.

The Comparative Statement of sickness and mortality during the last seven years gives the gratifying result of a reduction of mortality from an average of 25 per cent before the introduction of the present system to six per cent.

This shews that the benevolence of Government in ameliorating the condition of the Lunatics, by more nutritious regimen and greater attention to their comforts, has been successful, and I believe as economically as possible.

29*th*. *Conduct of Establishment.*—One of the greatest difficulties to be contended with in the management of the Asylum is the difficulty of finding proper attendants. The class from which they are selected, with the exception of the Overseer and Native Doctor, is necessarily the uneducated, and consequently they cannot be expected to have much capacity for the duties required of them. Good temper and kindness of disposition have been chiefly looked to in the selection and retention of them.

The majority of the attendants are Mahomedans, but I am endeavoring, as far as possible, to introduce the same proportion of Hindoo attendants as that of the Hindoos to Mahomedan patients.

The chief fault I have had to find with the conduct of the attendants generally is their attempting to do by force or severity what kindness alone can accomplish.

The Overseer, Mr. Newing, has conducted his duties satisfactorily. He has acquired more experience in the management of the Lunatics, and by kindness and attention to their comforts and peculiarities he has gained their confidence, and many of them have become attached to him, more especially Kishore, the dangerous Lunatic, who knocked him down very soon after joining his appointment. This change has been effected entirely by kindness. He has used no coercive measures in exacting labor; on the contrary, he has been indulgent, and has still kept up a fair average in occupation.

I consider he is deserving of Commission in the profits of the labor, which the Lieutenant-Governor, in a communication marginally noted, has been pleased to grant when his general conduct has met with full satisfaction.

Letter, No. 307 of 17th June 1861, from Junior Secretary to Government of Bengal, to the Principal Inspector-General, Medical Department.

With reference to the amount of these profits and the humane object for which they are applied, I would recommend his being allowed 10 per cent on the profits, *viz.*, Rupees 102. Since he has occupied the house provided for him in the Asylum, he has been better able to exercise that continued watchfulness which is so necessary to prevent irregularities, confusion, and accidents and to secure order and comfort in the Asylum, and I have also hopes that the labor of the Lunatics may be more productive than during the past year.

Bengallee Class Native Doctor Bamachurn Bhutachargia conducted his duties satisfactorily until he resigned the services in 22nd December 1861.

30*th*. *Conclusion*.—The approbation of my services in the Asylum during 1860, conveyed through the Principal Inspector-General, Medical Department, in a communication marginally noted, has been most encouraging, at the same time it is but just to remark that the present favorable state of the Asylum is due to the liberality of Government and the efficient support I have received from yourself and the Visitors in its management.

From J. D. Gordon, Esq., Officiating Junior Secretary to the Government of Bengal, to the Officiating Principal Inspector-General, Medical Department.—(No. 162T., dated on board the Lieutenant-Governor's Yatch *Rholas*, the 23rd July 1862.)

I am directed to acknowledge the receipt of your letter No. 284 of the 3rd instant, submitting the Annual Report of the Dacca Lunatic Asylum for the past year.

2. In reply, I am desired to say that the Lieutenant-Governor considers the Report to be very satisfactory, and that very beneficial results may confidently be expected to follow from Dr. Simpson's sound and intelligent treatment of the Lunatics.

3. You are requested to convey to Dr. Simpson the thanks of the Government for the able manner in which he has discharged the duties of Superintendent of this Asylum, and for his lucid Report.

4. Orders will be communicated to you hereafter on paragraphs 5 and 6 of your letter under acknowledgment.

From J. D. GORDON, Esq., Officiating Junior Secretary to the Government of Bengal, to the Officiating Principal Inspector-General, Medical Department,—(dated Bhaugulpore, the 13th October 1862.)

SINCE the issue of the orders contained in letter from this Office, No. 162T, dated the 23rd July last, I am directed to state that the Lieutenant-Governor has visited the Lunatic Asylum at Dacca, and observed with much satisfaction the admirable treatment of the Insanes by Dr. Simpson, and the excellent order and management of the Institution.

2. I am to request that you will be so good as to convey to the Visitors the thanks of Government for their attention to the Asylum. His Honor also desires me to express his satisfaction at the good conduct of the Overseer, Mr. Newing.

3. Adverting to the 5th paragraph of your letter No. 284, dated the 3rd July last, I am instructed to state that the Lieutenant-Governor sees no reason for altering the orders dated the 13th September 1861, directing that in the case of harmless Lunatics, their relations, if in good circumstances, should be required to pay for their maintenance at the Asylum, or be left to maintain them at home.

4. With reference to paragraph 6 of your letter and to your endorsement No. 284, dated the 12th July last, relative to the new form of Descriptive Roll suggested by Dr. Simpson for the admission of Patients into the Asylum, I am desired to say that the Statement annexed to Act XXXVI. of 1858, must, the Lieutenant-Governor thinks, be adhered to, in order to give legal force to the order (Form B) to which it is appended. Any additional particulars that may be required may unobjectionably be furnished in a separate Descriptive Roll.

MILITARY DEPARTMENT.

Fort William, the 30th October 1862.

No. 971 of 1862.—The undermentioned Officer is permitted to proceed to Europe on leave of absence on Sick Certificate :—

Assistant Surgeon Thomas Beard Farncombe, of the Medical Department ... } For fifteen months, under the new Regulations.

No. 972 *of* 1862.—The Right Hon'ble the Governor General in Council is pleased, with the concurrence of the Commander-in-Chief, to sanction, experimentally for twelve months, the adoption of new Hospital diet scales in the Bengal Presidency.

2. Hitherto there have been only five kinds of hospital diet, *viz.*, full, half, low, milk, spoon. These, in the absence of other varieties, have been supplemented by extra articles, in the prescription of which Medical Officers have been allowed a latitude that is necessary with so narrow a scale, while it is too wide for an efficient control of Hospital expenditure.

3. For the next twelve months the following Hospital diets will be observed in the Bengal Presidency, *viz.*,—

Spoon	
Tea	Low with Pudding.
Beef Tea	Low.
Low Milk	Half.
Milk	Fish.
Chicken	Full.

The components of these diets and their distribution are shewn in the annexed Table. The Officiating Principal Inspector General, Medical Department, will issue a Circular based on Dr. Forsyth's Report of 15th March 1861, in explanation of the differences between the old scale and the new.

4. The eleven diets now prescribed have been so constructed as to dispense almost entirely with the exhibition, in any case, of any extras, except wine, beer, spirits, lemonade, soda-water, and Lime juice, which cannot be included in any ordinary dietary. The Deputy Inspectors-General of Hospitals and the Examiner of Medical Accounts will give especial attention to this object of the revised dietary.

5. The "separate statement," as a separate document, is to be dispensed with. Medical Officers will have no difficulty in selecting from the different kinds of diet that which in each case will best suit the requirements of their patients. All expenditure extra to the authorized diet table should be accounted for in a separate "diet sheet" similar to that in use in Her Majesty's British Hospitals (Form No. 1 annexed) bearing the initials of the prescribing Surgeon written on the day on which the articles may have been prescribed.

6. The Form of Diet Roll in use in Her Majesty's British Army (Form No. 2 appended) being considered more perfect than the one now in use in Bengal, is to be introduced and made applicable for this country, as, owing to the causes of the disease and the patient's name being shewn therein, the Deputy Inspector-General of Hospitals and Examiner of Medical Accounts will be enabled to judge more correctly than they can do at present of the propriety of the expenditure.

7. It is also directed that daily abstracts of diets and liquors be prepared by the Apothecary from the Surgeons diary or bedhead tickets in the Form No 3 annexed, and by him made over to the Steward signed by the Medical Officer. From these Abstracts the Steward will prepare the Diet Roll which will be daily inspected and which will bear the initials of the prescribing Surgeon, the issues being entered in words by the Surgeon after verification of the entries by comparison with his own diary. This Roll will be sent in daily to the Commissariat Department without erasures or alterations of any kind whatsoever.

8. The issue of Nutmeg, Cinnamon, and Ginger as separate condiments for flavouring Puddings,* Sago, Arrowroot, &c., will cease, "spice powder" being substituted for them. The powder (put up in two or four ounce canisters) will be furnished, on special indent, by the Commissariat. The canisters are always to be in the Steward's custody and the expenditure daily recorded. Ten or twelve, never more than fifteen, grains are ample to flavor Puddings, &c.

* Now reduced to two, *viz.*, Rice and Custard.

9. For diets into which meat enters black pepper will be issued on the scale of one ounce for every 48 diets, or one third of a drachm for each diet, instead of, as at present, one drachm for each diet.

10. The existing mode of supplying beer and spirits for Hospitals admits of improvement. Great loss is sustained on beer for Hospitals bottled in Calcutta, and purchased by the Commissariat either in Calcutta or Up-country. On the other hand draught beer from the Canteens, or that bottled in Local Commissariat Godowns, is generally of a more uniformly sound quality than beer purchased in the market. Again in the majority of cases where ardent spirits are exhibited rum can be advantageously substituted for brandy as an equally efficacious cordial or stimulant, and one, which while cheaper, would be more acceptable to the men themselves than some kinds of brandy.

11. Medical Officers are accordingly invited to prescribe rum where they consider that it can be as beneficially taken as brandy, and draught beer or beer bottled locally by the Commissariat Department when they are satisfied that it is sound and good.

12. The rum must be the best in store, not less than three years old, and carefully bottled in the presence of the Executive Commissariat Officer. A sufficient stock of good brandy must, at the same time, be kept in store for any cases in which it may be deemed preferable.

13. It is also to be distinctly understood that the Medical Officer in charge of an Hospital is free to use his own discretion in prescribing bottled beer, as heretofore, for any of the sick

14. The measures for meting out milk and wine not being of uniform capacity are to be withdrawn from use, and fluid measures of the kinds noted in the margin, tested and stamped at the Mint, are to be issued in lieu to all European Hospitals.

For wine, double, to contain 2 fluid ounces at one end and 1 fluid ounce at the other.

For milk, single, to contain 3 fluid ounces.

15. This cancels the Rule in paragraph 5, page 121 of the Medical Code of 1851, which fixed the proportion of ten measures to a proper sized English quart bottle or forty to the gallon.

16. The entire contents of a wine bottle, whatever the quantity may be, shall be expended for the sick only. Medical Officers in charge of Hospitals will enforce this rule strictly, and the Steward will henceforth be required to account minutely for the contents of each bottle.

17. Twelve months after the adoption of the new diet scales, a Report will be furnished by medical Officers in charge of Hospitals with especial reference to the substitution of rum for brandy, and of draught or Commissariat bottled beer for that which is bottled in Calcutta.

No. 528.

Fort William, the 17th October 1862.

The following Rules for entering the Harbour of Port Blair are published for general information:—

The Penal Settlement of Port Blair, on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11° 43' North, and Longitude 92° 47' East from Greenwich; it has a spacious and safe harbour extending a considerable distance inland; the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent.

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of 1¼ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it, in not less than 10 fathoms, and stand to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E., Magnetic, then stand for the anchorage about S. S. E., and anchor off the town in from 9 to 15 fathoms, sandy bottom, about 500 yards from the beach, with the Superintendent's house on the hill bearing from E. by N. to E. N. E. Magnetic, and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys inside of which it would not be prudent to borrow.

The South Channel, formed between the South end of Ross Island and the Main, is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesostris Reef," a dangerous patch, having only 1½ fathoms in some parts, rocky, uneven ground, bears S½ E. Magnetic, about three-fourths of a mile from the South end of Ross Island; it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth as the ground about is rocky and uneven.

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E Magnetic, and steer for it, passing well to the Westward of the Reef buoy; and with the buoy bearing S. 25 E. Magnetic, and the South end of Ross Island N. by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S. W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island, if possible, and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.

By Order,
JOHN G. REDDIE,
Offg. Secy. to the Govt. of India.

2. This Declaration is made under Section II., Act VI. of 1857.

SEPARATE REVENUE (STAMPS) DEPARTMENT.—*No. 55. Allahabad, the 24th October* 1862.—The following Extract from the *Punjab Government Gazette* of the 11th instant, No. 81, relative to the ruling regarding Stamps to be used for powers of Attorney drawn up in India for use in England, and *vice versâ*, is re-published for general information:—

From Secretary to the Government of India, to Secretary to the Government of Punjab, No. 5218, dated 25th September 1862.

Home Department.

WITH reference to your letter No. 673, dated 2nd instant, and to the correspondence which accompanied it, regarding Stamps to be used for powers of Attorney drawn up in India for use in England, and *vice versâ*, I am directed to forward herewith, for the information of the Hon'ble the

Lieutenant-Governor, and for communication to the local Officers under his control, the accompanying copy of the Standing Counsel's opinion on the subject. I am at the same time desired to point out that, where a document is executed here, but is intended to operate in England solely, the question as to the *validity* of the Deed would only arise in that country, and it is perhaps at the option of the party executing it to have the instrument stamped, or not, as he considers best for his own interest.

From J. GRAHAM, ESQ., Standing Counsel, to A. M. MONTEATH, ESQ., Under-Secretary to the Government of India, dated the 22nd September 1862.

IN reply to your communication dated 17th September (received 20th instant), I have the honor to state that in my opinion, in both the instances referred to by the Assistant Commissioner of Simla in his letter of 15th July 1862, the documents ought to have borne an Indian Stamp according to the Act X. of 1862, as (I collect) they were both *executed* in this country. The mere facts of the document in one case bearing an English Stamp, and relating to matters to be done in England, do not affect the question, which, so far as the payment of the Stamp duty here is concerned, is merely whether the document was *executed* in this country.

Act X. of 1862, Section II.

2. The question becomes one of more difficulty when a document is executed in England or elsewhere, but is intended to operate here. The English Stamp Acts provide for these cases, and attach the duty and the Bank of England and other Departments require powers of Attorney executed abroad to be stamped in England. The Act X. of 1862, however, contains no such provisions, and I do not think, in the present state of the law here, an Indian Stamp can be insisted on by Public Departments in the case of a simple power of Attorney executed by all the grantors in England, or elsewhere out of the Indian Territories.

1 Geo. 4, C. 55.

2. I agree that, as a general rule, the Courts of one country do not recognize the Revenue Laws of Foreign Countries, (including, under that term, its own Colonies or Settlements.) But in regard to the Stamp Laws there is a distinction established (which, however, principally concerns the public), *viz.*, that where the law of a country makes a contract entered into their *void* for want of a Stamp, the contract cannot be sued on any Foreign Court which recognises the *lex loci contractus* as governing the contract, but otherwise, if the law only makes the instrument of contract inadmissible *in evidence*.

Bristow *versus* Seequeville. 5 Ex. Ch. 275.

4. There are obviously three points of view from which this matter of Stamps may be regarded that of the payer, the receiver, and the general public to whom any instrument is tendered. The payer is anxious to be on the safe side, for in case of a law suit the Deed may have to be produced, and is therefore generally found willing, in doubtful cases, to pay the Stamp duty. The Government, as receiver, on the other hand, has only to see that its own Stamp Law is observed and that the instrument for which a Stamp is required falls under one of the heads mentioned in the Act, regardless of the question whether any duty has been paid elsewhere. The class of the public again (comprising the Government itself in the Departments to which instruments are tendered to be acted on) have to ascertain that the local law is observed, and also to some extent that the instrument is not void by the law of the country in which it purports to have been executed.

5. On this latter point if a document is tendered purporting to have been executed in the United Kingdom, though made for operation here, and it bears an English Stamp, I think it may be acted upon generally without inquiry as to the sufficiency of the Stamp; but if, under such circumstances, it bears no Stamp, it should be referred for orders in each particular case.

JOHN COCHRANE,

Official Assignee.

CALCUTTA,
The 18th September 1862.

ADVERTISEMENT OF SALE.

NOTICE is hereby given, that the Zemindaree right of Government to the several Khas Mehals, situated in the District of Shahabad, and mentioned in the Statement hereunto annexed, will be put up to sale, under orders of the Board of Revenue, No. 70, dated 8th July 1862, in the Shahabad Collectorate, on Monday, the 2nd March 1863, corresponding with the 27th Fagoon 1270 *F. S.*

The Purchasers of such Mehals will be subject to the Conditions laid down below :—

CONDITIONS OF SALE.

1*st.*—The Estates to be sold, with the Sudder Jumma entered against each below, to the highest bidders above the upset price.

2*nd.*—The sale to be subject to existing leases and to the right conferred by the Settlement proceedings and laws in force, and Purchasers to be bound to respect the rights of resident cultivators who have signed the Jummabundee made by the Revenue Authorities.

Government of India.

Report on the Cinchona Plantations in the Neilgherries.

Extract from a Report by MAJOR H. R. MORGAN, late Officiating Conservator of Forests.

PARA. 44. *Conclusion.*—From the above remarks it is clear that if we obtain certain conditions the *C. Succirubra* will be a success.

I. If the mean temperature at 5,000 feet elevation on Chimborazo is nealry 61°, and the mean temperature of the Plantation at Neddiwattum is the same, then the condition of temperature is satisfactorily established, and I think I have proved that it is likely to be so.

II. If the plants at the elevation of 6,000 feet grow well then it matters not if the rain-fall is 80 or 150 inches (though, I believe, the latter is nearer the mark), and we shall have secured what is indispensable to the production of Quinine, *viz.*, *elevation.*

III. The planting of trees in open tracts in the Forest is, I consider, indispensable to the production of healthy bark; indeed, no one conversant with first principles could argue otherwise.

IV. The success of *C. Succirubra* established that of *C. Calisaya, Condaminea, Micrantha, Peruviana, &c.*, must follow.

V. Exception has been taken to garden cultivation for Cinchonas. I would ask why is the cinnamon tree cultivated? why the soil dug and aërated? The cinnamon tree is cultivated for its bark; the tree in dense shade and damp woods at Neddiwattum and elsewhere grows to a large size, but art, combined with nature, produces a finer article of commerce than nature alone. It is not so much the size of the tree as the amount of Alkaloid contained in the bark that we require; and to produce this we plant Cinchona as we would coffee, tea, cinnamon or spices. I have already shewn that the sandal tree grown in shady moist ravines produces no fine scented heart-wood, but grown in the open the heart-wood is very superior. The like successful result will take place if the Cinchona is properly treated.

VI. From Mr. Cross' Report just received, it is very satisfactory to know that he approves of the sites selected on these Hills, more especially as he is the only practical man who has examined the sites here and those on the Andes, where the best varieties of Cinchonas grow.

45. *Nursery at Neddiwattum.*—On the 30th of April last I inspected the Cinchona sites at Neddiwattum, the plants in the nursery, at an elevation of 5,400 feet, were looking remarkably well, and are from 12 to 15 inches in height; they consist of 500 *C. Succirubra, Micrantha,* and *Peruvianas.* At present only four beds are filled, but shortly some fifty beds capable of holding about 50,000 plants will be ready. The site of the nursery is well chosen, the soil is a rich brown loam, and the aspect is north. Some 3,000 plants have since been sent out.

46. *Upper Plantation.*—Seventy acres have been felled and burnt, and about 5,000 running feet of trenches 2′ × 1½′ have been dug. It will be advisable to have catch drains with silt traps on both faces of the Plantation, otherwise the rush of the storm waters will infallibly denude the Plantation of the whole of the surface soil. As the sides of the ravine in which the Plantation is situated are rather steep it will be necessary to have one trench in ten open to serve as a catch drain with silt traps at one hundred feet intervals; the traps may be 10′ × 4′ × 4′; when filled the contents should at once be removed and spread round the roots of the trees; in this manner an efficient system of manuring can be kept up. Mr. McIvor has very properly dug his trenches at right angles to the slope of the Hill; this method will greatly prevent a rush of water. From an acre of cleared land on a steep slope I have taken, after a heavy shower, as much as three cubic yards of silt.

47. *Elevation.*—The greatest elevation of this Plantation is 5,900 feet, it faces the north; the surface soil is excellent; the sub-soil consists of decomposing gneiss boulders.

48. *Plants.*—I examined some plants of *C. Succirubra* and others which had been put out in November last; all that I saw were healthy, and one *Succirubra*, reported to be 9' when planted out, is now twenty-five inches in height and very healthy; this is encouraging when it is considerered that the plants were delicate when first put out, and have only just weathered the most unfavorable part of the year, and at an elevation of 5,900 feet.

49. *Overseers' Houses.*—Very little has yet been done for the Overseers' houses; want of labor has been Mr. McIvor's great difficulty; bricks are ready, a site prepared, and a branch road made. It would have tended to expedite the building of these houses if they had been made over to the Department Public Works as they had labor on the spot; in fact had just repaired the public Bungalow. Instead of tiles it would be well if galvanised iron was substituted, as, unless the tiles are dipped in coal tar, they soon accumulate moss in this damp climate.

50. *Cooly Lines and Store-house.*—A small thatched hut for the Overseer in charge of the Nursery is finished, a temporary Store-house and Cooly Lines have been run up, but it is very important that, as soon as possible, substantial brick in mud lines be built otherwise, from being badly housed, the Coolies may get sick and leave. The Store-house for grain should be of brick in chunam with asphalted floor.

51. *Glass-house.*—A glass-house for the propagation of the plants is much required; at present the cost of carriage cannot be under half an anna a plant, or on a hundred thousand it will amount to 3,000 Rupees, enough to build two glass-houses. There is also some risk of damage to the plants in their carriage from Ootacamund to this; the plants can also be propagated more quickly under glass than in the nursery, and will be less liable to damage from hail, &c.

52. *Fencing.*—The best fence for the Plantation would be a ditch three feet wide at top, and one at bottom, and three feet deep, with a stout fence on the top four feet high; this would last for years and be cheaper than any thing I know. A wall was proposed but it would take too long to build and be very expensive; a wall six feet high of brick in mud could not be built out here under 3 Rupees the running yard, then 100 acres require 3,000 running yards or 9,000 Rupees, whereas a ditch 3'×3'×2' would cost per running yard 2 annas, and 2 annas for the fence, equal 4 annas, or Rupees 720 against Rupees 9,000 for the wall. Rose cuttings may be planted on the loose soil taken out of the ditch, and before the fence decays will form an impenetrable barrier.

53. *Ootacamund Plantation.*—A sholah containing about forty acres has been partially trenched and filled, the situation is excellent, well protected, and the generality of the soil is a rich black mould. I have recommended Mr. McIvor to have catch drains and silt traps, as some of the ground is very steep. Mr. McIvor has very properly trenched nearly the whole of the ground; this I know, from practical experience, to be the best plan, as it gives the plants a start of at least two years over those in pits. I have myself tried *Eucalypti* in pits and trenches on grass land; the trees in the latter are certainly three years in advance of those in pits. The great secret is to give the plant a start the first year, after that it can take care of itself.

The trees in this Plantation have, in some places, been left, so that the effect of partial shade may be tested. Not that Mr. McIvor is not fully confident of success in following the plan of cutting away every thing, but he has determined to try both plans.

I have tried both plans with *Eucalypti* and have found the trees grew as fast again where there was no shade. In fact the shade from large trees makes the young trees tender and unhealthy.

51. *Propagating House.*—An excellent propagating house has been built by Mr. McIvor on the newest system, with bottom heat, and from this and a lower house some 12,000 plants are turned out monthly; the success in propagating the plants has been extraordinary and reflects the highest credit on Mr. McIvor's skill and perseverance, for it required no ordinary care to obtain such success as he has. The Cinchona plant is very delicate in its first stages, requiring immense watchfulness, but hardy enough when a year old. The lower glass-houses are full of plants in all stages, from the delicate seedling, to the large plants brought by Mr. Cross, two of which will probably seed next year.

55. *Seeds.*—Seeds of the *C. Condaminea* have lately been received from Mr. Cross, and have germinated with hardly a failure; they are now coming up by thousands: this plant is eminently suited for the Dodabetta site. A variety, *C. Crespilla*, which, curiously enough, Mr Cross found on mountains with peaty soil, is also germinating, and will apparently suit our black peaty soil which abounds in many parts of the grass land of these Hills.

56. *Trees planted out in the Ootacamund Garden.*—Mr. McIvor, as an experiment, put out last September six *Succirubra* plants; they have not grown much as the season has been unfavorable, but they are now beginning to push their leaves under the influence of the prevailing showers; they are perfectly healthy and will soon increase in size; the large leaves suffered a little from the unprecedented violent hail storms; the general health of the plant was uninjured.

57. *Overseers' Houses, &c.*—An excellent Bungalow adjoining the propagating house has been built by Mr. McIvor for the Overseer in charge, and a Bungalow for the Overseer in charge of the upper Plantation is nearly finished, as also substantial buildings for his Gardeners.

Number of Plants.—There are 1,200 large plants, from which small plants are constantly being propagated, the rest consist of seedlings and rooted cuttings. A memorandum of the plants furnished by Mr. McIvor is appended. The total number is 31,495.

Remarks.—The whole of the plants are in the finest possible state of health, with the exception of *C. Lancifolia* and *C. Chahuarguera* Our plants in the open air, within the last two months in rapidity of growth, general health, and luxuriance, having much exceeded those in our glass-houses.

The *C. Lancifolia*, lately imported from Java, being affected by fungi at the roots, it is doubtful if we will be able to save it, as several cuttings of this sort, although successfully rooted, the fungi, which apparently spreads along the pith, has attacked these rooted cuttings and killed them. The *C. Chahuarguera*, only lately imported, has suffered much during the voyage, the whole of the leaves and part of the young shoots having been dried up, still, as it seems not to have contracted any disease, I hope it will recover.

In the portion of our Nurseries under the protection of the shade of living trees, layers made in this position on the 3rd of January were found not to have rooted on the 27th of April, while layers made at the same time in the open sunshine were found rooted by the end of the same month or in twenty-eight days. The growth under the shade has also been unsatisfactory, not having, in any case, exceeded four inches in the last two months, while in the same period many hundreds of the plants in the open ground have grown from twelve to sixteen inches. Nothing can exceed the luxuriance and bright healthy look of the leaves in the open sunshine, while the leaves on the plants under the shade are pale and covered with small hairs.

The six plants were placed out on the highest and coldest part of the Nediwattum site at the end of September 1861, their height being as follows.—

H. W. Norman, *Lieut.-Col.*,
Secy. to the Govt. of India.

MARINE DEPARTMENT.

No. 528.

Fort William, the 17th October 1862.

The following Rules for entering the Harbour of Port Blair are published for general information :—

The Penal Settlement of Port Blair, on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11° 43' North, and Longitude 92° 47' East from Greenwich; it has a spacious and safe harbour extending a considerable distance inland; the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent.

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of 1½ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it, in not less than 10 fathoms, and stand to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E., Magnetic, then stand for the anchorage about S. S. E., and anchor off the town in from 9 to 15 fathoms, sandy bottom, about 500 yards from the beach, with the Superintendent's house on the hill bearing from E. by N. to E. N. E. Magnetic, and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys inside of which it would not be prudent to borrow.

The South Channel, formed between the South end of Ross Island and the Main, is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesostris Reef," a dangerous patch, having only 1½ fathoms in some parts, rocky, uneven ground, bears S½ E. Magnetic, about three-fourths of a mile from the South end of Ross Island; it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth as the ground about is rocky and uneven.

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E Magnetic, and steer for it, passing well to the Westward of the Reef buoy; and with the buoy

bearing S. 25 E. Magnetic, and the South end of Ross Island N. by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S. W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island, if possible, and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.

By Order,
JOHN G. REDDIE,
Offg. Secy. to the Govt. of India.

LEGISLATIVE.

THE following Report of a Select Committee was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th November 1862:—

HOME DEPARTMENT.

LEGISLATIVE.

WE, the undersigned, the Members of the Select Committee of the Council of the Governor-General of India for the purpose of making Laws and Regulations, to whom the Bill "to provide for the dissolution of the Subordinate Medical Officers' Widows' and Orphans' Fund, and the distribution of the Funds belonging thereto" was referred, have the honor to report that, in consequence of the Bill, as originally drawn, having been adapted to the practice of the late Supreme Court, it is necessary to make the following amendments:—

SECTION I.—The substitution of the word "High" for the word "Supreme" in lines 1 and 11.

And the omission of the words "as fully as if the petitioners proceeded by information or bill, and as if there were parties defendants; and" in lines 13 to 15.

SECTION II.—The omission of all the words after the words "certificate of such person" in lines 8 and 9.

We recommend that the Bill be passed with these amendments.

No communication has been received on the subject of the Bill.

MARINE DEPARTMENT.

No. 528.

Fort William, the 17th October 1862.

The following Rules for entering the Harbour of Port Blair are published for general information:—

The Penal Settlement of Port Blair, on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11° 43' North, and Longitude 92° 47' East from Greenwich; it has a spacious and safe harbour extending a considerable distance inland; the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a

distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent.

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of 1½ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it, in not less than 10 fathoms, and stand to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E., Magnetic, then stand for the anchorage about S. S. E., and anchor off the town in from 9 to 15 fathoms, sandy bottom, about 500 yards from the beach, with the Superintendent's house on the hill bearing from E. by N. to E. N. E. Magnetic, and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys inside of which it would not be prudent to borrow.

The South Channel, formed between the South end of Ross Island and the Main, is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesostris Reef," a dangerous patch, having only 1½ fathoms in some parts, rocky, uneven ground, bears S½ E. Magnetic, about three-fourths of a mile from the South end of Ross Island; it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth as the ground about is rocky and uneven.

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E Magnetic, and steer for it, passing well to the Westward of the Reef buoy; and with the buoy bearing S. 25 E. Magnetic, and the South end of Ross Island N. by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S. W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island, if possible, and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.

SUBORDINATE MEDICAL OFFICERS' WIDOWS' AND ORPHANS' FUNDS.

His Honor the LIEUTENANT-GOVERNOR presented the Report of the Select Committee on the Bill to provide for the dissolution of the Subordinate Medical Officers' Widows' and Orphans' Fund, and the distribution of the funds belonging thereto.

CONSOLIDATED CUSTOMS BILL.

The Hon'ble MR. ERSKINE presented the Report of the Select Committee on the Bill for the Consolidation and Amendment of the Law relating to Customs Duties.

CUSTOMS DUTIES.

The Hon'ble MR. HARINGTON moved for leave to bring in a Bill to amend Act XI. of 1862 (to amend the Duties of Customs on Goods imported and exported by Sea). He said that the Bill proposed three amendments in Schedule A of the Act mentioned. None of the proposed amendments were comparatively of very great or general importance, though they would affect a large number of persons. The first amendment proposed was in Article 18 of the Schedule relating to Machinery. Previously to the passing of Act VII. of 1859, Machinery of all kinds imported by Sea into the Presidencies of Bengal and Madras was liable to a Duty of 3½ per cent. when imported on British Bottoms, and of 7 per cent. when imported on Foreign Bottoms. The same Duties were chargeable at Bombay until the enactment of Act I. of 1852. Under the two Acts just mentioned Machinery imported for the improvement of the communications and the development of the resources of the country was allowed to be admitted free of Duty, and by Act X. of 1860 the exemption was extended to Machinery of all kinds. The same general exemption was contained in Act XI. of 1861 which now regulated the rates of Duties on Goods imported or exported by Sea throughout the British Territories in India. It was considered that the latter enactments had carried the exemption from Duty beyond what was requisite or proper, and that they involved an unnecessary sacrifice of Customs Revenue. Under Article 18, as it now stood, it was obvious that many articles included under the head of Machinery might be admitted free of Duty, for the exemption of which no special or adequate ground existed. It was proposed therefore to revert to the Rule in force before the passing of Act X. of 1860, and to confine the exemption from Duty to Machinery used exclusively for purposes of agriculture, navigation, mining, or manufacture, or for Railway purposes, and materials

forming necessary component parts of such Machinery. The latter part of the Article, amended as proposed, appeared to be a proper concession in favor of component parts of Machinery used exclusively for the purposes mentioned in the former part of the Article. The Bill also proposed a slight alteration in the Note to Article 18 in order to give the Local Governments, acting under the general instructions of the Government of India, authority to control the Head Officers of their respective Customs Houses in construing the Article in question. A similar provision was contained in the new Customs Bill as regarded the administration of the Department generally, and there seemed no doubt that the provision would conduce to the convenience of the public, while it left full power in the hands of the Government of India to issue such instructions as it might consider necessary for the protection of the Customs Revenue, and for maintaining uniformity of practice in the several Presidencies.

The next alteration proposed was in Article 23 of the Schedule which related to the Duty on Spirits. Under that Article methylated Spirits, or Spirits used exclusively in Arts or Manufactures, or in Chemistry, were liable, on importation by Sea, to the same Duty as Spirits intended for human consumption as a beverage. It was considered that, with a view to the promotion of Arts and Manufactures, a distinction should be made between Spirits used for the purposes thereof and Spirits used for other purposes. Sprits of Wine, under certain restrictions, were allowed to be used duty free in the United Kingdom, and when the Bill to amend the Law relating to the Abkaree Revenue of Bengal was before the late Legislative Council, a Section was proposed, the object of which was to place the Law in India on the same footing, in this respect, as the Law at home, but the proposition was opposed on two grounds. The first ground was that the state of the Finances at the time would not admit of the Government giving up any source of Revenue, and that, while they were imposing new Taxes which would bear heavily on the poorer and lower classes, they ought not to remit any existing Tax, however wise it might be on principle to do so. The second ground was that no proper means existed in this country to prevent frauds on the Revenue. With regard to the first of these grounds, the improvement which had since taken place in the state of the Finances had happily enabled the Government to remove the Taxes alluded to as affecting the poorer and lower classes, and financial considerations no longer appeared to offer any obstacle to granting some remission of Duty, which had again been asked for, in favor of Spirits used in Manufactures and Arts, or in Chemistry. The Lieutenant-Governor of Bengal supported the recommendation of the Board of Revenue at Calcutta for a reduction of the present Duty on methylated Spirits, and these Authorities seemed to anticipate no difficulty in adopting measures which would prevent any abuses from taking place consequent on an alteration of the Law. It was not proposed, however, to admit methylated Spirits free of Duty. What was proposed was that such Spirits should on importation be charged with an *ad valorem* Duty at the rate of 10 per cent., and that the importation should take place subject to such rules as the Government should, from time to time, prescribe, for ascertaining that the Spirits were unfit for use as a beverage, and incapable of being converted to that purpose. Spirits distilled in the country, and which might be intended to be used in Arts or Manufactures, or in Chemistry, would be dealt with separately.

The third and last alteration proposed in the Schedule was the addition of an Article to exempt Fire-wood, when imported by Sea, from the payment of Duty, thereby placing Fire-wood on the same footing as Coke and Coal, which were admitted free of Duty. Owing to the large consumption on the Railways and other causes Fire-wood had risen greatly in price, and in some parts of the country it was becoming very scarce. It was desirable to encourage its importation as much as possible, but the present high Duty was found to operate as a serious impediment. The amount of Customs Revenue realized on this article was very trifling, and on financial grounds there was no object in retaining the duty.

The Motion was put and agreed to.

CIVIL PROCEDURE, &c., (BRITISH BURMAH.)

The Hon'ble MR. HARINGTON moved for leave to bring in a Bill to define the jurisdiction, and to regulate the Procedure of the Courts of Civil Judicature in British Burmah, and to provide for the extension of certain Acts to the said Territory. He said that the Bill, while it maintained all the existing classes of Courts in British Burmah, defined the jurisdiction to be exercised by each class of those Courts, and laid down rules for the admission of Regular as well as Second and Special Appeals, which, it was considered, would greatly improve the administration of Civil Justice in that branch of the Department. Special Appeals would be admissible on the same grounds as in the Regulation Provinces, *viz.*, on the ground of the decision of the Court below being contrary to some law or usage having the force of law, or of a substantial error or defect in law, or in the procedure or investigation of the case which might have produced error or defect in the decision of the case upon the merits. Special Appeals would be cognizable by the Chief Commissioner alone in his capacity of Judicial Commissioner or principal Civil Judge of the Province. But Divisional Commissioners would be allowed on certain conditions to admit a Second Appeal from the decisions passed in Regular Appeal by the Officers subordinate to them. No such Appeal was allowed in the Regulation Provinces; but, looking to the comparatively short period that British Burmah had been subject to British rule and to other circumstances, it was considered desirable that, for a time at least, the Appellate Authorities immediately over the District Officers should possess larger powers of interference with the decisions of their Subordinates than were exercised by the corresponding Authorities in the older Provinces. The Bill proposed to extend the Code of Civil Procedure, with some modifications, to British Burmah generally. The Code was already in force, under an order of the Supreme Government, in the entire Territory, excepting the Province of Pegu, in which the proceedings of the Civil Courts were regulated by a Code prepared by Major Sparks and bearing his name. Major Sparks' Code did not differ materially from the Code of Civil Procedure, but it was considered that there should be a uniform Code for the whole Province. The modifications now proposed did not affect the general principles of the Code, but related chiefly to the powers to be exercised, in certain matters, by the controlling Authorities.

and were considered desirable to adapt the Code to the peculiarities of the Province. It was thought that the Governor-General in Council, under the authority conveyed in one of the concluding Sections of the Code, might extend the Code, by an order in Council, to the Province of Pegu; but the Advocate-General was of opinion that as, subsequently to the passing of the Code, the Supreme Government had sanctioned the introduction of Major Sparks' Code into Pegu, and as the order passed conveying such sanction had since received the force of law by a Section in the Indian Council's Act of last year, an Act of the Legislature was necessary to repeal Major Sparks' Code, and to substitute the Code of Civil Procedure for it in Pegu. The Bill also proposed to extend to Pegu, in supersession of the Law of Limitation contained in Major Sparks' Code, the general Law of Limitation contained in Act XIV. of 1859. The opinion of the Advocate-General above referred to applied equally to the Law of Limitation contained in Major Sparks' Code. Major Sparks had proposed two slight alterations in the general Law of Limitation, of which the Chief Commissioner had approved. One of them related to claims for the partition of joint undivided Estates, and the other to Mortgages. The first alteration appeared to him (Mr. Harington) to be unnecessary, and to have been proposed under a mistaken view of the law. The other ought not, in his opinion, to be adopted. Should the Council allow the Bill to go to a Select Committee, he proposed to move that the communication received from the Chief Commissioner and Major Sparks be referred to that Committee for the purpose of considering the alterations alluded to; as also the expediency of adopting the provisions in Major Sparks' Code relating to Insolvency, which that Officer recommended to be retained. The other Acts which the Bill proposed to extend to British Burmah had been, for some time, in force in other parts of India, and had been found to work well. The Bill had been seen by the Chief Commissioner and Major Sparks, who considered it, upon the whole, admirably adapted to the existing Civil Judicial Constitution of British Burmah.

The Motion was put and agreed to.

APPEALS TO THE PRIVY COUNCIL (NON-REGULATION PROVINCES.)

The Hon'ble MR. HARINGTON moved for leave to bring in a Bill to regulate the admission of Appeals to Her Majesty in Council from certain judgments and orders in Provinces not subject to the General Regulations. He said that the object of this Bill was to extend to the Non-Regulation Provinces the Rules now generally in force in the Regulation Provinces, relating to the admission of Appeals to Her Majesty in Council, and to the execution of the decrees passed on such Appeals. The right of Her Majesty to admit Appeals from decisions passed by the Courts in the Non-Regulation Provinces, equally with Appeals from the decisions passed by the Courts in the Regulation Provinces, was not questioned. But there was no Law authorizing the Courts in the Non-Regulation Provinces to allow or even to receive Appeals from their decisions to the Queen in Council, or, of their own authority, to transmit the records of the cases in which the Appeal was made or a translation of the papers to England. Consequently parties wishing to appeal to the Queen in Council, from decisions passed by the Courts in the Non-Regulation Provinces were compelled to prefer their Appeals direct to the Privy Council, and an order had to be sent from home for the translation of the papers and their transmission to England. This necessarily added to the expense, and also caused delay in the hearing and decision of the Appeal. A communication had been received from the Registrar of the Privy Council, conveying the opinion of the Judicial Committee of that Council, that measures should be taken to place the prosecution of Appeals from the highest Civil Tribunals in the Non-Regulation Provinces on the same footing as Appeals to Her Majesty in Council from the Courts in the Presidencies of Bengal, Madras, and Bombay. It was in contemplation to revise the existing Rules relating to Appeals to Her Majesty in Council from the Courts in this country, and to frame a new Code of Rules to regulate such Appeals, but some time must necessarily elapse before the new Code was ready for promulgation.

The Motion was put and agreed to.

WORKS OF PUBLIC UTILITY BY PRIVATE PERSONS OR COMPANIES.

The Hon'ble MR. HARINGTON moved for leave to bring in a Bill to provide for taking land for works of public utility, to be constructed by private persons or Companies, and for regulating the construction and use of works on land so taken. He said that, in the early part of the year, their late lamented colleague, Mr. Ritchie, obtained leave to bring in a Bill to provide for the construction, by Companies and private persons, of Branch Railways, Iron Tram Roads, Common Roads, or Canals as feeders to Public Railways, High Roads, Navigable Rivers or Canals. It was Mr. Ritchie's intention to have introduced a Bill similar, so far as the details were concerned, to the Bill which was introduced, with a similar object, into the late Legislative Council, though with a somewhat wider scope. That Bill was not proceeded with in consequence of the abolition of the late Council. The Bill, framed as intended by Mr. Ritchie, having been considered by the Government in the Public Works Department, it was thought that the scope of the Bill might advantageously be extended beyond what was advised by Mr. Ritchie, and that any Bill introduced, instead of being confined in its application to Branch Railways, Iron Tram Roads, Common Roads, or Canals, as feeders to other works, might properly embrace many other works of public utility. Section II. of the Bill which he was now asking leave to introduce defined the works of public utility to which it was intended that the provisions of the Bill might be applied to the Bridges, Roads, Railroads, Tram Roads, Canals for Irrigation or Navigation, Tanks, Works for the Improvement of Rivers or Harbours, Docks, Quays, Jetties, Water-works Gas-works, Mines, Iron or Copper-works, Drainage-works, or Electric Telegraphs, and also all works subsidiary to such works. The same Section of the Bill further gave power to the Governor-General in Council, from time to time, by a declaration to be made to that effect, and published in the *Official Gazette*, to order that any other class of works other than those named should be included among works of public utility within the Act. It might be thought that this part of the Bill went too far, but it appeared to him that the Government of India might be safely entrusted with the power proposed to be given to it, and that the public might feel satisfied that the power would be

discreetly used, and that it would only be exercised for the public benefit. It was also considered that the details of the Bill, as proposed by Mr. Ritchie, might be greatly improved, and that they should be made to assimilate more nearly to the laws of the same nature which were in force at home. These considerations had led to an entire re-modelling of the Bill. The Bill, as now framed, was, in point of fact, a new Bill, and it had been thought better therefore that, instead of introducing the Bill under the permission formerly accorded, he should ask for leave in the usual way to bring in the Bill. He believed the Bill would be found in all respects a very great improvement, both on the Bill introduced into the late Legislative Council and on the Bill proposed by Mr. Ritchie. The Bill, in its present form, appeared to him to be well adapted to the end in view, and if it should be allowed to become law, he thought it would materially promote the object contemplated in its introduction, and greatly facilitate the construction of works of public utility, such as those described in Section II. of the Bill. In framing the Bill it had to be considered whether the Bill should be of general application, *i. e.*, whether its provisions should apply to all India, or whether the application of the Bill should be confined to those parts of India for which the Council of the Governor-General alone could legislate. As a general rule he thought there could be no doubt that the Government of India should not legislate for the local Governments which had Legislative Councils of their own on any matters in respect of which those Governments were competent to legislate for themselves. The part of the Indian Council's Act of last year, which related to legislation, was evidently framed of this principle. The soundness of the principle was fully recognized by the Government of India, and it must be scarcely necessary for him to say that the Government of India could have no desire to encroach upon the functions of the local Legislatures, or in any way to interfere with the exercise by those Legislatures of the powers vested in them by the Act of Parliament just mentioned. But when a law was required for the Empire at large, and whether the law was to be the work of a single Legislature or of several distinct Legislatures, the general principles observed in framing it, and the more essential details, must be the same, he ventured to think that there must be a great public convenience in having a single law for all India passed by the Government of India which alone was competent to pass a general law, instead of two or more laws passed by different Legislatures acting independently of one another. The fact that there were at the present time two Branch Railway and other Public Works Bills pending, one before the Council of the Governor of Bombay, and the other before the Council of the Lieutenant-Governor of Bengal, the provisions of which differed little, if at all, from the Bill proposed by Mr. Ritchie, and that Mr Ritchie considered that a Bill such as was proposed by him was all that was required for the entire country, would seem clearly to shew that the legislation needed at this time was of the general character which he had described, and that, consequently, there could be no necessity for separate Acts for the different Presidencies, or for different parts of the same Presidency.

In addition to what he had already mentioned in favor of a general Bill, such as he was now asking leave to introduce, he might repeat what was stated by Mr. Ritchie in the remarks with which he prefaced his Motion for leave to introduce the Bill proposed by him, namely, that as a Railroad for which feeders were to be provided (and the same observation applied to Canals, High Roads, and other public works) might pass through several Districts or different Presidencies, two different Acts might be objectionable. Under these circumstances, he (Mr. Harington) hoped that, when the Government of Bombay and His Honor the Lieutenant-Governor of Bengal saw the present Bill, they would agree in considering its provisions well suited to the Territories under their Governments equally with the rest of India, and that concurring in the conclusion arrived at by the Government of India that it would be in every way more convenient and desirable that the present Bill should apply generally to all India rather than that separate Bills should be passed for the several Presidencies, they would not consider it necessary to proceed with the Bills pending before their respective Councils.

Mr. Erskine said that he had no wish to offer the slightest opposition to this Bill, and, without expressing any opinion as to whether the Bill should or should not apply generally to all India, he should be glad if it were understood that, in assenting to the introduction of the Bill, he did not pledge himself on the question as to whether the Bill should have a larger or narrower application. One reason for hesitation would be that, if the Bill were passed by that Council and subsequently modifications for one of the Presidencies were required, they could not be made by a local Legislature.

Mr. Harington said there could be no doubt that every Honorable Member would be perfectly free, when the Bill was introduced, to discuss the principle of it and the expediency of legislating on the subject for all India in this Council. The present was merely a Motion for leave to bring in the Bill.

The Motion was put and agreed to.

Confinement of Prisoners (Native States.)

The Hon'ble Mr. Harington introduced the Bill for the amendment of the Law relating to the confinement of Prisoners convicted of offences in Native States, and moved that it be referred to a Select Committee. He said that this Bill had already been published by order of the Governor-General in Council under the 18th Rule for the conduct of business in the Council. The object of the Bill was to consolidate and amend the law relating to the confinement of Prisoners convicted of offences in Native States. The laws proposed to be consolidated and amended were Act XVIII. of 1843 and Act V. of 1847. The former Act applied only to the offences of Thuggee and Dacoity, and of belonging to a gang of Thugs and Dacoits. It was considered advisable that its provisions should be extended to the crime of Suttee (burning alive), and to the crime of Sumadh (burying alive); and that the Governor-General in Council should have power to extend the provisions of the Act to any other offences, its extension to which might be deemed desirable. The Bill contained provisions to that effect. The Native States in alliance with the British Government, acting in concert with the British Government, were making

efforts to suppress the inhuman and barbarous practice of burning native females alive on the death of their husbands or of those with whom they had lived as wives, and it was thought that the success of the measures which had been adopted with this view, as well as to put a stop to the practice of burying lepers alive, would be materially promoted if the persons who were convicted of the offences in question were allowed to undergo the imprisonment to which they were sentenced within the British Territories. He believed it would be found that the Bill contained ample provisions to secure that the authority which it gave should be exercised only after a full and careful investigation before a properly constituted tribunal.

The Motion was put and agreed to.

Merchant Seamen.

The Hon'ble Mr. Harington introduced the Bill to amend Act I. of 1859 (for the amendment of the Law relating to Merchant Seamen), and moved that it be referred to a Select Committee. He said that Act I. of 1859, which this Bill proposed to amend, empowered any local Government to order an investigation into the conduct of any Master or Mate to whom such Government might have granted a certificate of competency or service, if it had reasons to believe that, either from incompetency or misconduct, such Master or Mate was unfit to discharge his duties. But, as the law now stood only the local Government which granted the certificate could order such investigation, wherever the misconduct to be enquired into might have taken place. An instance had recently occurred, shewing the practical inconvenience of this restriction and the necessity that existed for some modification of the law. The Master of a vessel, holding a certificate from the Government of Bengal, took his vessel to Bombay. A complaint of misconduct having been made against the Master on his arrival at Bombay, the Government of Bombay ordered an invistigation, but being advised that it had no jurisdiction, it abstained from passing any order in the case. There appeared no good reason why in such a case the local Government, within whose territories the Master or Mate complained against happened to be at the time the complaint was preferred, should not be empowered to order an investigation, and on proof of incompetency or misconduct, shewing such Master or Mate to be unfit to discharge his duties, to suspend the certificate held by him, although such certificate might have been granted by some other local Government. The object of the present Bill was to give such power. Since this Bill was published a communication had been received from the Straits' Settlement, in which the Governor proposed a further amendment of Act I. of 1859. The Governor said:—"On the 14th November 1859 I submitted, for the consideration "of the Legislative Council, a petition from certain native ship-owners, praying for a modification of the provisions of Act I. of 1859 in favor "of small country vessels sailing from the Straits' "Settlement. I then pointed out the prejudicial "effect upon the interests of the Petitioners likely "to be occasioned by the operation of Clause 13, "unless the coasting vessels manned by natives "and employed in carrying on our trade in the "Archipelago might be considered as Home Trade "Ships. At present, absurd as it may appear, "the Commander of one of these vessels may "be deemed qualified to take charge of his ship "from this to Kurrachee, and yet he is prohibited "from retaining the command if she is ordered "to make a coasting voyage along the Eastern "Coast of the Malayan Peninsula, or to visit "one of the neighbouring Islands only a few "hours' sail from the Port." If the Council allowed the Bill to go to a Select Committee, he (Mr. Harington) proposed to refer to the Committee the communication from the Governor of the Straits Settlement, with a view to their considering the further amendment of the law proposed therein.

The Motion was put and agreed to.

Recorders' and Small Cause Courts (British Burmah.)

The Hon'ble Mr. Harrington introduced the the Bill to constitute Recorders' Courts for the Towns of Akyab, Rangoon, and Moulmein, in British Burmah, and to establish Courts of Small Causes in the said Towns, and moved that it be referred to a Select Committee. He said that this Bill had been published by order of the Governor-General in Council, under the rule for the conduct of business in the Council, to which he had referred before. The object of the Bill was to give effect to that part of the Resolution of the Government of India, dated the 31st January last, relating to the administration of British Burmah, which declared that, instead of a Judicial Commissioner for the whole Territory as had been proposed, there should be established at Rangoon and Moulmein a Court to be presided over by a Barrister or Advocate of not less than five years' standing with full powers of Civil and Criminal jurisdiction, analogous to the powers now exercised by the Recorders of Prince of Wales' Island and Singapore, with exception to the power of trying cases in which European British subjects were charged with capital offences. The Bill went somewhat beyond the Resolution, inasmuch as it empowered the Governor-General in Council to establish a similar Court to that mentioned in the Resolution at Akyab also. The Town of Akyab already possessed a very large European community, and carried on a considerable export and import trade, and although a Court, such as that proposed, might not be immediately required, there could be no doubt that at no distant date it would be wanted, and it was as well, therefore, to make provision for its establishment in the present Bill.

It was probable that for some time there would not be sufficient Civil and Criminal work to justify the appointment of a Recorder to each of the Courts, for the establishment of which provision was made in the Bill, and the Bill accordingly allowed the Governor-General in Council to appoint a single Recorder to any two or to all three of these Courts, and in order that no public inconvenience might be experienced during the absence of the Officer who might be the Recorder of more Courts than one, the Bill empowered the Government to appoint a Registrar to each Recorder's Court, who would be the chief Ministerial Officer of the Court, and, as such, would conduct the current duties, including the filing of plaints, the issue of notices to defendants, and of summonses to witnesses. The Registrars would also have the powers of Small Cause Court Judges in suits up to a certain amount, and would have power to try other suits of a small value which might be

referred to them by the Recorder. The effect of these provisions would be to relieve the Recorder of a good deal of work which might very well be performed, under his general supervision, by Officers receiving a smaller salary, and to give him time for the disposal of the more important cases brought before him; they would also afford a speedy means of obtaining redress in cases of a small amount, and generally of a simple character, which was very desirable. As already noticed, the Recorder would have no power to try Europeans charged with capital offences. These cases would continue to be committed, as at present, to the High Court at Calcutta. In all other cases occurring within the limits of his jurisdiction the Recorder would have the powers of a Sessions Judge, as defined in the Code of Criminal Procedure. There would be no appeal from his orders, but it would be in his discretion to reserve points of law for the opinion of the High Court at Calcutta, and in Criminal cases the Advocate-General might certify that, in his judgment, there was an error in the decision of a point or points of law decided by the Recorder, or that a point of law which had been decided by the Recorder should be further considered by the High Court.

The Motion was put and agreed to

EMPLOYMENT, &c., OF PEONS IN CIVIL COURTS (N. W. P.)

The Hon'ble MR. HARINGTON introduced the Bill to consolidate and amend the Law relating to the employment and remuneration of Peons for the service and execution of Civil Process in the Courts of the North-Western Provinces of the Presidency of Fort William in Bengal, and moved that it be referred to a Select Committee. He said that the Code of Civil Procedure declared that "every process required to be issued under the "Code should be served at the expense of the "party at whose instance it was issued, unless "otherwise specially directed by the Court; and "that the sum required to defray the costs of such "service should be paid into the Court before the "process was issued within a period to be fixed "by the Court issuing the process." But the Code contained no rules for the appointment of the Peons of the Civil Courts, for regulating the charges for such service, or for the remuneration of the Peons employed on this duty. This Bill would amend the law which regulated the appointment and remuneration of the persons employed to serve the processess of the Civil Courts so far as regarded the North-Western Provinces, leaving the other local Governments to adopt any legislation on the subject which they thought proper. Under the present Regulations the Nazirs of the Civil Courts were allowed to appropriate to their own use, in addition to any fixed salaries received by them, one-fourth of the subsistence or diet money deposited for the service or execution of every process, the remaining three-fourths being paid to the Peon employed to serve or execute the process. The provision of law under which this appropriation took place applied originally only to the Nazirs of the Zillah Courts, but it had been extended by subsequent enactments to all the subordinate Civil Courts. The effect of the provision had been not only to raise the emoluments of the Nazirs of the Civil Courts generally much beyond what, looking to the position of these Officers and the nature of their duties, might be considered an adequate remuneration for their services and responsibilities, but frequently to give the Nazirs in the Courts of the Moonsiffs larger allowances than were received by the Moonsiffs under whom they were employed. This had led to abuses from which, there could be no doubt, the character of the Courts in which they had been practised had suffered. The Bill provided for the payment of the Nazirs by fixed salaries or by fees. It also provided that, when the Peons received fixed salaries, the sums paid into Court for the service of processes should be formed into a fund out of which the salaries of the Peons would be paid. When the Peons were remunerated by fees three-fourths of the money paid as above would be given to the Peons employed to serve the process, and the remaining one-fourth carried to the credit of Government to cover any charges to which the Government might be put in connection with the Department. Any surplus from this source, or from the fund before mentioned, would be at the disposal of the local Government, and was proposed to be applied by such Government, subject to the approval of the Governor-General in Council, to the improvement of the administration of Civil Justice in the North-Western Provinces.

The Motion was put and agreed to.

RULES FOR THE CONDUCT OF BUSINESS.

The Hon'ble Mr. HARINGTON moved that the Hon'ble Mr. Erskine be added to the Select Committee appointed to consider all proposals to alter or amend the Rules for the conduct of business.

The Motion was put and agreed to.

The Hon'ble MR. HARINGTON moved that certain correspondence between the Secretary of State and the Government of India, relative to the Rules for the conduct of business, be referred to the said Committee, and that the Committee be requested to revise the said Rules, and to propose any modifications thereof which they might consider necessary.

The Motion was put and agreed to.

EMIGRATION (SEYCHELLES.)

The Hon'ble MR. HARINGTON moved that the Bill relating to Emigration to the British Colonial Dependency of Seychelles be referred to a Select Committee, consisting of the Hon'ble Mr. Erskine, the Hon'ble Mr. Ellis, and the Mover, and that the Select Committee be instructed to make their Report in a fortnight.

The Motion was put and agreed to.

COURTS OF REQUESTS (STRAITS' SETTLEMENTS) AND WHIPPING BILLS.

The Hon'ble MR. HARINGTON moved that the Hon'ble Mr. Erskine and the Hon'ble Mr. Ellis be added to the Select Committee on the Bill to enlarge the jurisdiction of the Courts of Requests in the Settlement of Prince of Wales' Island, Singapore, and Malacca, and to the Select Committee on the Bill to authorize the punishment of whipping in certain cases.

The Motion was put and agreed to.

REGISTRATION OF ASSURANCES, EXECUTION OF MOFUSSIL PROCESS, AND RELIGIOUS ENDOWMENTS BILLS.

The Hon'ble MR. HARINGTON moved that the Hon'ble Mr. Ellis be added to the Select Committee on the Bill to provide for the Registration of Assurances, to the Select Committee on the Bill to extend Act XXIII. of 1840 (for executing

within the local limits of the jurisdiction of Her Majesty's Courts legal process issued by authorities in the Mofussil), and to the Select Committee on the Bill to enable the Government to divest itself of the management of Religious Endowments.

The Motion was put and agreed to.

The following Select Committees were named:—

On the Bill for the amendment of the Law relating to the confinement of Prisoners convicted of offences in Native States—the Hon'ble Messrs. Harington, Ellis, and Rajah Deo Narain Singh.

On the Bill to amend Act I. of 1859 (for the amendment of the Law relating to Merchant Seamen)—the Hon'ble Messrs. Harington, Erskine, and Fitzwilliam.

On the Bill to constitute Recorders' Courts for the Towns of Akyab, Rangoon, and Moulmein in British Burmah, and to establish Courts of Small Causes in the said Towns—the Hon'ble Messrs. Harington, Erskine, and Ellis.

On the Bill to consolidate and amend the Law relating to the employment and remuneration of Peons for the service and execution of Civil Process in the Courts of the North-Western Provinces of the Presidency of Fort William in Bengal—the Hon'ble Messrs. Harington, Ellis, and Rajah Deo Narain Singh.

LEGISLATIVE.

The following Report of a Select Committee was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th November 1862:—

HOME DEPARTMENT.

LEGISLATIVE.

We, the undersigned, the Members of the Select Committee of the Council of the Governor-General of India for the purpose of making Laws and Regulations, to whom the Bill "to provide for the dissolution of the Subordinate Medical Officers' Widows' and Orphans' Fund, and the distribution of the Funds belonging thereto" was referred, have the honor to report that, in consequence of the Bill, as originally drawn, having been adapted to the practice of the late Supreme Court, it is necessary to make the following amendments:—

Section I.—The substitution of the word "High" for the word "Supreme" in lines 1 and 11.

And the omission of the words "as fully as if the petitioners proceeded by information or bill, and as if there were parties defendants; and" in lines 13 to 15.

Section II.—The omission of all the words after the words "certificate of such person" in lines 8 and 9.

We recommend that the Bill be passed with these amendments.

No communication has been received on the subject of the Bill.

Government of Bengal.

LEGISLATIVE DEPARTMENT.

The following Bill, as amended by the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations on the 8th November 1862, is hereby published for general information, and will be re-considered after one month:—

A Bill to provide for the registration and supervision of Boats carrying Passengers for hire.

Preamble.

Whereas it is desirable to provide for the registration and supervision of boats carrying passengers for hire in the Provinces subject to the Government of Bengal; it is enacted as follows:—

The Government may declare any District, Port, or place to be under this Act.

I. The Lieutenant-Governor of Bengal may, by Notification in the Government Gazette from time to time, declare that this Act shall have effect within any District, Port, or place within the Provinces subject to the Government of Bengal, and shall in such Notification define the local limits of every such District, Port, or place: and this Act shall be of no effect excepting within the limits so defined.

Who are to be Registering Magistrates.

Interpretation of word "Magistrate."

II. Every Magistrate within the limits of whose jurisdiction this Act shall be in force shall be a Registering Magistrate under this Act: and the word "Magistrate" shall be deemed to include every Officer having the full powers of a Magistrate.

Where this Act is in force, no boat shall ply without being registered in the Office of a Magistrate.

III. No boat shall ply for passengers or carry them for hire in any District, Port, or place where this Act shall be in operation, unless duly registered in the Office of a Magistrate authorised to register boats under this Act. The following particulars shall be entered in a

Register which shall be kept by every Magistrate authorised as aforesaid:—

First.—Number of the boat.

Second.—Name and residence of the owner, and of the manjee.

Third.—Number of the crew.

Fourth.—Number of persons the boat is permitted to carry.

Magistrate to fix number of passengers a boat may carry: and refuse registration if boat is unsafe.

IV. When application is made to register a boat, the Registering Magistrate shall determine how many passengers the boat shall be permitted to carry. If any boat is, in the opinion of the Magistrate, unfit for the safe carriage of passengers, he shall refuse to register it.

The registration to be in force for one year: a fee of one Rupee to be payable.

V. The registration under Section III of this Act shall be in force for one year from the date of registry, and no longer. Every change of the owner or manjee within that time shall be forthwith notified to the Magistrate in whose office the boat is registered, who shall amend his register accordingly. A fee of one Rupee shall be paid on registration; and a fee of four Annas shall be paid on every subsequent entry in the course of the year of change of the owner or manjee. For the purposes of this Act the person in whose name a boat is for the time being registered shall be deemed the owner thereof, and the person whose name for the time being appears on the Register as being the manjee of a boat, shall be deemed the manjee of that boat.

Registering Magistrate to furnish owner or manjee with a ticket bearing the number, &c., of the boat.

VI. The owner or manjee of every such registered boat shall be furnished by the Registering Magistrate with a ticket or board bearing an inscription in the Vernacular language of the District in the form set forth in the Schedule hereto annexed: and such ticket or board shall be at all times exposed to view in some conspicuous part of the boat to which it refers.

Ticket to be exposed to view in the boat.

Penalty for plying without being registered or without having the number, &c., duly painted.

VII. The owner or manjee of a boat plying for passengers or carrying them for hire within the limits of any District, Port, or place where this Act is in force, without being duly registered, or carrying more passengers or having a smaller crew than is stated in the Register, or not having the ticket or board aforesaid duly exposed to view, shall be liable to a fine not exceeding fifty Rupees, and in default of payment to simple imprisonment not exceeding one month. Any Magistrate or Police Officer within the limits aforesaid may seize and detain such boat: and if it be not claimed within ten days, such boat may be sold by order of the Magistrate, and the proceeds applied to payment of the fine, and of the costs and charges incidental to the seizure, detention, and sale, and the surplus (if any), if not claimed within a further period of twenty days, shall be disposed of in the manner hereinafter provided for the disposal of surplus funds.

Boats so plying may be seized, &c.

Fines how to be levied.

VIII. All fines imposed under this Act may, in case of non-payment, be levied by distress and sale of the boat or of other goods and chattels of the offender, by warrant of Magistrate.

Surplus funds how to be applied.

IX. The Magistrate shall, with the sanction of Government, expend for the purposes of local improvement such surplus (if any) as shall remain after defraying all the expenses incident to registration and otherwise incurred by him under the provisions of this Act.

Act not to apply to steam vessel, &c.

X. This Act shall not apply to any steam vessel or to any vessel or boat exceeding one thousand maunds burden.

Lieutenant H. DeLousada, Acting Assistant Superintendent of Police in British Burmah, has been granted six weeks' leave of absence, on Medical Certificate, from the 1th ultimo.

No. 6386.

The 11th November 1862.

His Excellency the Governor General in Council has resolved that in the Territories subordinate to the Presidency of Fort William, the conditions of competition for the Government Cotton Prize of 1862-63 shall be the same as those observed in the past season. The following Rules, therefore, based on the Government Resolution, which appeared in the *Gazette* of the 10th August last year, are now published for general information:—

A. The Prize will be given for the largest quantity of Cotton, combined with the best quality which shall be grown upon any one Estate within the Presidency during the season of 1862-63, and which shall be brought for shipment to any Port in or before the month of June 1863.

B. Cotton, from whatever District in the interior it may have come, will, if intended for shipment from any Port in the Territories subordinate to the Presidency of Fort William, be considered eligible to compete for the Prize.

C. The extent of ground under cultivation must not be less than thirty acres, all belonging to one property, or cultivated by one Superintendent.

D. The fulfilment of the last named conditions must be certified by the chief Revenue Officer of the District in which the Estate is situated, or by any other Agents specially recognized by the Government for that purpose.

These two last Rules are intended to prevent the Prize being given to a selection of picked samples from a large area, which would require none of the care or attention to the general cultivation of the plant which it is the desire of Government to encourage.

E. The Prize will be awarded by the Chamber of Commerce at Calcutta, if the Gentlemen representing that body will consent to undertake the task.

F. A sealed sample of the Cotton must be sent by each competitor to the Chamber of Commerce, and the consignment to which the Prize is awarded will afterwards be inspected by the Chamber and verified as corresponding with the sample. In case of its being desired to ship the consignment at an Out-Port, the inspection of it will be made by some person specially appointed by the Chamber of Commerce.

G. Each sample must be accompanied by a full and clear statement by the grower of the system which has been pursued in the cultivation, with an accurate and detailed account of all the expenses incurred.

H. Any subsidiary Rules which may be found requisite will be laid down by the Chamber of Commerce.

All Public Officers whose assistance may be sought in respect to the conditions of the 4th Rule, or for any other object, are enjoined to give their cordial co-operation in carrying out the intentions of Government.

FINANCIAL DEPARTMENT.

No. 129.

Fort William, the 10th November 1862.

Extract from a Despatch from the Right Honorable the Secretary of State for India addressed to the Government of India, in the Financial Department, No. 160 of 1862, *dated 24th September.*

Para. 2.—Observing that each of these Writers have served the Government for upwards of twenty years, and have been thrown out of employment solely through the substitution of Printing for Copying in the Office abovenamed, I approve your having dispensed in their case with the usual Medical Certificate, required under the Rules, as a qualification for pension; and with reference to this decision and to others to the same effect previously passed in similar cases, I authorize you, as you request, to lay it down, as a general rule, "that Uncovenanted Servants who are thrown out of employ by the reduction or abolition of Establishment, after having served continuously for twenty years or more, may be admitted to pension without being required to produce the usual Medical Certificate of incapacity."

MARINE DEPARTMENT.

No. 528.

Fort William, the 17*th October* 1862.

The following Rules for entering the Harbour of Port Blair are published for general information :—

The Penal Settlement of Port Blair, on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11° 43' North, and Longitude 92° 47' East from Greenwich; it has a spacious and safe harbour extending a considerable distance inland; the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent.

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of 1½ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it, in not less than 10 fathoms, and stand to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E., Magnetic, then stand for the anchorage about S. S. E., and anchor off the town in from 9 to 15 fathoms, sandy bottom, about 500 yards from the beach, with the Superintendent's house on the hill bearing from E. by

N. to E. N. E. Magnetic, and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys inside of which it would not be prudent to borrow.

The South Channel, formed between the South end of Ross Island and the Main, is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesostris Reef," a dangerous patch, having only 1½ fathoms in some parts, rocky, uneven ground, bears S½ E. Magnetic, about three-fourths of a mile from the South end of Ross Island; it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth, as the ground about is rocky and uneven.

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E Magnetic, and steer for it, passing well to the Westward of the Reef buoy; and with the buoy bearing S. 25 E. Magnetic, and the South end of Ross Island N. by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S. W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island, if possible, and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.

JOHN G. REDDIE.

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so

The following are the Conditions of Sale :—

1. The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2. The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of the Conditions of Sale.

3. The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M., but if at that hour any of the lots advertized for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M, and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five Chests.

5. A Promissory Note, for a sum calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the sale, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other Public Securities as aforesaid shall have been delivered in shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per chest	Deposit. Rs. 200 per Chest.
On bids of Rs. 1,200 but less than „ 1,600	„ 300 „
On bids of „ 1,600 but less than „ 2,000	„ 400 „
And so on, „ 400 being added to the Deposit for every additional Rs 400 bid.	

6. The Promissory Notes, taken on the day of Sale under the last mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization on such manner as to him shall seem fit.

7. No tender of Money, Bank of Bengal Receipts, or Public Securities on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8. The Opium now advertised for sale shall be paid for within fifteen clear days from the the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall futher be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order, and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less than the number of lots or chests originally required to be included in each Certificate or Order.

10. No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the Sale Book, or his authorized Agent. The receipt for deposit of Public Securities will be granted only in the name of such purchaser, and the Securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

11. The Officer Superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fictitious biddings designed to obstruct the Sale, it is hereby notified that the Officer of Government superintending the Sale shall be competent at any time during the Sale to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here

described, shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 100 Rupees specified in the second of these Conditions.

13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession at the same price and under the same conditions any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for sale.

No. 2.—Report of the examination of such Opium.

16. The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1861-62, the same precautions have been taken as those which have been observed during past years, to have the drug procured and set down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the chests indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen, on application, at the Office of the Junior Secretary to the Board of Revenue, four chests of Behar and Benares Opium, *viz*, two of the season's provision under sale, and two of the provision's season will be also shown to the purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the chests offered for sale.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue, but in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

18. It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1863, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular sale within thirty days from the advertizement of such intended sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisitions for Opium within the time abovementioned, the entire quantity of about 39,617 Chests of Behar and Benares as above estimated will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to—

Article 6th.—"With regard to the trade in Opium, it is agreed between the High Contracting Parties that at each of the periodical Sales of that article, there shall be reserved for the French Government and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical Sale, it being understood that, if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbeforementioned. The requisitions for Opium as aforesaid are to be addressed to the Governor General at Calcutta within thirty days after notice of the intended Sales shall have been published in the *Government Gazette*."

By Order of the Board of Revenue,

Opium Notification.

NOTICE is hereby given, that the twelfth or last sale of Opium, the provision of 1860-61, will be held at the Exchange Hall on Thursday, the 4th of December 1862, at 11 A. M., and will comprise 2,553 Chests, *viz.*,—

Behar Opium	...	1,389
Benares Opium	...	1,164
Total Chests	...	2,553

2. The general conditions of the sale now advertized will be the same as usual. They may be ascertained by reference to the Notification issued on the 9th November 1861, and published in the *Government* and *Exchange Gazettes*, or on application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 9th and 19th December 1862, respectively, that is to say, no Bank of Bengal Receipts, Company's Paper, or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale Room will be received after 4 P. M. of Tuesday, the 9th December 1862, and no Bank of Bengal Receipts in full payment of Lots will be accepted after 4 P. M. of Friday, the 19th December 1862.

By Order of the Board of Revenue,
W. J. HERSCHEL,
Offg. Junior Secretary.

FORT WILLIAM,
The 4th November 1862.

No. 1239½.

Notice.

IT is hereby notified, that measures are in progress for discontinuing the sale of Salt by Retail from the Government Depôts in the Islands of Hatteah and Sundeep. From the 1st December next Rowaunah Salt will be allowed free admission into Hatteah and Sundeep. Chars will be granted to Merchants by the Char Mohurir under the orders of the Divisional Darogah. The Government Retail Golahs on the two Islands will be maintained until such time as there is reason to suppose that arrangements have been made by private traders for keeping up a constant and adequate supply.

Madras Kurkutch Salt will be sold from the Government Retail Golahs at the present rates, but no sales of less than five maunds at a time will be allowed.

W. J. HERSCHEL,
Offg. Junior Secretary.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE *will henceforward be published, weekly or twice a week, according to circumstances, containing such Official Papers and Information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.*

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of six Rupees per annum if delivered in Calcutta, or twelve Rupees if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE *is required by Law, or which it has been customary to publish in the* GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to as heretofore.*

Government of India, Public Works Department.

Light Railways.

From J. E. WILSON, ESQ., Civil Engineer, to LIEUTENANT-COLONEL H. YULE, Secretary to Government of India, Public Works Department,—(Dated 8th October 1861.)

SIR,—THE accompanying letter should have been received by you more than two months since, and, to my surprise and vexation, I have only now found it amongst some of my papers, where it must have come by the carelessness of the person to whom I handed it for transmission to you.

I was at that time in the midst of handing over charge of my works, and of removing my books and papers. May I therefore be permitted to apologise for a delay which, although seemingly unaccountable to you, has been most unintentional on my part.

I send you the letter as it stands to save further delay, although there are many corrections I should wish to make; not, however, as to facts or figures.

I find that I have omitted to explain one very important item, the manner in which the capital is to be found.

The amount required is, in round numbers, Rs. 6,00,000. By the usual arrangement at home, prescribed by the "Consolidation Act," this would be composed of: Shares Rs. 4,50,000, and Debentures, at say 6 per cent., Rs. 1,50,000. My friends would be willing to take all the Debentures, and a like amount in paid-up shares.

This is an arrangement for helping weekly projects (financially) into existence that has been resorted to for a good many years at home; and there is scarcely a local or branch line, or extension made of late years, which has not been indebted for its being carried out to this arrangement.

I happen to have found amongst my papers an undertaking on the part of certain Contractors to assist in this way the extension of a line for which I was Engineer. I beg to enclose you the letter that you may see how simply the matter is done.*

All that has now to be determined is, can the remainder of the capital, *viz.*, Rs 3,00,000 be subscribed locally and by the general public? Probably Government would not object to the East Indian Railway giving a subscription.

Since the date of my letter, I have had my attention called to the Lucknow Railway, towards which I find about Rs. 5,00,000 have been locally subscribed.

Such a sum is of course next to useless as regards the prospects of a heavy Railway. But if a "light Railway" would be considered sufficient and Government would make the road, I could undertake to get the matter set a-going with an increase of the capital subscribed already to Rs. 7,00,000.

If Government would agree to make the road, I would be glad to go to Lucknow and see the promoters of the project.

P. S.—Mr. Grant thinks that the best trial would be a tram-road to some of the mineral beds; but I think that there would be a great difficulty in raising the capital for that.

At the same time where a tram-road is the best, and a sufficient capital forthcoming, I could get the same arrangement carried out.

I think the difficulty in tram-roads for India would be the impossibility of the waggons; I am sure no private individuals would provide such.

From J. E. WILSON, ESQ., Civil Engineer, to Secretary to Government of India, Public Works Department,—(Dated 2nd August 1861.)

I BEG to submit to you a few brief remarks on this subject, with reference to a proposal which I had the honor of calling your attention to on the 29th ultimo, for the establishment of a line from

* Letter not printed.

the Nulhatee Station of the East Indian Railway to Jeagunge, opposite to Moorshedabad, a distance of twenty-seven miles.

I of course omit all observations as to the desirability of this and similar lines of communication, as the advantages to be derived therefrom must necessarily be better understood and appreciated by yourself than by me.

One of the first things that struck me, after I had taken charge of the works of the South Beerbhoom District of this Railway, (which have been my first and only employment in the country), was the great anomaly of a first-class English Railway, capable of moving an immense traffic at a high speed, running through a country scarcely possessing a track along which the feeding traffic could come to the line.

It seemed to me that as the total traffic which warranted the establishment of such a Railway was necessarily made up of the partial traffics along the line, arising from the neighbouring country, that communications to enable those traffics to reach the various points along the line were essential and indispensable, not only to the prosperity of the Railway, but to the development of the country.

At first I merely thought of roads, and addressed the Commissioner of Burdwan* on the subject with some effect; a new road being made from the Ahmoodpoor Station to Sooree, through a populous neighbourhood, and several others projected.

* Mr. Elliott.

When I became better acquainted with the country, and had practically experienced the great want of cattle for carriage, especially at certain seasons, as well as the miserable inefficient state of such cattle as there are, I began to doubt very much whether, with the communications, would not be equally necessary a power to propel the traffic. Such being obtained, the traffic might be carried on with regularity and facility, and the cattle be left to their more legitimate, agricultural labor.

I did not at first think of a Railway of any description as the means of effecting these desired communications. My English education had shewn me nothing between the common tramway used for little else than mining purposes, and the *branch* Railway, which, made on the same system as the main lines, costs nearly as much; while the performances of steam carriages upon common roads are only yet experimental, and every Engineer who has given the subject serious consideration must be convinced that such engines can never become anything beyond mere agricultural and local aids.

I remembered, however, that the Liverpool and Manchester Railway was a much lighter Railway in the commencement than it is now; that America could not have developed her thousands of miles of lines with such rapidity if she had not materially lightened the English system; that nearer home, Belgium had been able, by a reduction in weight, and consequently in first cost, to construct a net-work of lines that have been the making of the country; that France has added to her main lines secondary and tertiary systems to suit the traffic that may be calculated upon, and has also tried what may be termed a fourth system consisting of rails laid down on one side of the public road.

I considered it therefore not only desirable, but important, as well as interesting, from a professional point of view to examine into the question; to see how light, consistently with practicability, a Railway might be made, suitable to the subsidiary traffic of the country; and to see what probability the reduced cost of establishing such a system would have of even a trial.

A Railway system, however light, must consist of rails, wheeled carriages, and engines. It is therefore simply a reduction in the weight, and consequently in the prime cost of each of these items that can be made in the present system. To speculate upon, or even design improvements, which doubtless can be made in the existing system, as well as the reduction of weight, would only be to encumber the question with another element of difficulty.

The prime element in the reduction is of course a diminished speed. I should not presume to attempt to explain this to you, although at the same time I must say that it is only those brought up on Railways that can fully appreciate the great, the inordinate sacrifices that are caused by a high speed. A simple illustration of this, and pertinent to the subject, occurred to me the other day, while travelling from Burdwan to Pundooah. About seven miles from the latter place, we met with a Goods Train which had come to a standstill before us, and the Driver of which, from some cause, had put out his fire. There was nothing for it but for us to push the other Train before us into Pundooah, and this we did at about twelve miles an hour instead of thirty; the loads moved by our engine in the two cases being—

Our Train, thirteen Carriages and Break Van, say	...	105 tons.
Goods Train, thirty-two loaded Waggons and Break Van	...	330 tons.
Engine of ditto, say	...	50 „
Altogether	. .	485 tons.

or upwards of four and a half times the load, at two-fifths of the speed = 1·6 load to 0·4 of speed.

Now the locomotive would work with efficiency down to twelve miles an hour, but there would not only be no advantage in reducing the rate below this, but a disadvantage. This rate also is one which would try the rails, wheels, bearings, and so on, scarcely more than eight, or even six miles an hour.

I therefore adopt this rate, or ten miles an hour over all, as the basis of the light Railway system. I am sure that no objection will be raised to that speed as insufficient, for, I apprehend, for the object in view, facility, regularity, and certainty of communication are of more importance than speed.

From the example that I have deduced above, (and I omitted to mention that the engine was only a tank engine drawing much less than a goods engine), you will perceive that an ordinary engine will draw upwards of 500 tons besides its own weight, at the reduced rate of speed.

But of course where a light Railway is applicable, no such Train load would ever be required, and from going into the subject I find that a maximum of 50 tons will meet every requirement. When the traffic becomes greater than this arrangement will supply, it is then time to set about making the *light* Railway into a *heavy* one.

Very fortunately this enables us to diminish the size of the engines, and consequently the weight

of the rails and of the waggons. But independently of this, the more reduction in speed warrants, alone a considerable reduction in dimensions, and consequently in weight.

Happily we by no means require to have recourse to troublesome calculations, or even mere comparisons and reductions therefrom, for the purpose of determining the size of engine necessary, the breadth of gauge, and the weight of rail, all of which are mutually dependent one upon the other.

When the Liverpool and Manchester Railway was first started, George Stephenson's famous engine, the "Rocket," drew 47 tons at upwards of thirteen miles an hour; its own weight being *under* five tons. Now there can be no question that, made at the present day, with all the late improvements and perfection of machinery, the "Rocket," without weighing any more, would draw half as much again. But 50 tons, which is an increase of only 4 per cent., is all that we want.

The weight of rail laid down at first was under 40 lbs. to the yard, and the rail answered very well, until the speed was increased. Now rail-making since then has improved far more than locomotive-making, and I am quite safe in saying that a rail of 35 lbs. to the yard will be far more efficient, in the present day, than the rail alluded to, of the Liverpool and Manchester. Unfortunately there are practical considerations, principally connected with the manufacture, that in my opinion would render it undesirable to reduce the weight lower than this figure, although rails have been rolled and used under 30 lbs. to the yard.

The gauge was established by Stephenson by taking the mean widths between the wheels of all the vehicles that entered Manchester by a certain road for a number of days.

There are many advantages attending a reduction of gauge for a light Railway, if therefore we make it as narrow as we can, so as to allow free room for the working parts of the machinery. By carefully going into this, I find that three feet ten inches, or say four feet would be convenient.

The elements of the light Railway system are therefore—

1*st*. A speed of 12 miles an hour, or 10 miles over all.
2*nd*. A gauge of three feet ten inches, or four feet.
3*rd*. A weight of engine of five tons.
4*th*. A weight of rail of 35 lbs. to the yard.

The quantity that could be carried daily, with reference to goods alone, upon such a line, would depend, of course, a good deal upon the length of such line, as well as other things. But upon the average upwards of 1,000 tons a day each way could be easily done, and, if required more than half as much more, that is, upon one line of communication, between two or more places.

The mere physical capability of such a system to perform this work efficiently you might not probably be inclined to doubt; but it is satisfactory to me to be able to adduce some facts to you, with reference to the most important item, the engines, which facts having occurred out here, are capable of easy investigation and verification.

I allude to the establishment, by me, of two small locomotives on the South Beerbhoom District, at a time when the state of the works was such as not to admit of a large engine being brought up from Howrah.

These locomotives were both made out of portable, or, as they are sometimes called, agricultural engines, which have the boiler and fire-box similar to that of a Railway engine, and are calculated to work at the same speed.

One of them was a 3-horse power (nominally) *single* cylinder, and was mounted on a wooden frame, running upon two pairs of waggon wheels and axles, and having the usual waggon axle-box and guard-plates.

The other was a 10-horse (nominally) double cylinder, and was mounted in precisely the same way, but upon three pairs of wheels instead of upon two.

The weight of the former was about five tons, or one ton at least more than was necessary, on account of the excessive weight of the Railway waggon wheels and axles, which were the only available ones.

This engine, which was arranged with a view to speed, would pull 10 tons easily on the stiffest gradient on the District, 1 in 500. It was used by me for visiting the works, and ran at an average speed of 30 miles an hour, without a load. On turning the arches of the More Bridge, I had occasion to run about 25 miles and back every day, for seven weeks. During the whole of that period, there was only one day on which the engine could not run; the time occupied in doing the total distance of close upon 50 miles, being about one hour and twenty-five minutes.

The other engine, which was arranged for drawing a load, was in the habit of running, with but little intermission, a total distance of from 60 to 80 miles a day. The average speed was about 22 miles an hour, at which rate it could easily pull above 40 tons, and could even take this load up the incline of 1 in a 100, with which the Soorool Junction leaves the main line at a speed of over 10 miles an hour.

This engine weighed about six tons and a half, being upwards of one ton and a half of unnecessary weight from the heavy wheels and axles which were obliged to be used.

Both of these engines in running consumed coal and water in the same ratio to the work done as a large locomotive.

The peculiar arrangement of the driving-axle of the pumping engines allowed of only one method of connecting the power with the driving wheels,—a leather strap working upon drums. This of course was a disadvantage with respect to the *goods* engine, but with regard to the light speed engine, was found to be no drawback whatever, while the saving in wear and tear of working parts of machinery, as well as in the bearings and tires of the driving wheels, was something extraordinary, and was of course due to the elasticity of the connection.

Of course in an engine especially made for the purpose, a more immediate connection would be made with the driving-wheels, and I doubt not that to such connection some elasticity might be easily given, without at all interfering with the simplicity of the machinery. This, however, is a point for after consideration.

You will at once of course say, that although the fuel consumed may be in the ratio of the work done, and would not consequently be comparatively more expensive on this light system, still the cost of driving the engine and of conducting the train will be precisely the same as for a large train on the East Indian Railway, and

will have to be divided amongst only 50 tons at most, instead of four or five times that amount.

I do not, however, for one moment contemplate the employment of European Drivers, Firemen, or Guards, in the working of this system.

Without going at all into the question of the capability of Natives for driving trains, and conducting, on the large Railways of India, I most confidently state that, at the reduced speed of 12 miles an hour, Native Drivers can be trusted with every satisfaction. I could now at once produce twenty Natives whom I would trust to such duties with perfect confidence. My experience of these men shew me that it is principally upon Mussalmen that we should have to rely for all these various duties, while for the management of the traffic and line, the Hindoos (and I can point to more than one fit for the duty) would be the men. This is a matter upon which I have no doubt whatever.

There must, of course, be a European Mechanic as a Foreman of engines at one and of each of the lines of communication, and by having this Official a little more educated than usual, and there are many such (a Driver is not a Mechanic; I believe that ploughmen, who have no acquaintance whatever with any sort of machinery, make the best Drivers,) he could exercise a general supervision over the line to which he might be attached.

I now beg to lay before you the Estimate for one mile of line on the light system—

1*st.*	Rails (35lbs.) or 55 tons, at Rs. 130	...Rs.	7,150
2*nd.*	Rails 5 per cent. for siding ...	„	357
3*rd.*	Fastenings for rails, 7 tons at Rs. 170 ...	„	1,190
4*th.*	Sleepers, 2,640, at 12 annas ...	„	1,980
5*th.*	Ballasting and boxing up, above that laid down on the road, 26,400 feet, at Rs. 4 ...	„	1,056
6*th.*	Laying, including the straightening, of rails, 5,280 feet, at 4 annas per yard ...	„	440
7*th.*	Carriage of road materials from depôts, on distance say 5 miles, at 9·5 annas ...	„	131
	Total, Rs. ...		12,304
	The engines would cost each „ ...		5,000

I may remark that all the prices include delivery, say in Calcutta, but not carriage beyond.

The rails would be of the section called "Vignoles's," a rail, as you are aware, with a flat foot. There is no doubt that at any rate for light rails this form has been proved to be the best. As regards quality, I should stipulate for the head to be of hard close grained iron, and the foot of fibrous tough iron, and should be very particular as to the mode of manufacture. This would render the rails a little, say 7 per cent., more costly to begin with; but by the superior wear that objection would very soon disappear. Where so much carriage has to be incurred, I consider that the rails sent out here should be of the best quality that can be made. The length I should not put at less than *thirty* feet, a length, of such a rail, that can be easily managed without any extra cost.

I have no other remarks to make on the Estimate, which will speak for itself, excepting a word as to the sleepers. These I have considered to be of jungle woods, and as these woods are considered to be a failure, it is necessary I should explain why I would adopt them. The fact is, that these sleepers from all the hard jungle woods, such as dhow, mowha, apoon, and other similar hard and heavy woods, all answer very well, with the exception of kend, that is to say if they have fair play. On the East Indian Railway these sleepers have been mostly laid, at first, without ballast, and have in many instances been allowed to lie more than one wet season in the mud. No timber, however seasoned or impregnated, could stand the alternatives of damp heat and dry heat that sleepers under such circumstances are subjected to. My experience is that the sleepers from these woods, when laid at first in good *clean* ballast, and properly attended to, last just as well as any others that can be had. For any Districts within reach of the Soonderbunds, an excellent sleeper would be the plank or "fall," as it is called of soondree wood, cut into four parts by one cut down the middle, and one across.

Having satisfied myself that a very light Railway system could be put down, costing no more for what we call the *road* than about £1,250 a mile, I brought the matter to the notice of Mr. Grant, upon the occasion of that gentleman's visit to the District some year and a half since. Then the only feasible trial seemed to me to be on the new road from the Ahmoodpoor Station to Sooree, although, being only ten miles, that was scarcely a sufficient matter to call the attention of people at home to.

Mr. Grant, however, mentioned that the Nulhatee Road, twenty-seven miles in length, was then just being begun.

This road, in addition to the greater length, had also the advantage of running to, I believe, one of the largest towns in Bengal, and the old Capital of the country.

Upon investigating the matter a little, I found that, with two exceptions, the gradients were very good, and these exceptions Colonel Young at once gave instructions to flatten a little; the curves being throughout unexceptionable.

I also learned some particulars of the considerable traffic that might fairly be expected would run along the line, with reasonable rates; and also found that the subject of a light Railway to Nulhatee was being very favorably looked upon by the European and Native inhabitants of Moorshedabad. I have been informed too, upon excellent authority, that the Nawab is willing to subscribe Rs. 50,000 to the undertaking, and many rich Natives considerable sums.

I therefore mentioned the matter to some friends at home, with whom I have been connected in Railway matters, with a view to their taking a certain proportion of the necessary capital in shares as payment for the rails, engines, and so on.

Before I received a reply, I had the honor of a conversation with the Governor General, to whom I introduced the subject. His Lordship said that he considered the subject very important, and would be glad to hear more thereof.

When I heard from my friends that they were willing to go into the matter, I had the pleasure of verbally bringing the circumstances before Captain Dickens, who was then officiating for you.

Captain Dickens spoke to Lord Canning on the subject, and I received a reply to say that the

state of the finances prevented the matter being further gone into at that time.

Lately, I have been invited over to Moorshedabad to attend a public meeting on the subject, and my friends have written to me more than once to know if any thing is doing in the matter, as they hear that industrial undertakings are being taken a great interest in out here just now.

It would not of course do for me to incur, needlessly, expense and responsibility. The first step therefore is for me to obtain from Government a provisional concession of the road, subject to proper conditions.

With this I should not only be justified in incurring expenses in furthering the undertaking, but should be in a better position to bring the local residents and others taking an interest in the matter out here, into business-like communication with those at home who are willing to join in assisting the project.

Having therefore received the assent of the Lieutenant-Governor of Bengal, as far as that gentleman is concerned, I now beg to ask the favor of your granting me a provisional concession of the road, upon the following conditions: —

1*st*.—That no shares should be issued until a Company with limited liability is found.

2*nd*.—That no shares should be negociated until the one-quarter of the total capital be paid up.

3*rd*.—That in consideration of the Government handing over the use of one half of the road from the Nulhatee Station to Jeagunge, the Company engages to construct and work a light Railway, at its own risk, peril, and expense, and to bind itself to the following stipulations:—

I.—Stipulations.

1*st*.—The line shall follow the course of the road, one-half of which only it shall occupy.

2*nd*.—The laying down of the line must be commenced within (say) eighteen months from the date hereof, and completed with a further period of twelve months.

3*rd*.—The complete working plans of the road, the waggons, the engines, and all necessary buildings, to be submitted in duplicate to the Government of India, which shall have the right to cause modifications to be made therein.

4*th*.—No commencement to be made until the complete plans are returned, signed as approved by the Secretary to the Government of India, one set of plans being retained for reference by the Government.

5*th*.—Should the plans be detained by Government so long as to prevent a commencement at the stipulated time, No. 2 is to be rescinded.

6*th*.—Before the commencement of the works, as well as during the progress of the same, the Company to have the right to propose modification in the plans; but no such modification to be carried out without a signed plan from the Government, as approved.

7*th*.—After handing over the plans as approved, or any modification thereof, Government does not interfere in any way whatever, until the completion of the line which is not to be opened without the sanction in writing of the authority deputed by Government to inspect the line.

8*th*.—The Company is to find and pay for all land required for digging ballast, as well as that required for temporary purposes. The land required for Sidings and Stations to be supplied by Government.

9*th*.—The Company not to be required to raise the line at any point, but all roads meeting the main road to be crossed on the level.

10*th*.—The Company, while laying down the line, to be invested with all the rights enjoyed by the Department of Public Works that can be of advantage to the prompt and proper execution of the work.

II.—Maintenance and Working.

11*th*.—The Railway to be constantly kept in good order, so that the traffic may be always carried on easily and safely. The expenses of the maintenance to be borne by the Company, and if at any time the line and its appurtenances are not in good order, it will be competent to the Government to make the necessary repairs, and to recover the same from the Company.

12*th*.—The locomotives to be of the best possible construction and finish, and to be smoke-consuming.

The waggons for passengers to be of at least two classes, one open, but covered, and the other closed with glass windows.

These and the waggons for the carriage of goods to be of good and solid construction, and all to be kept in an efficient state of repair.

13*th*.—The Company to submit all regulations relative to the service and working of the line for the approval of Government, but the Company is not to be compelled to run more than one Passenger Train, or Train containing passenger carriages, a day each way.

14*th*.—The Government to depute persons, whenever it thinks proper, to inspect the line and the stock.

III.—Duration, foreclosing, and falling in of the concession.

15*th*.—The length of the concession will be 99 years, the concession commencing the of and terminating the of

16*th*.—At the period fixed for the expiration of the concession, and by the very fact of the expiration, all the rights of the Company,* will immediately take possession of the property.

The Company is bound to hand over the line and dependences, engines, and rolling-stock, in a thoroughly efficient state of repair; and the Government to have the right to seize the revenues of the last five years, for the purpose of putting the line in proper order, should the Company neglect to do so.

17*th*.—At any period after the first twenty years, the Government to have the right to purchase back the concession.

The price to be paid to be either the total expenditure on the Capital Account, together with interest on that sum at 5 per cent. for one year or by taking the average of the last five years' profits as an annuity to be paid to the Company for the remaining term of the concession; the annuity not however to be inferior to the profits of the year immediately preceding the taking over. The Company to have the option of choosing either of these prices.

18*th*.—If the Company should not commence the line by the date named in No. , that fact to of itself, at once, cause the concession to be taken from the Company.

19*th*.—Should also the Company fail to complete the line by the date named in, or should not have

* There is some omission here in the manuscript, probably some such words as the following should here appear—" will lapse and Government will &c."

properly fulfilled all or any of these stipulations, it will be competent to the Government to take the line from them, and either to carry on the line, or to enter into arrangements with other persons to do so.

And whatever work may have been done, to become, in such case, the property of the Government.

20*th*.—And should the working of the line be either partially or wholly stopped at any time, it will be in the power of Government to take immediately the necessary measures for the provisional carrying on the working of the line.

If the Company does not at once, after the organization of the provisional service, prove itself to be in a position to go on with the working of the line, and does not immediately do so, the line can be taken out of the hands of the Company by the Government.

21*st*.—Should, however, the Company prove that it has failed in its obligations from the pressure of unforeseen and unavoidable circumstances, the last three stipulations not to be applicable.

IV.—Tariff and Conditions relating to the carrying of Goods and Passengers.

22*nd*.—To indemnify the Company for the works and expenses undertaken by the present stipulations, the Government grants the right, in addition to the use of one-half of the road, to make the following charges during the whole term of the concession, for the conveyance of passengers and goods:—

TARIFF.

1*st*. Passengers, 1st Class, per head per mile.
2*nd*. „ 2nd „ „ „
3*rd*. Horses.
4*th*. Dogs.
5*th*. Goods, 1st Class, per ton per mile.
6*th*. „ 2nd „ „ „
7*th*. „ 3rd „ „ „
8*th*. „ 4th „ „ „
and so on.

No distance under six miles to be charged lower than that distance, and for goods, the weight to be taken by intervals of 10 seers, so that any thing between 10 and 20 will pay 20 seers.

The smallest charge for goods to be ————, whether the distance carried, or the weight of the article.

Then to follow the usual regulations and conditions for carrying traffic.

23*rd*.—The Company shall run the Trains at the rate, including stoppages, of 12 miles an hour, and are not to run at a less rate, nor are they ever, under any circumstances, to be called upon to run at a higher speed.

24*th*.—The Company to make no special arrangements for the carriage of goods that shall not be shared by all willing to take advantage of the same arrangements.

V.—relating to the Public Service.

25*th*.—Soldiers to be carried at the same reduced rate as upon the main Railways. If the Government at any time requires to move Troops, the whole of the means of transport possessed by the Company to be placed at the disposal of Government, at a charge of half the usual rates.

26*th*.—The Company shall be bound to carry gratuitously, and by every Train, letters, despatches, and the persons in charge thereof, that the Post Master General may deem advisable for the service of the public to send; and that once a day there shall be one vehicle set apart, or portion of a vehicle, as may be necessary, for the business of the Post Office. But notice in writing to be given, at least one week before such arrangements are to come into working to the Company by the Post Master General.

27*th*.—The Company is not to find any land, buildings, or other accommodation that may be required at the Stations or elsewhere, for the purposes of the Post Office.

28*th*.—In the event of the Government establishing an Electric Telegraph along the road, the Company to be permitted to make use of the posts thereof for setting up a Telegraph for the Railway purposes; such Telegraph not to carry messages for the general public without the sanction in writing of the Government.

29*th*.—In any case the Company shall be bound to erect and maintain in working order a Train, Signalling Telegraph, without the use of which no Train to be allowed to run.

VI.—Sundries.

30*th*.—The Government to sanction no line to be made during the term of the concession which would come in any way into competition with the line of the Company. But all branch roads to be made are to be carried out without opposition on the part of the Company, provided that no obstacle is presented to the construction or working of the Company's line.

31*st*.—In case of any branch line, or any extension of the Company's line, being considered desirable, the Company to have the offer of the concession of such branch line or extension upon the same terms as they hold the present concession upon. And until the Company have signified their unwillingness in writing and within reasonable time for consideration, the Government not to offer these further concessions to other parties.

32*nd*.—In the event of other Companies taking up these further concessions, the present Company is to give every facility for the passage of the traffic of the new Companies over its line, or any part thereof.

33*rd*.—The Company shall permit junctions to be made with its line of any small local branches which are proposed to be made for the development of the country, and which, upon investigation, the Government shall decide in favor of, the Company being heard against.

The junction of any such branch is to be made at the expense of the person making the branch, but under the superintendence and approval of the servants of the Company. No rail of the Company's line to be removed for such purpose without a week's previous notice in writing to the Company, and the presence at the time of a Company's servant.

34*th*.—The Company to allow their waggons to perform the traffic of such branches under the usual proper regulations.

These regulations to be specified.

35*th*.—Before the issuing of the Government order which shall ratify the concession, the Company shall pay into the Government Treasury a sum of Rs————, being a porportion of ————of the capital required by the Company.

This sum shall be refunded by the Government to the Company by fourths, and porportionally to the progress of the works, but the last fourth shall not be returned until after the entire completion of the works.

This list of stipulations is merely suggestive, my object being to get every thing specified distinctly beforehand, so as to avoid misunderstanding

and consequent delay and trouble afterwards. And one great thing is, that my friends at home would not be inclined to go into the matter, unless they saw very clearly the conditions of the project with respect to Government, and that they run no unnecessary risk beyond that fairly incidental to all free and untrammelled commercial speculations.

I now proceed to call your attention to the financial part of the project.

The estimate would be—			Rs.
1st. Road, 27 miles ...	Rs.	12,500 =	3,37,500
2nd. Waggons, 100 ...	„	500 =	50,000
3rd. Engines, 10 ...	„	5,000 =	50,000
4th. Stations and dependencies ...	„	2,000 =	54,000
5th. ElectricTelegraph	„	500 =	13,500
6th. Contingencies, 10 per cent. ...		...	50,500
7th. Superintendence, 10 per cent. ...		...	50,500
	Total	...	6,06,000

Annual Working.			Rs.
1st. Maintenance of road		...	8,100
2nd. Stations and dependencies		..	2,700
3rd. Haulage—			
1st. European Foreman ...	3,000		
2nd. Drivers ...	3,000		
3rd. Firemen ...	1,200		
4th. Fuel ...	3,650		
5th. Oiling, cleaning, and lighting ...	1,500		
6th. Repairs ..	5,000		
			17,350
4th. Traffic—			
1st. Stations, &c. ...	6,000		
2nd. Conducting ...	2,160		
3rd. Signals, &c. ...	1,620		
			9,780
5th. General Management, say			6,000
	Total	...	43,930

Taking the interest on the capital at the rate of 6 per cent., will give a yearly amount of ...	Rs.	36,360	
to which add the working...	„	43,930	
we have a total required at least of ...	Rs.	80,290	a year.

Now to see what traffic will be required to produce this revenue, I shall assume the passengers at one Rupee for the entire journey, and shall put the average of the goods at one-half a pie per maund per mile on the average, or less than the half of what it would cost along the road by carts.

The assumption of fifty passengers through each way per day, will not, I think, be considered unreasonable. This will produce Rs. 33,000 a year, leaving to be made up by goods Rs. 47,290.

This sum represents just 2,000 maunds a day, or each way 1,000 maunds a day, a quantity, I am told by those who have opportunities of knowing, by no means over the mark.

On the Beerbhoom Stations of the East Indian Railway, Gooskarah, Bulpoor, and Cynthea, upwards of a hundred Rupees a day is taken for goods at each for the local traffic, and not one of these seems by any means so important a District as that of Moorshedabad.

By an increase in the capital of about Rs. 30,000, and in the working expenses of only about Rs. 15,000 a year, half as much traffic again could be carried, bringing up the interest on the capital to upwards of 3 per cent. more. And this is without reference to any increase of passenger traffic, which would doubtless ensue.

I think I may venture to submit that these estimates are careful and prudent statements of the circumstances, and although you may probably find that some alterations may be made with advantage, I beg to assure you that I have put down nothing below the sum that I know each item must amount to.

If, therefore, it is considered that an advantage to the country would accrue by the giving over the concession of half the road to a Company for the construction thereupon of a light Railway, may I beg the favor of your granting me the concession provisionally, to be subject, of course, to the condition that if in say twelve months the capital is not subscribed, such provisional concession to be taken away from me.

In the event of my succeeding in establishing the Company, a matter of which I have but little doubt, I will undertake to say that, *within eighteen months* of the date of the permanent concession to the Company, the line will be open for traffic. If you will do me the favor to enquire, you will find that I keep my word in such cases.

I am inclined to think that a Company might be established with advantage for the general carrying out of "light Railways" for India. But I could on no account advise any such Company to undertake the construction of the roads. The operations of such a Company, were it to undertake that part of the business, would be too small to admit of the expensive staff that would be required; while there would of course be a competition raised with the "Public Works Department," raising the cost of the works.

My opinion is that a Company undertaking the roads would signally fail. Government has an Establishment ready to construct roads; and the operations of the Company should be confined to laying down lines upon these roads and working the same, on the terms sketched out on this paper; the roads being, where possible, kept within certain limits of curves and gradients.

In this way the extension of these communications would go on steadily and without haste. Although such communications are very much required, I would rather see one feasible undertaking for however small a line, than a grand scheme for covering India at once with a net work.

Upon hearing from you on the subject, I am ready to proceed to Moorshedabad, and thence to England, for the purpose of carrying out the undertaking, and believe that in six months I shall be able to say positively whether the matter is going to be done.

From Lieutenant-Colonel H. Yule, Secretary to the Government of India, Public Works Department, to J. E. Wilson, Esq., C. B.—(No. 4373, dated 12th December 1861.)

Your letter of 8th October, with its enclosures, containing a scheme for the establishment of a light Railway on the road from the Nulhatee Station of the East Indian Railway to Moorshedabad, has been laid before the Governor General in Council.

2. His Excellency in Council considers the scheme a very desirable one, and the line selected

a very suitable one for the experiment of such a Railway. Should it be successful, a very large field would open for the construction of similar lines in localities where traffic would probably be greater, though extent and position render them less suitable for experiment.

3. Your stipulations and conditions appear to the Governor General in Council to be in the main fair and well considered. It is possible that some of them may require further discussion, but in the mean time only two appear to His Excellency in Council as objectionable. One is that which stipulates that the Company, whilst laying down the line, shall be invested with all the rights enjoyed by the Department Public Works that can be of advantage to the prompt and proper execution of the work. It is not understood what sort of rights are intended. No doubt the name of Government is often used by the Subordinates of the Department in the quasi-forceable collection of work-people; but the Government discourages everything of the kind in our own Department, and certainly will not give any facility for the practice in others.

4. The other point is contained in the 30th condition,—"The Government to sanction no line to be made during the term of the concession which would come in any way into competition with the line of the Company." This is obviously too comprehensive. Government could not pledge itself beyond refusal of sanction to any duplicate or directly competing line.

5. These points are not likely to cause any difficulty, and I am to say that the Government would be prepared to make a concession to any solid Company on such terms as you propose. A stipulation would be made for the trial of a small portion of Indian cast-iron rails, which it is a great object to have tested, and this portion would be supplied at the expense of Government.

From J. E. WILSON, Esq., C. E., to Secretary to Government of India, Public Works Department,—(dated the 21st December 1861.)

I HAVE the honor to acknowledge the receipt of your letter of the 12th instant, No. 1373, conveying the approval of the Governor General in Council to the project of light Railways for India, and the consent of His Excellency in Council to give the Nulhatee Road to any solid Company prepared to take the matter up on such conditions as those proposed by me.

2. From the prompt and liberal manner in which the subject has been met by His Excellency in Council, I have no hesitation in saying that not only will the experiment in question be speedily carried out, but arrangements made to enable this system of communication to be extended without delay to those localities where the want of such is more felt and the traffic doubtless greater.

3. From what I have heard in conversing on the subject since I received your letter, I have every reason to believe that *all* the money required for the Nulhatee Line would be subscribed here and in a very short time.

4. It may be satisfactory to His Excellency in Council to hear this much, although I do not propose to adopt such a course, and in this view I am strengthened by the opinion of one or two of the first men of business in Calcutta. I believe that even for the Nulhatee Line time will be saved, and certainly for the other lines that will be required far more so by the establishment, *in England*, of a Company for the purpose.

5. I am therefore shortly proceeding to England with this view, and shall take the liberty of acquainting His Excellency in Council, from time to time, with the progress that is being made in the matter.

6. In conclusion, I beg to say a few words respecting the stipulations objected to by His Excellency in Council to correct any misapprehension as to my real meaning that may have arisen from the hasty manner in wich the stipulations were worded out.

7. In stipulating for the Company to enjoy all the rights and privileges of the Public Works Department, I do not at all allude to a quasi or anything approaching a forcible collection of work-people. I have never attempted such a thing on the works that I had charge of on the Railway, and I think that such a privilege, if existing, would be of no use. I meant the rights, if any, of getting carriage for materials, and sometimes supplies by order of a Magistrate who should hear the application; we have often been put to great inconvenience and expense by people keeping their carts and supplies back to raise the prices thereof. This does not matter much where time is not an object, as in that case the people give in; but it is a very serious matter when pledges are given for the completion of work by a given time.

8. The 30th Condition as worded by me defeats the general object of my stipulations,—clearness and precision,—by leaving a door open for discussion. Of course, I could expect no more than is conceded by His Excellency in Council in this respect.

From J. E. WILSON, Esq., C. E., to Secretary to Government of India, Public Works Department, (dated 3rd May 1862.)

IN further reply to the letter (No. 4373 of 12th December 1861) which I had the honor to receive, conveying the sanction of the Governor General in Council to my project for establishing a light Railway on the road from Nulhatee to Moorshedabad, I beg to submit the following particulars to the attention of His Excellency in Council.

2. I proceeded to Europe by the first Steamer after the receipt of the above-mentioned letter, and devoted myself, for a period of five weeks, to a study of such light Railways as are to be found in use on the Continent, for public as well as private purposes, as well as of all improvements in Railways generally, having for object economy in construction, working, or material. By this study my views as to the feasibility of light *Railways*, and the advantageous and successful application of the same to India, were strengthened; Tramways, I found, being entirely exploded, and no longer in use for even the commenced industrial purposes.

3. Upon my arrival in England, and after a discussion of details with Engine-makers, Rail-manufacturers, and others, I laid the project before some gentlemen of eminence, with whom I had been connected in Railway matters formerly. The result of this step was prompt as well as favorable. All the materials required from England for the Nulhatee Line were at once ordered; and I was directed to lose no time in making the necessary arrangements for getting the undertaking completed with all possible dispatch.

4. In the letter with which I had the honor of laying my project before the Government of India, I stated that I had little doubt of being able to form a Company for establishing similar lines throughout India. My expectations have been realized, a Company having been formed for the purpose of extending the principle of *light Railways* for all India. I am unfortunately unable to submit a Prospectus of the Company, from my not having received through some mishap those forwarded to me. I am able to state, however, that the capital has all been subscribed; and that the chair has been taken by the Marquis of Tweeddale, of a Board of Directors composed of gentlemen of the highest standing.

5. The sole object that these gentlemen have in joining the Board is "to aid in the promotion of a project which promises to be of such immense benefit to India if carried out on a large scale." And from the opinion expressed on the subject by His Excellency in Council (see paragraph 2 of letter to me, No. 4373 of 12th December last), "should it (the Nulhatee Line) be successful, a very large field would open for the construction of similar lines in localities where traffic would probably be greater;" they feel convinced that in forming a Company for carrying out these lines on a large scale, they have taken a step which will meet with the approval of His Excellency in Council.

6. I have therefore been instructed to ask for permission to lay down *light Railways* on all roads completed, in progress, or intended, when His Excellency in Council would consider such undertakings to be of advantage to the country.

7. Those roads which offer particular facilities for the speedy completion of light Railways are—

1*st*.—The Rohilkund main line.
2*nd*.—Agra to Bhurtpoor.
3*rd*.—Agra to Mynpoorie.
4*th*.—Cawnpoor to Lucknow.
5*th*.—Mirzapoor or Buxar to Goruckpoor.

Those in Bengal I have addressed His Honor the Lieutenant Governor upon.

8. I would undertake that these *five*, together with the Dinagepoor Line in Bengal, should be completed *within two years*, provided the roads were ready, and no unforeseen occurrence take place. I state this after due consideration, and I think the Government is aware of my having kept similar promises on more than one important occasion. With respect to the Nulhatee Line, I have every confidence in being able to open that for traffic before the close of this year.

9. In conclusion, I beg to mention that I have received instructions from the Board to make use as much as possible of articles of Indian manufacture, and not to send home for any thing that can be got out here equally well. This will be particularly of advantage to the development of iron manufacture in India, in which the Government takes so much interest.

From Lieutenant-Colonel R. Strachey, R. E., Secretary to Government of India, Public Works Department, to J. E. Wilson, Esq., C. E.,—(No. 1975, dated 26th May 1862.)

Having laid your letter dated 3rd instant before His Excellency the Governor General in Council, I am instructed to remark that it will be convenient that you should shew the nature of your authority to enter into negociation with the Government of India in behalf of the Indian Branch Railway Company before proceeding further to discuss the subjects to which you have alluded.

From Lieutenant-Colonel J. P. Beadle, Officiating Secretary to Government of Bengal, in the Public Works Department, to Secretary to Government of India, Public Works Department,—(No. 2217, dated 15th May 1862.)

The accompanying letter from J. E. Wilson, Esq., Civil Engineer, refers to a sanction received by him for the establishment of a light Railway on the road from Nulhatee to Moorshedabad, and to an extended scheme for the formation of light Railway Branches to be undertaken by a Company which has been formed in London.

2. The Government of Bengal has received no official notice respecting this scheme and Company, and I am instructed to request that the Lieutenant-Governor may be favored with information of the proceedings taken, and of the sanction given in the case of the Nulhatee and Moorshedabad Road; and also of the steps, if any, which the Government of India would desire that this Government should take in respect to the extension of this line, which the Company would appear to be prepared to make to Dinagepoor north of the Ganges.

3. A copy of the letter acknowledging the receipt of Mr. Wilson's communication accompanies.

From J. E. Wilson, Esq., C. E., to Officiating Secretary to Government of Bengal, in the Public Works Department,—(dated 3rd May 1862.)

I beg to submit, for the consideration of His Honor the Lieutenant-Governor, some particulars relative to the project, for which I have received sanction, for the establishment of a *light Railway* on the road from Nulhatee to Moorshedabad.

2. The material for that line is in so forward a state that I am able confidently to promise the opening for traffic before the close of this year.

3. In connection with this project, a Company has been formed for the purpose of carrying out similar lines on a large scale in this country, and the capital of the Company has been fully subscribed. The Board of Direction is formed of gentlemen of eminence, who give their co-operation solely with the view of benefitting India, and who trust therefore that they may receive the sanction of His Honor to the extension of the *light Railway* system throughout Bengal.

4. His Honor will of course be the best judge as to the roads which it would be expedient for the benefit of the country to proceed with. The Directors feel most anxious to go on with the line from Berhampoor to the Ganges at Bogwongolah; that the same may be opened for traffic as soon as possible after the Nulhatee Line, of which it may be looked upon as an extension.

5. The Board is also prepared to carry out a further extension from the Ganges opposite Bogwangolah to Dinagepoor, and thence through Rungpoor to the Berhampootra River.

6. The arrangements for the material, rails, engines, waggons, and so on, required by the Company being perfect, (those for the Nulhatee Line are by this time nearly completed), these new lines could be laid down with great expedition. And I will undertake that by the middle of next year the line to Bogwangolah shall be opened for traffic, and that to Dinagepoor before the end of next year; the continuation to the Berhampootra to follow immediately the completion of the roads.

7. The Board is also prepared to go on with, at the same time, the lines from Patna to Gya, and from opposite Patna to Mozufferpoor

(Tirhoot). And I will also undertake that these two lines should be laid down also within two years, provided of course that the roads present no difficulties

8. Should His Honor the Lieutenant-Governor think proper to recommend that these proposals of the "Indian Branch Railway Company" should be assented to, I beg to ask the favor of an early reply, that no time may be lost in ordering the rails, engines, ferry steamers, and other necessary materials.

From LIEUTENANT-COLONEL J. P BIADLE, Officiating Secretary to Government of Bengal, in the Public Works Department. to J. E WILSON, ESQ., C. E,—(No. 2216, dated 15th May 1862.)

I AM instructed by the Lieutenant-Governor of Bengal to acknowledge the receipt of your letter dated 3rd May 1862, and to furnish you with the information given, in the accompanying Note of the Chief Engineer, respecting the roads which are prominently mentioned in your letter

2. A further communication will be made after receiving from the Government of India information and orders respecting the formation and scheme of the Company for Indian Branch Railways At present the Lieutenant-Governor has no authority to take any steps in this matter.

From LIEUTENANT-COLONEL R. STRACHEY, R. E., Secretary to Government of India, Public Works Department, to Officiating Secretary to Government of Bengal, in the Public Works Department, (No. 2002, dated 31st May 1862.)

WITH reference to your letter No. 2217, dated the 15th instant, regarding the line of road from Nulhatee to Jeeagunge, which Mr. Wilson states has been promised to be given to him for the construction of Railway, I am directed to express regret that, through oversight, no official intimation of the proceedings of the Government of India in this matter has till now been made to the Hon'ble the Lieutenant-Governor on the subject. A copy of the correspondence between Mr. Wilson and the Government of India is now forwarded for the information of the Government of Bengal.

2. As Mr. Wilson has not yet shewn that he has any sufficient authority to act in behalf of the Indian Branch Railway Company, it will be prudent to wait until he produces definite powers before entering into any negociations with him, and this has been already intimated to him in reply to a communication made by him to this Office.

3. I am desired to add that the general question of how such works are to be dealt with is now under the consideration of the Government of India, and a further communication on the subject will be addressed to you at an early date; meanwhile it is sufficient to remark that the Government of India will probably leave the arrangement of all details in the hands of the local Government, after a general expression of the views of the Governor General in Council suitable to the circumstances of each case that may arise.

From J. E. WILSON, ESQ., C. E., to Secretary to Government of India, Public Works Department,—(No. 188, dated 12th June 1862)

Indian Branch Railway.

I HAVE the honor to acknowledge the receipt of your letter No. 1975 of the 26th ultimo.

2. I beg to state that I have been advised of the dispatch, by the last mail, of a letter (copy herewith enclosed) addressed to you by the Board of Directors of the "Indian Branch Railway Company."

3. I trust that this letter may be considered by His Excellency the Governor General in Council to afford satisfactory information as to my authority to act on behalf of the Company

---

From H. W. WICKES, ESQ., Secretary, London Board Indian Branch Railway Company, to Secretary to Government of India, Public Works Department,—(dated 10th May 1862.)

I AM instructed by the Board of Directors of the "Indian Branch Railway Company" to transmit, for the information of His Excellency the Right Hon'ble the Governor General in Council, the enclosures as per margin.

1. The Prospectus of the Company.
2. The Conditions
3. Letter addressed to the Secretary of State for India in Council by the Directors of the Indian Branch Railway Company.
4. Reply of the Secretary of State for India to Paper No. 3.

2 As will be seen from the above papers a solid Company has been formed and has been recognised as such by the Secretary of State for India in Council; and I, as the Secretary to that Company, am desired by the Board to state that Mr. J E. Wilson, who originally corresponded with Colonel Yule on the subject of laying down light Railways on common roads, has been appointed Chief Engineer and Agent of the Company, and authorized to conclude definite arrangements with the Government of India for constructing the experimental line from Nulhatee to Moorshedabad, now sanctioned by the *Secretary of State for India*.

3. Although the *immediate* operations of the Company are limited to the Nulhatee Branch, it will be seen from the Prospectus that the object in forming a Company with so large a capital was to carry out on a large scale the principle of light Railways on common roads, which has already received the sanction of the Government of India, as communicated in Colonel Yule's letter of 12th December 1861. In accordance with this object Mr. Wilson has been instructed to enter into negociations for further concessions to the Company, and the Board trust that the Government of India will at once take up the subject with him, and submit their recommendations to the Home Government, in order that the Directors may finally arrange with the Secretary of State for India in Council the conditions on which extended operations are to be carried out.

4. It should be borne in mind that the Indian Branch Railway Company is the first Company which has undertaken to construct Railways in India without a fixed rate of interest being guaranteed by the Government of India, and the accounts of the Indian Railways laid before Parliament shew that the guaranteed interest upon the capital of the Indian Railways represents a very large item of the total expenditure, and this Company proposes to carry out extensive works without any such pecuniary aid.

5. Although Manchester and Liverpool have taken considerable interest in the formation of this Company, the required capital for carrying out the undertaking on a large scale has only been obtained by the direct canvassing of the Directors amongst their friends who have subscribed the necessary capital in anticipation of obtaining from the Government of India conditions similar to

those sanctioned for the experimental line, and the Directors would urge upon the Government the expedience and importance of adhering, as far as possible, to those conditions, as any serious departure from them would in all probability defeat the great objects for which the Company has been formed, and limit its operations merely to the Nulhatee Branch, with scarcely a prospect of a gain raising so large a capital without guaranteed interest from the Government of India.

From T. G. BARING, Esq., Under-Secretary of State for India, to W. DENT, Esq.,—(dated 2nd May 1862.)

I AM directed by the Secretary of State for India in Council to acknowledge the receipt of your letter of the 17th ultimo, relative to the proposed construction of a Branch Railway on the road leading from the Nulhatee Station of the East Indian Railway to Moorshedabad.

Under the explanation now afforded of the terms on which the Indian Government "are prepared to make a concession of the road in question to any solid Company," Sir Charles Wood will not object to sanction being given to the Company represented by yourself (should the Indian Government so determine), in order that an experimental Branch Railway may be laid down upon it, not to occupy more than half the width of the road, and with due precautions for the safety of persons using the ordinary roadway, and he will advise the Indian Government accordingly.

It must however be clearly understood that the road from the Nulhatee Station to Moorshedabad alone is here referred to, and that should the Company be permitted to lay down the rails on that road, the question of any further concessions for the construction of Branch Railways in other places, and the conditions on which they should be made, will remain for future consideration.

From LIEUTENANT-COLONEL R. STRACHEY, R. E., Secretary to Government of India, Public Works Department, to J. E. WILSON, Esq., C. E.,—(No. 2451A., dated 28th June 1862.)

WITH reference to your letter No. 188, dated 12th June 1862, I am directed to request that you will be good enough to call at your convenience to discuss the terms of a definite arrangement to be entered into on the basis generally mentioned in Lieutenant-Colonel Yule's letter No. 4373, dated 12th December 1861, regarding the concession to you of the Nulhatee and Jeeagunge Road, to be converted into a light Branch Railway.

From LIEUTENANT-COLONEL R. STRACHEY, R. E., Secretary to Government of India, Public Works Department, to Officiating Secretary to Government of Bengal, in the Public Works Department,—(No. 3609, dated 18th September 1862.)

IN continuation of my letter No. 2092, dated 31st May, relative to the negociations that had taken place between Mr. Wilson and the Government of India, for the construction of a light Railway on the road between Nulhatee and Jeeagunge, I am now directed to inform you that His Excellency the Governor General in Council having carefully considered the terms which should be given in the present case has instructed me to forward a draft of what is proposed for the consideration of the Lieutenant-Governor.

2. His Excellency in Council has given his best attention to the important subject involved in the proposals of the Indian Branch Railway Company, which has now taken up Mr. Wilson's first scheme, and of another Company of a similar character. These proposals have for their object the construction of light branch Railways without guarantee from the Government, and His Excellency in Council is most desirous that all proper consideration should be shewn to these Companies, and all proper encouragement given to them in carrying out such works.

3. But though the Government of India is quite prepared to consider any definite schemes, such as those put forward by these Companies, it does not deem it expedient to make any general offers of assistance to Railway projectors at large, or to state any specific terms on which it would, in all cases, undertake to co-operate with capitalists for such purposes. It is for many reasons better to deal with each case as it arises, and to determine the claims of any *bonâ fide* proposal to receive Government support, on a consideration of the special character of the project, and of the inducements that may be expected to lead capitalists on the one side to desire to undertake the work, and the Government on the other side to desire to see it undertaken.

4. His Excellency in Council has caused the draft of the Conditions of the Agreement with the Branch Railway Company for the Nulhatee and Jeeagunge Railway to be prepared in accordance with the above principles, and to meet so far as was possible the exact stipulations of Mr. Wilson's original proposals which the Government of India had generally accepted. One point however had been overlooked in the original proposals, which the Government feels to be essential, namely the necessity for reserving the power of calling upon the Company to erect fences along the whole line, should it be found necessary for the public convenience or safety. In consideration of this, which may of course lead to considerable outlay not at first foreseen by Mr. Wilson, His Excellency in Council has proposed to make certain further concessions, in the shape of an annual payment towards maintenance, equivalent to the probable charge of keeping up the portion of the Road made over to the Company, which otherwise would have fallen on the Government, and of a payment equivalent to the amount paid as import duty on the Rails, &c., actually put down for the Road.

5. The Lieutenant-Governor is requested to examine these draft Conditions, with the explanatory remarks that accompany them, and to favor the Government of India with any suggestions that he may desire to make, either regarding their general scope, or any special point. It will be understood that the present draft can only be expected to deal with the question from a general point of view, and that the insertion of any Conditions that are called for from local causes must rest altogether with the Government of Bengal. The Clauses that may require attention in this sense will probably be Nos. 2, 3, 6 and 8. It may be thought desirable to specify more exactly in Clause 6 what the Government will do to the existing Road, and what will be left for the Company to do. Under Clause 8 it will be seen that no over-bridges can be claimed from the Company unless specially agreed upon in the first instance.

6. It has been thought convenient to draw out the Conditions of the Agreement in a separate form, and avoiding, as far as possible, legal phraseology; so that the contract itself, which will be the legal instrument, the preparation of which

may be left to the Government Solicitor, may be as concise as possible, consisting mainly of a covenant to make the Railway on the Conditions annexed, and of Clauses to refer any dispute to Arbitrators.

7. This being the first agreement of the sort entered into by the Government, His Excellency in Council has thought it better to have the papers prepared under the direction of the Government of India; but it is the wish of the Governor General in Council that the Contract, when the conditions have been finally approved by the Government of India, should eventually be executed by the Lieutenant-Governor, to whom His Excellency in Council will henceforth leave any other applications of this nature to be dealt with on the general principles explained in this letter. It will however be expedient that before the Government is finally committed to any fresh Contract for a Branch Railway, the exact terms proposed should be submitted to the Government of India for perusal, in order that the Governor General in Council may have an opportunity of offering any remarks that might be thought proper. I am to add that it will be greatly conducive to convenience if the same form of Agreement is adopted as far as practicable, in all cases, introducing only such changes as the special terms of each case require.

8. Although, as before stated, the Government of India thinks it most expedient to deal with such proposals as these on their individual merits, yet there are some general points relating to them on which the views of His Excellency in Council may usefully be expressed.

9. In the first place there will be certain matters which will be more conveniently and properly dealt with by an Act of the Legislature than by a Contract between the Company and the Government; and some for which Legislative interference would be essential. Such are all the provisions necessary for securing the safety of the public, and the protection of private rights, whether in the original construction or in the subsequent working of the Railway. The power of the law must also be applied to enforce the Bye-laws of the Company; to give them authority to levy the Fares and Tolls approved for their Tariff; and to enable them to obtain land. The Government of India has already under its consideration the Clauses of such an Act.

10. When agreeing to the construction of any Railway, the Government, acting in behalf of the public, will naturally exercise a certain control over the determination of the exact line to be taken; and such a power may also at times be usefully exercised in deterring speculators from embarking in schemes that might prove ruinous to them, and so be generally injurious to the prospects of a further extension of Railways by private enterprize. Under no circumstances could it be right to give any thing like a monopoly right in any particular district to the projectors of any line; and the claims of projectors to consideration in respect to future extensions, could, it is believed, be sufficiently protected by the provisions of the general Act.

11. As regards the Tariff, the Government may justly claim some power of control in behalf of the public, in consideration of the special powers and privileges which are either directly or indirectly given to the proprietors of a Railway by the law. The exact manner in which this check would best be exercised, and the extent to which it should go, must depend on the circumstances of each case; either a maximum might be fixed once for all at first, or a power reserved to the Government of reducing the rates under prescribed conditions, as, for instance, after a certain maximum profit had been realized.

12. With respect to the nature of the assistance to be given by the Government, it will of course be an object that it should be no more than is really essential to attain the end desired; and the extent to which it should go, whether to the grant of land free, or of a road already made, or whether it should include any direct pecuniary aid, can only be properly determined in each case on its own merits. It may be added that, as the value of all aid from the State might be reduced to a pecuniary equivalent, all such aid is in truth in the nature of a subsidy, varying in its amount and in its convenience, and there seems no very good reason for rejecting one form of aid and accepting another, unless on the ground of its leading to results either financially or generally inconvenient.

13. The Government of India would desire to stipulate for the free conveyance of Mails on all Indian Railways; and the transport of Troops, Police and Public Stores, at reduced rates, will also be a reasonable condition to propose. Further, where land is given free of cost, the State may fairly claim to exercise the right of a ground landlord, to re-enter and to take possession of the works fixed to the soil, either in case of the Company not completing its Contract, or on the lapse of the term for which the concession was made. It may also be well to reserve a power to the Government to purchase on stated terms. This would be the most complete safeguard that the public could have for the good conduct of the proprietors of any Railway; and might otherwise offer a simple remedy for future complications or difficulties now not foreseen.

14. In conclusion, I am to remark that all charges on account of such Railways as these must be provided for in the Public Works Budget under the head "Railway," and that no special pecuniary grants from Imperial Funds are to be anticipated on their account, either now or hereafter. Railways in fact are roads of a superior order, and the funds necessary for meeting charges arising from the construction of unguaranteed lines of Railway must be met by economy in the sums heretofore set apart for the construction and maintenance of common roads. The Lieutenant-Governor will also understand that his ordinary power of sanction, under the usual restriction as to amount and general approval in the Budget, may be exercised, at his discretion, in the case of works to supplement an unguaranteed Railway under an agreement with Government.

15. Any proposed arrangement with a Railway Company that cannot be carried out under the above conditions must be specially reported to the Government of India for its orders.

From LIEUTENANT-COLONEL R. STRACHEY, R. E., Secretary to Government of India, Public Works Department, to Agent, Indian Branch Railway Company,—(No. 3610, dated 18th September 1862.)

I AM directed to forward, for your information, copy of a letter this day addressed to the Bengal Government, relative to the proposed Branch Railway from Nulhatee to Jeeagunge, and of the draft Conditions referred to therein; and to request that you will communicate with the Secretary to the Bengal Government, in the Public Works Department, on the subject.

From [illegible], R. Smith, Esq., C. S., Secretary to Government of India, Public Works Department, to Secretaries to Governments of Punjab and North-Western Provinces, in the Public Works Department,—(No. 3609—4, dated 18th September 1862.)

I AM directed to forward, for the information and guidance of the Lieutenant-Governor*

co-operate with any solid Company for the execution of any definite project of this description on terms generally in conformity with those proposed for the Bengal Companies, and subject to the financial and other restrictions adverted to in my letter No. 3609 to the Bengal Government.

[DRAFT.]

Special conditions of the Agreement between Her Majesty's Secretary of State for India in Council and the Indian Branch Railway Company for the construction of the Nulhatee and Jeeagunge Branch Railway,

1. The Company to construct a *light* Railway from *the Nulhatee Station of the East Indian Railway* to *the River Bhagiruttee at Jeeagunge*, being a distance of about *twenty-seven* miles.

Line.

2. *The line to follow the Road now in course of construction between Nulhattee and Jeengunge.*

3. *One-half of the said Road, together with the additional side space* and other lands shown in the land plan hereunto annexed, will be placed at the disposal of the Company by the Government.

Land.

4. All land in addition to that first placed at the disposal of the Company with the half Road under Clause 3, which the Government shall from time to time agree to be necessary for the purposes of the Company, shall be taken up by the Government in due course of law, and made over to the Company for its use.

5. Of the land thus to be taken, so much only as shall be made over to the Company on account of any extensions, diversions, sidings or stations, previous to the date fixed for the completion of the line, shall be paid for by the Government; all land made over by the Government to the Company on any other account before that date, or any account whatever after that date shall be paid for by the Company.

6. The Government to *complete the Road in a manner suitable for an ordinary metalled carriage road, before handing it over for the use of the Company.*

7. The Company shall submit to the Government drawings and descriptions of the works, machinery, rolling stock, buildings, and other appurtenances of the Railway in such manner as shall from time to time be required by the Government.

Construction.

8. The Company to erect fences and to provide for the passage of roads or paths across the Railway on the level, as directed by the Government, excepting as otherwise specially agreed upon.

9. The Railway to be for a single line, the guage to be four *feet*.

10. An Electric Telegraph to be erected by and at the expense of the Company capable of signalling the arrival and departure of trains in a satisfactory manner. Also suitable Signals, to be approved by the Government, to be erected for working the traffic.

11. The position of all Stations to be approved by the Government; and no Station to be commenced without such approval.

OBSERVATIONS.

NOTE.—*Words printed in italics in the Conditions are to be understood as liable to be varied according to the circumstances of each case.*

1, 2, 3. These Clauses would be varied according to the exact nature of the proposal.

4, 5. It is not desirable to bind the Government to supply land free of cost for any thing but the specific line which the Company engages to execute; and further it will be right to restrict the claim to what is essential for the permanent line and Stations. This will not prevent the Government from acting on the powers it may have under any Act of the Legislature to take land, whenever it may think fit to do so; or from giving any extra grant of free land if it thinks fit.

6. This Clause should specify, so far as seemed essential, what works the Government undertook to execute before handing over the Road or Land to the Company.

7. It will be convenient for the Government to have suitable drawings of all such Railway works; and a general set of Rules on the subject may be framed to ensure uniformity and facilitate comparisons and references.

8. The erection of fences when thought necessary by the Government must be insisted upon. The great expense of cross-ings, otherwise than on the level, makes it proper to stipulate beforehand where they will be required.

9. For branch lines the uniformity of guage need not be insisted on; more particularly where such lines are constructed in districts intersected by large rivers which are not likely to be bridged.

10. An Electric Telegraph may be looked on as essential for working a single line.

11. The Government will commonly have better means than the Railway Company's Agents, of forming a correct opinion as to the best position for Stations.

12. The Company at all times to make such alterations in and additions to their works or rolling stock, &c., as shall be declared by the Government to be necessary to ensure the safety of the public.

12. This Clause in fact merely declares what the Company could be forced to do on an order by a Magistrate, but it seems better to leave the decision of such matters, as far as possible, with the Government.

13. The works to be commenced before the 1*st January* 1863, and the line to be complete and open for traffic before the 1*st January* 1864.

13. It is expedient to allow ample time, so that the Company can have no reasonable cause for not completing the works according to its Agreement.

Working and Maintenance.

14. On the requisition of the Company, a Government Officer to be deputed to inspect the works when completed, and the Government, if satisfied on his report that the line may be opened with safety to the public, shall notify that the line is so opened, and the Company shall not use the line for public traffic till its public opening is thus notified.

14. The official inspection of a line before public opening is an essential precaution in behalf of the public safety.

15. The Company shall, from the date of the opening of the line for traffic, maintain in good order the whole of the earthwork of the said Road, together with all the masonry works appertaining thereto, and the Railway constructed on the half Road-way made over to the Company, with all its works, rolling stock, and appurtenances.

15, 16. It has been thought better, to avoid complications, to make the Company responsible for all the repairs of the road excepting any metalling which the Government will maintain if it pleases. An allowance is made to the Company for maintenance by a subsequent Clause.

16. The Government, so long as it may think fit to maintain the half of the Roadway not occupied by the Railway, as a metalled road, shall pay for all charges on account of such maintenance, and the Company shall only be responsible for the charges on account of the earthwork and masonry works as aforesaid, but not for the metalling.

17. If it be found necessary, after the line is opened for traffic, to make any additions or alterations to the earthworks, or to the masonry or timber bridges, or culverts, on the road, not being such as would have been fairly included in, or incident on, the maintenance of the Road had it been used as an ordinary carriage road only, all such alterations and additions shall be at the cost and risk of the Company alone; but no such alterations or additions shall be made without the consent of the Government being first obtained.

17. This stipulation seems essential in the case of the transfer of existing roads to a Company. The Government cannot be reasonably expected to accept the risk of re-constructing the masonry works of the Road, which must be taken as it stands, subject to any special stipulations made at the outset.

18. All engines, carriages, and waggons of all sorts used on the line to be of good and solid construction, and to be subject to survey and approval by a Government Officer before they are permitted to be used on the opened line.

18, 19. These Clauses are introduced to enable the Government to interfere if a line is badly worked.

19. The Company to provide for the service of the line all such establishments of all descriptions whether of clerks, engine drivers, guards, signalmen, pointsmen, gatesmen, police, and so forth, as shall be necessary for the working of the traffic and the security of the public.

20. The Bye-laws and Regulations of the Company affecting the public use of the Railway to be submitted for approval to the Government before they are put in force.

20. Powers will be given, under the general Act, to legalize the Bye-laws and Regulations, as in the case of the guaranteed Railway Companies.

21. The Company to run at least one train with passenger carriages of all classes each way every day, along the whole of the opened line, and at an average speed of not less than *twelve* miles an hour, including stoppages.

21. The speed to be fixed as a minimum would be liable to vary, but it should invariably be made to include stoppages, or the condition will be futile.

22. The passenger carriages to be of at least *two* classes, *both* covered over head, and one closed with glass windows.

22. This Clause too will be liable to variation.

23. Tariff of charges. The Tariff of charges to be *not higher than the lowest Tariff in use on any portion of the Bengal Division of the East Indian Railway, at the time of the opening of the proposed line;* and the classification of Passengers and Goods, and the general subsidiary rules under which the charges are made, to be as nearly as possible similar to those in force for the *Bengal Division of the East Indian Railway.*

23, 24. The conditions determining the regulation of the Tariff must greatly depend on circumstances, but a reference to the Tariff of the main line of Railway, in connexion with which any branch is contemplated, will commonly be convenient. Under the general Act it is proposed to enable any individual to sue the Company for any personal damage he may suffer from any breach of these conditions, and this will of course suffice to protect the public from overcharge or other ill-treatment by the Company's servants.

24. The Company to submit from time to time to the Government a complete statement of the Tariff of charges of all descriptions and to be bound to correct any thing in the Tariff not authorized by these conditions.

25. A list of all fares and tolls, duly certified by a responsible Officer of the Company, shall be exhibited at every Station where such fares or tolls shall be payable.

25. This will be made obligatory in the general Act, but may usefully be introduced here also.

26. On the payment of the proper fares or tolls, all persons or Companies shall be entitled to use the Railway, or travel thereon, to send goods thereby, and to run properly constructed engines and carriages thereon, under suitable regulations to be approved by the Government; and the fares and tolls shall be levied (excepting as provided hereinafter) at the same rates on all persons whatever using the Railway, and, unless with the sanction of the Government, no special advantages not conceded to the public generally shall be given directly or indirectly to any one individual or firm in any form.

26. Under the general Act it will be necessary to state in these conditions to what extent the public is entitled to use the Railway. The latter part of the Clause is usual in English Railway Acts.

27. Government subvention. On the completion of the works being certified under Clause 14, the Government shall pay to the Company a sum equivalent to the Import duty that shall have been paid on the quantity of permanent way material (that is to say, rails, chairs, and fixings) actually used and in place on the line on its public opening, and such sum shall be calculated at the rates of duty charged for such material when imported as ascertained from the Custom House Receipts, and on the said actual quantity in place, as certified by a Government Officer to be deputed to ascertain the same.

27. To admit the Railway material for these Companies duty free might lead to complications, and would open a door for abuses. The system proposed to be followed by this Clause will give the Company substantial relief from the Import duty on the great bulk of the iron work, and will, it is believed, obviate all inconveniences. The payment will be a Public Works charge.

28. The Company shall receive from the Government a subvention of 125 Rupees per mile of Railway open for traffic, to be paid annually, reckoning from the date of the opening of the line for public traffic, as a contribution towards the cost of the maintenance of the said Road as agreed under Clause 15.

28. A fixed sum should be named to obviate disputes. It may be calculated fairly at the entire probable cost of maintenance of the Road as a metalled road, less the half cost of the mere metalling, which the Government will still have to provide. The sum would also be liable to vary according to circumstances.

29. As soon as the declared dividends or net profits of the Company in respect of the Capital Account of the Railway shall amount to 5 per cent. on such Capital or upwards for two years consecutively, or for four half-years if the profits are declared half-yearly, the above subvention shall cease and not be afterwards renewed.

29. The grant-in-aid for maintenance may fairly cease when the Company finds that its returns amount to 5 per cent.

30. Government Service. Officers and Soldiers and their families and Camp-followers, and Police and their Prisoners, to be carried on the requisition of a proper authority at fares reduced by a deduction of one-third on the ordinary fares on the line. The Government shall declare who is a proper authority within the meaning of these special conditions.

30, 31, 32. These Clauses should be carried out as regards Troops under general rules which should be framed in communication with the Quarter-Master General of the Army, and assimilated, as far as posible, with those in force on the guaranteed lines. The rules for Police should be analogous.

31. All public baggage, stores, arms, ordnance, ammunition, and the like, also Government horses and cattle dispatched under proper authority; also the regulated amount of private baggage belonging to any Officers, Soldiers, or Police travelling under proper authority; to be carried at rates reduced in like manner by a deduction of one-third on the general charges for Goods on the proposed line. So far as practicable, Troops and Police travelling on the line shall be bound to assist in the loading and unloading of baggage and stores transported with them or for their use.

32. The Government to be entitled to claim the use of the whole of the means of transport of the Company for the conveyance of Troops or Police on an emergency to be duly declared by proper authority at the abovenamed rates.

33. The Company shall carry free of charge by every train all mails committed to its care, also any persons in charge of the mails. The Company shall also provide without charge, after due notice, a vehicle, or portion of a vehicle, to be approved by the Government, properly fitted up for the special use and business of the Post Office. But all accommodation for the Post Office at Stations on the line shall be provided by the Government.

33. The Government will invariably insist on the mails being carried free on all Indian Railways.

34. The Company to permit the Government to erect at any time and to maintain a line of Telegraph within the land made over to the Company for the Railway without any payment for compensation for the use of such land.

34. The convenience of a Railway in inspecting and repairing a Telegraph line is very great; and this provision has been inserted to enable the Government to avail itself of a right it may wish to exercise.

35. The Company to give all reasonable facilities and information to Officers appointed by the Government to inspect the line and rolling stock as well as all Stations and other buildings and all things connected with the working of the Railway.

Government Inspection.

35, 36, 37. The general Act will empower the Government to appoint Inspectors, and give suitable powers for ensuring proper facilities for their inspections and for enforcing their recommendations in behalf of the public security.

36. On the report of a Government Inspector that any thing has been done or has been omitted to be done by the Company or its Agents contrary to these special conditions, the Government may call upon the Company to make good the defect within a stated time, and any neglect to comply with a requisition so made shall be held to be a specific breach of covenant on the part of the Company.

37. In the event of a Government Inspector reporting that the line, or any part of it, or any building, or any part of the rolling stock, or any other thing connected with the working of the Railway cannot continue to be used with proper regard to the rights or the safety of the public, the Government may prohibit the use of such thing, and the Company shall immediately abstain from the use of any thing the use of which has been so prohibited.

38. The Company shall deposit with the Government, before it is permitted to occupy the half Roadway to it, or any part of it, the sum of Rs. 60,000, being 10 per cent. on the estimated amount of the Company's outlay, for the construction of the works, and the provision of the rolling stock, required for the proposed Railway, as security for the proper fulfilment of the conditions of the agreement with the Government.

Deposit of Caution Money.

38, 39, 40, 41. The deposit of a sum as security will also be ordered by the general Act, which will further provide that such deposit will be available in certain cases to pay for preliminary expenses, or expenses contingent on taking up land for the Company.

39. The deposit shall be made in a manner to be approved by the Government, and may be in

Government or other approved securities. All interest accruing thereon shall belong to the Company, excepting as hereafter declared in the event of any forfeiture of the deposit taking place.

40. The deposit to be re-paid by the Government to the Company in portions of one-fourth, proportionally to the progress of the works, as certified by the Government Inspector. The last fourth shall not be re-paid till the line is duly opened for traffic.

41. In the event of the works not being completed within the now period agreed upon, or within any further extended period that the Government may allow, any portion of the deposit remaining in the hands of the Government, with all interest accrued thereon, and which shall not have been paid over to the Company, shall become the property of the Government.

42. This term may conveniently be fixed in all cases, unless for any special cause a shorter is proposed.

42. The concession of the half Roadway, and of all land that shall be made over to the Company for its use free of cost, shall, unless otherwise specially agreed, be for a term of ninety-nine years, commencing from the 1*st January* 1863 and extending to the 31*st December* 1961.

Rights of property.

43. On the lapse of the term, the Government, if it had given no other aid than the necessary land free of cost, would commonly not desire to claim more than the land and buildings, &c., fixed to the soil; and if the land were not given free, this too might be waved. The Clause however is one that does not greatly affect the interest of the Company.

43. On the expiry of the abovenamed term (unless the Railway shall sooner have become the property of the Government,) the whole of the property in the Railway, including moveables and immoveables of every description, and all things used for the working of the traffic, will pass from the Company to the Government. And the Company shall thereupon give up to the Government in a thorough state of repair the line and its appurtenances with a sufficient quantity of all engines and rolling stock, tools and other appurtenances required for the maintenance of the works and the efficient working of the traffic; and such quantity shall be calculated on the average stock of the Company during the last five years of the term.

44. This power the Government will look on as almost essential in some form.

44. At any time after the expiry of twenty years from the commencement of the term, the Government, on giving one year's notice of their intention, may purchase from the Company the Railway with its engines, rolling stock, tools, and other appurtenances. And the Company shall thereupon give into the possession of the Government in a thorough state of repair the line and its appurtenances with a sufficient quantity of all engines and rolling stock, tools and other appurtenances required for the maintenance of the works and efficient working of the traffic; and such quantity shall be calculated on the average stock of the Company during the five years next preceding the date of the said notice.

45. The application of this Clause would involve a determination of what sum had been properly carried to the Capital Account. If, as is provided in Clause 53, the Government appointed an Auditor, all question as to this would be avoided. Otherwise it might be necessary to have recourse to arbitration to settle the question. The same remarks will apply to all the Clauses in which reference is made to the Capital Account, or to the profits or dividends.

45. The payment to be made by the Government for the Railway if thus taken, shall be at the option of the Company as follows, *viz.*, either the total sum expended by the Company for the construction of the line and the provision of rolling stock, &c., and properly carried to the Capital Account of the Company, together with five per centum on that total sum; or an Annuity for the remainder of the term equal to the average of the profits of the five years next preceding the period of purchase; or an Annuity for the remainder of the term equal to the profits of the last year of those five.

46. At any time within a period of five years after the Railway has been opened for public traffic, the Company may, on giving six months' notice in writing to the Government, withdraw from the further working of the line, or, with the assent of the Government, from the further working of any portion thereof. The Company may in either such case remove all the rolling stock, tools, and other appurtenances used for the traffic or maintenance of the works, also all stores and moveables, all machinery and permanent way material, but not ballast, whether fixed to the soil or otherwise, also all telegraph posts or wires or the like. But all buildings, all masonry brick and earth-works, all bridges and culverts of whatever description, appertaining to the Railway, also all land occupied by the Company and provided by the Government free of cost, with all buildings or structures erected thereon, permanent or otherwise, and all fences, gates, and the like, shall thereupon pass to and become vested in the Government absolutely. Provided also that the Government shall have the option of claiming at any time within six months from the receipt of the notice of the Company to purchase at a valuation any thing which the Company would otherwise have been entitled under this Clause to remove. Nothing so claimed shall be removed or disposed of by the Company.

46. It is expedient to admit of a Company withdrawing from an enterprize, which is liable to be found a commercial failure, and is undertaken mainly at its risk, on liberal terms.

47. The Company, before removing under the last preceding Clause any of the permanent way materials from the line or the part of it from which they propose to withdraw, shall re-pay to the Government (unless in any case it be otherwise specially agreed by the Government) the full sum paid by the Government to the Company on account of such materials under Clause 27 of these special conditions; and if any sum so payable before any such materials may be removed shall remain unpaid for six months after the Company shall have withdrawn from the working of the line or of any part of it as aforesaid, then all the said materials on the line or the part of it so closed for traffic shall pass to and become vested in the Government absolutely, and the Company shall have no further right to claim or remove the same.

47. It is right for the Government to insist on the re-payment of the bonus on the Rails, &c., given under Clause 27, or the Company might be placed in a position of unfair advantage as compared to other importers of iron.

48. If the Company shall not, before the 1*st January* 1864, or within such further period as the Government may hereafter appoint, complete the works, and provide all necessary rolling stock and other conveniences as agreed upon;—

Or if after the opening of the line for traffic default be made at any time in the maintenance or working of the line as agreed under these special conditions, and if the Government shall require the Company to remedy the default or to maintain or work the line as agreed upon, and if the Company shall not within six months from the receipt of such requisition fully comply with the terms thereof;—

Or if the Company shall commit any specific breach of covenant as defined in Clause 36 of these special conditions, and shall continue to commit such breach of covenant, or shall not remedy the consequences thereof within six months after they have been required by the Government to cease from such breach or remedy the consequences thereof;—

Or if the Company shall commit an act of Bankruptcy;—

48, 49. Forfeiture Clauses to provide against breach of contract are essential, and no Company intending to carry out its engagements fairly can object to them if reasonably framed.

Then the Government may enter and take possession of the line, and of all the works, and of all rolling stock brought on to the line, and of all things whatsoever appertaining to the Railway belonging to the Company, and being on land made over to the Company by the Government free of cost.

49. The powers of the Government shall not be exercised under Clause 48 in the event of the default in the opening of the line arising from anything beyond the control of the Company.

50. The whole agreement between the Company and the Government, and the conditions under which the Company shall be placed in occupation of any land by the Government, and under which it shall carry on its business in connexion with the proposed Railway, are and shall at all times be subject to all Acts of the Legislature, now existing or hereafter to be passed, and the Company shall have no claim against the Government in respect of the agreement by reason of any thing ordered or permitted or prohibited by any such Act or Acts.

General Clauses.

50, 51. These Clauses are probably a mere recital of what would under any circumstances be deemed the law, but in the present state of Railway enterprize in India, it is expedient to insert them among the conditions.

51. The Government shall not be liable in any way to make good to the Company any loss or damage sustained by the Company arising out of the present agreement or connected with the constructing, maintaining, or working the Railway, and the entire risk shall rest on the Company alone.

52. The Company shall appoint an Agent to reside at some place in the *Province of Bengal* to be approved by the Government, by whom all notices or communications shall be received in behalf of the Company, and who shall be duly authorized by the Company to act in their behalf in all things concerning the proposed Railway so far as relates to the present agreement.

52. This Clause is necessary to ensure the convenient working of the agreement.

53. The Government, if called on by the Company so to do, shall appoint an Auditor to audit the accounts of the Company, on the understanding that all actual expenses are paid by the Company.

53. Some Companies have asked for this, and there is no objection to it.

54. The Company shall not lease, sell, or otherwise alienate in any manner the Railway or any part of it to any person or Company unless such person or Company shall agree to be bound by all these special conditions, and unless the Government shall consent to such lease, sale, or transfer, and no such lease, sale, or transfer shall be valid, unless with the assent of the Government.

54. The Government acting in this agreement in behalf of the public, it is necessary to secure the interests of the public in the Railway as completely as possible.

From Messrs. J. Borradaile and Co., Agents and Secretaries, Indian Tramway Company Limited, to Secretary to Government of India, Public Works Department,—(dated 2nd June 1862.)

We have the honor to transmit herewith a Prospectus of the Indian Tramway Company Limited.

The Board of Directors in London deputed Mr. Forde, C. E., to visit India on behalf of the Company, and he has just arrived in Calcutta from Bombay and Madras, with the Governors of which Presidencies he has had most satisfactory interviews. He is now desirous to have the views of the Government of India with respect to the project, and to learn what concession they are prepared to make, and we shall feel obliged if you will arrange for an early interview with His Excellency the Governor General.

Mr. Forde will furnish every information required, but we may mention here that the Company only desire such terms from Government as will enable them to raise the Capital.

The following they think would be sufficient for the purpose, and which they hope may be conceded by Government, *viz.*:—

1. Land Free Clause.
2. Materials free of Duty.
3. Protection from Competition.
4. Accounts audited by Government.
5. No interference until profits arrive at 15 per cent. per annum, and then traffic kept down to that.
6. Provisional subvention in one sum or annually of a sum of money equal to that which

would otherwise be incurred in the making and maintenance of a good road.

7. This annual grant or subvention to cease upon each line of Tramway so soon as it shall have yielded for two consecutive years a net profit exceeding 5 per cent.

From LIEUTENANT-COLONEL R. STRACHEY, R. E., Secretary to Government of India, Public Works Department, to MESSRS. J. BORRADAILE AND CO., Agents and Secretaries to the Indian Tramway Company Limited,—(No. 2163, dated 9th June 1862.)

I HAVE the honor to acknowledge the receipt of your letter dated 2nd instant, forwarding a Prospectus of the Indian Tramway Company "Limited," and in reply to state that it will be convenient before proceeding further if you will satisfy the Government that you have received authority from the Company to act as their Agents. On obtaining a sufficient proof of this, the Government will lose no time in replying to your letter.

2. With reference to paragraph 2 of your letter, I am to state that if Mr. Forde will be good enough to submit his request for an interview with His Excellency the Governor General to His Lord-hip's Private Secretary, a time will be fixed for the purpose.

From MESSRS. J. BORRADAILE AND CO., Agents and Secretaries, Indian Tramway Company Limited, to Secretary to Government of India, Public Works Department,—(dated 10th June 1862.)

WE have to acknowledge receipt of your letter dated the 9th instant, and in reply we beg to draw your attention to the accompanying letters from the Secretary to the Board in London both to Messrs. May, Pickford and Co. and ourselves, requesting us to act as Agents for the Company.

Letter from Mr. M. R. Scott, Secretary, dated London, 18th March, to Messrs. May, Pickford and Co.

Letter to Messrs. J. Borradaile and Co., dated London, 12th March 1862.

Note from Mr G. Adie, of May, Pickford and Co., to Mr. F. Schiller, of J. Borradaile and Co., dated Calcutta, 21st April 1862.

2. In a note from Mr. Adie (partner of Messrs. May, Pickford and Co.) to our Mr. Schiller, the former declines to take charge on behalf of the Firm of Messrs. May, Pickford and Co., of any office connected with the scheme.

3. The second part of your letter will be duly communicated to Mr. Forde.

From M. R. SCOTT, Esq., Secretary, Indian Tramway Company Limited, London, to MESSRS. J. BORRADAILE AND CO., Calcutta,—(dated 12th March 1862.)

I AM desired by the Directors of the Indian Tramway Company Limited to address you upon the important subject of introducing Tramways into India to be worked by Cattle or light Locomotive according to circumstances, and to request the favor of your Firm acting for this Company in conjunction with Messrs. May, Mathewson and Co., of your city to form a Committee in Calcutta with powers to add thereto.

The Directors having reserved a proportion of the shares for India will be obliged by your Committee advertising the Company in accordance with the memorandum attached to the enclosed Prospectus, *viz.*, No. 1 twice in the principal papers; No. 2 four times, and No. 3 six times, on such dates and at such periods as may be deemed advisable.

The *Friend of India* to advertise every week No. 1 for three weeks; No. 2 for four weeks, and No. 3 for six weeks, if such be deemed advantageous by the Committee. The Prospectus should be re-printed at Calcutta with the local adaptation as shewn.

You will be good enough to note that the responsibility of the Subscribers is limited to the amount of the deposit of one Rupee per share, which is sufficient for all the purposes required at present, and that as soon as the arrangements with the Government of India are completed, the Shareholders will have the option of taking all or any portion they may please of the shares, or of withdrawing altogether, if so disposed, from the procedure of the undertaking.

The Government of India, as you will see by the enclosed extract from the papers of the 8th instant, have already admitted the necessity of these Tramways or light Railways, and the Directors are satisfied that they will confer great benefits upon the country and the people, and prove highly remunerative to those who embark in them.

The Board will be obliged by your reporting from time to time for their guidance the number and particulars of the application which the Committee may receive.

With the re-printed Prospectus altered so far as the adaptation to your locality, should be printed for issue separate "forms of application," also adapted to your locality as shewn in those now sent you as model.

NOTE.—No. 3 Memorandum will be sent next Mail.

From M. R. SCOTT, ESQ., Secretary, Indian Tramway Company Limited, London, to MESSRS. MAY, PICKFORD AND CO., Calcutta,—(dated 18th March 1862.)

I AM desired by the Board of Directors of the Indian Tramway Company Limited, to address you upon the important subject of introducing Tramways into India to be worked by Cattle or light Locomotive Engine-power according to circumstances, and to request the favor of your Firm acting for this Company in conjunction with Messrs. John Borradaile and Co. of your city to form a Committee *with powers to add thereto in Calcutta.*

The Directors having reserved a porportion of the shares for India will be obliged by your Committee advertising the Company in accordance with the memorandum attached to the accompanying Prospectus, *viz.*, No. 1 three times in the principal papers of your locality; No. 2 six times in the same papers on alternate days, or on such dates and at such periods as may be deemed most judicious for effectually ventilating the Company.

The *Friend of India* to advertise every week until the list be closed, if such be approved by the Committee.

The Prospectus should be re-printed at Calcutta with the alterations and local adaptations as shewn on the one now sent as a model.

You will be good enough to note that the responsibility of the Subscribers is limited to the amount of the deposit of one Rupee per share, which is sufficient for all the purposes required at present, and that as soon as the arrangements with the Government of India are completed, the Shareholders will have the option of taking all or any portion of the shares subscribed for, or of withdrawing altogether from the procedure of the undertaking, if so disposed.

The Government of India, as you will see from the enclosed extract from the papers of 8th and 15th instant, have already admitted the necessity of these Tramways or light Railways, and the Directors are satisfied that they will confer great benefit upon the country and the people, and prove highly remunerative to those who embark in them.

The Board will be obliged by your reporting as early as you can for their guidance the number and particulars of the applications and the amount of deposits received, and they recommend the list being closed within one month after the advertisement appears, unless your Committee think it necessary to extend the time.

The advertisement should appear as soon as possible, and for this purpose duplicate copies are forwarded; No. 1 is the whole Prospectus as adopted by your Committee; No. 2 as sent when adopted also.

The Board have no doubt of your Committee being able to engage the services of an Honorary Secretary who would look to the future remunerative employment when the Company (as it is believed it will at an early date) commence active operations. At the outset specially the Board are anxious that the expenditure should be as moderate as possible, and beg your friendly attention to this point.

From G. Adie, Esq., to F. Schiller, Esq.,—(dated 21st April 1862.)

I have now gone through the papers sent by the Tramway Company, and am confirmed in my opinion that it will not suit us to be upon local Committee. I was glad to learn that you had got a suitable person to act as Honorary Secretary, and as your Firm is accustomed to such business, I am sure it could not have fallen into better hands.

I shall write to the Secretary of the Tramway Company by this Mail, letting him know that you are willing to float the scheme here, and that I am sorry we cannot assist in the operation.

Herewith you have copy of the letter received by us last Mail from the Tramway Company, with the enclosure in same. Their letter to you I fancy was to the same effect, but a copy of ours is sent, in case it may contain any particulars not included in yours.

From Lieutenant-Colonel R. Strachey, R. E., Secretary to Government of India, Public Works Department, to Agents and Secretaries to the Indian Tramway Company Limited,—(No. 2274, dated 16th June 1862.)

In returning the documents noted in the margin, which formed enclosures to your letter of the 10th instant, I am directed to state that the matters submitted by you for the consideration of the Governor General in Council will be dealt with as early as possible.

From Secretary to the London Board of the Indian Tramway Co., dated 12th March 1862, addressed to Messrs J. Borradaile and Co.

From Secretary to the London Board of the Indian Tramway Co., dated 18th March 1862, addressed to Messrs. May, Pickford and Co.

From G. Adie, Esq., to Mr. Schiller.

From Messrs. J. Borradaile and Company, Agents and Secretaries, Indian Tramway Company Limited, to Secretary to Government of India, Public Works Department.—(dated 27th June 1862.)

In continuation of our letter of 2nd instant, and with reference to what passed at the interview with which His Excellency the Viceroy honored a deputation of the Local Board and Mr. Forde, the Engineer of the Company, we are directed by the Board to intimate, for the information of His Excellency, that Mr. Forde has proceeded to make a personal inspection of the following lines, *viz.* :—

Chogdah to Jessore *viâ* Bongong	...	50 miles.
Kishnaghur to Bugoola	...	11 ,,
Chandpoor to Kissengunge	...	20 ,,
Caragola Ghat to Purneah	...	30 ,,
Hadjeepoor to Moozufferpoor	...	35 ,,

Should Mr. Forde's opinion of the suitableness of these lines for the establishment of Tramways confirm the favorable opinion entertained of them by the Local Board, the Board will be prepared to recommend their immediate construction to the Directors in London.

His Excellency is however aware that these lines cannot be undertaken without the grant of certain concessions. The enterprise is novel in this country, and though it is possible that after two or three lines are in successful working, others may be undertaken on terms less advantageous to the projectors, it is believed that at the outset it will not be possible to raise the required capital (in the absence of a guarantee), unless the undertaking should promise great advantage to the subscribers. The Local Board, therefore, venture to hope that the whole of the concessions, indicated in our letter of 2nd June, may, in the case of these lines be granted.

As regards protection against competition, however, we are instructed to state that the Local Board considers the qualified guarantee given by the Government of India on the case of a similar scheme as contained in your predecessor's letter of * * , would be sufficient. Less importance would be attached to this condition, but that the bulk of the capital of the undertaking has to be raised in England, where competing lines have so largely contributed to the unprofitable working of many Railways, and where in consequence Shareholders are naturally anxious to be protected against similar competition.

As it is highly important, in view of the commencement of operations during the ensuing cold season, that the Company should at the earliest date be furnished with the decision of the Government of India as to the required concessions, we hope to be favored with an early reply. Mr. Forde will, if possible, leave for England by the first July Steamer.

We have not the date before us.—J. B. and Co.

From Messrs. J. Borradaile and Co., Agents and Secretaries, Indian Tramway Company Limited, to Secretary to Government of India, Public Works Department,—(dated 19th July 1862.)

With reference to your letter dated 27th June, we have now the honor to inform you that Mr. Forde has personally inspected the following lines for a Tramway, *viz.* :—

Caragola to Kissengunge, 30 miles.

Hadjeepoor to Moozufferpoor, 35 miles.

His opinion is favorable to the construction of Tramway thereon, and the Local Board is prepared to recommend their immediate construction to the Directors of this Company in London, provided His Excellency the Viceroy will grant the concessions referred to in our letter to you, dated 2nd June.

From LIEUTENANT-COLONEL R. STRACHEY, R. E., Secretary to Government of India, Public Works Department, to Officiating Secretary to Government of Bengal, in the Public Works Department,—(No. 3618, dated 18th September 1862.)

I HAVE the honor, by direction of His Excellency the Governor General in Council, to inform you that the Government of India has recently had under its consideration certain proposals made by the Indian Tramway Company, relative to the construction of light Branch Railways in the Bengal Presidency, which have resulted in offers in behalf of the Company to place rails on the roads from Caragola Ghat to Purneah, and from Hadjeepoor opposite Patna to Mozufferpoor in Tirhoot.

2. In dealing with these proposals the Governor General in Council has been guided by the general considerations explained at length in my letter No. 3609 of this date, relative to the proposals of the Indian Branch Railway Company, and it will now only be necessary to inform you that the enclosed draft contains the conditions which the Government of India would be prepared to accord to the Tramway Company, should the Lieutenant-Governor desire to support these specific projects.

3. All the cautions contained in my letter abovenamed will be applicable in the present case, and I am directed to request the Lieutenant-Governor's consideration of the whole subject, and that the Government of India may be favored with any observations he may desire to offer on it.

4. With reference to these proposals, I am to remark that no definitive offer, binding on the Company, has yet been made, nor is their Agent authorized to enter into any final contract.

From LIEUTENANT-COLONEL R. STRACHEY, R. E., Secretary to Government of India, Public Works Department, to Agents and Secretaries, Indian Tramway Company Limited,—(No. 3619, dated 18th September 1862.)

IN reply to your letters dated the 2nd, 10th, and 27th June and 19th July last, making proposals regarding the contemplated operations of the Indian Tramway Company on certain specified roads in Bengal, I am directed to inform you that the Government of that Province has been addressed on the subject, and the terms which His Excellency the Governor General in Council is prepared to accord to the Company have been placed before the Lieutenant-Governor for his consideration. A copy of my letter to the Secretary to Government, Bengal, on this subject, and of the letter referred to therein, is forwarded for your information.

2. His Excellency in Council hopes that the conditions proposed will be acceptable to the Company, and that the promoters of these undertakings will soon find themselves in a position to carry out these works, the successful prosecution of which the Government will look upon as a very important step in the development of the resources of India.

3. The views of the Government of India on the general subject of works of this character have already been explained to you by the Viceroy of the personal interview you had with His Excellency, and what further illustration of them is necessary will, it is hoped, be found in the letters to the Government of Bengal on this subject.

The special conditions proposed for this Company are in all essentials the same as those for the Branch Railway Company, excepting the 48th, which, in the case of the Tramway Company, is as follows :—

48. If the Company shall not, before the 1st January 1866, or within such further period as the Government may hereafter appoint, complete the works, and provide all necessary rolling stock and other conveniences as agreed upon ;—

Or if after the opening of the line for traffic default be made at any time in the maintenance or working of the line as agreed under these special conditions, and if the Government shall require the Company to remedy the default, nor to maintain or work the line as agreed upon, and if the Company shall not within six months from the receipt of such requisition fully comply with the terms thereof ;—

Or if the Company shall commit any specific breach of covenant as defined in Clause 36 of these special conditions, and shall continue to commit such breach of covenant, or shall not remedy the consequences thereof within six months after they have been required by the Government to cease from such breach or to remedy the consequences thereof ;—

Or if the Company shall commit an act of Bankruptcy ;—

Then the Government may enter and take possession of the line, and of the permanent way and of all the works and machinery fixed to the soil, also of all plans, books, and documents relating to the Railway or its working. The Company shall retain possession of all rolling stock on the line, and of all moveable property whatsoever appertaining to the Railway belonging to the Company (excepting plans, books, and documents), and shall be at liberty to remove the same within a reasonable time, unless the Government shall have claimed to purchase the same, or any portion of them, at a valuation which the Government shall have the option of doing. Nothing so claimed shall be removed or dealt with by the Company.

From LIEUTENANT-COLONEL R. STRACHEY, R. E., Secretary to Government of India, Public Works Department, to Agents and Secretaries, Indian Tramway Company Limited,—(No. 2324, dated 19th June 1862.)

HAVING reference to the conversation that took place at the interview between the deputation from the Indian Tramway Company and His Excellency the Governor General on Tuesday last, I am to request that you will be so good as to favor me with copies of any communications that may have been received from the Governments of Madras or Bombay, on the subject of the operations of the Company.

From MESSRS. J. BORRADAILE AND CO., Agents and Secretaries, Indian Tramway Company Limited, to Secretary to Government of India, Public Works Department,—(dated 27th June 1862.)

IN reply to your letter No. 2324, dated June 19th, we have the honor to enclose copy of a

communication which has been transmitted from Madras to Mr. Forde, the Engineer of this Company; he has received no communication from Bombay so far.

From A. J. Arbuthnot, Esq., Acting Chief Secretary to Government, Fort St. George, to Honorary Secretary to the Indian Tramway Company,—(No. 292, dated 3rd June 1862.)

Adverting to the proposals which were submitted to His Excellency the Governor by the deputation of the Indian Tramway Company, which waited on His Excellency on the 24th ultimo, and with reference to your letter of the 28rd ultimo, I am directed by the Governor in Council to inform you that the Government of Madras will be prepared to accede to those proposals to the following extent :—

1*st*.—It will give the land required for the construction of Tramways free of all payment.

2*nd*.—It will exempt from all payment of duty all materials and machinery that may be imported for the Company's works.

3*rd*.—It will guarantee the Company for a certain time, to be settled hereafter, against competing lines.

4*th*.—It will allow the Company to lay their rails upon existing public roads, when these are wide enough to admit of Tramways being constructed on them without interfering with the ordinary traffic, and in cases in which the Government proposes to construct a road, it will be prepared to transfer the construction of such road to the Company, paying to the latter, either at once or by instalments, the amount estimated as the cost of the said road. It will also be prepared to grant to the Company, when one of their lines of rail is laid upon a Government road, a proportion of the amount estimated for its annual maintenance.

5*th*.—The Government will not interfere with the arrangements of the Company until the profits exceed 15 per cent.

6*th*.—All payments from the Government will cease as soon as the profits amount to 5 per cent.

7*th*.—Government will give every information in its possession which may be calculated to aid the Company in carrying on its work.

From Lieutenant-Colonel R. Strachey, R. E., Secretary to Government of India, Public Works Department, to Secretary to Government of Madras, in the Public Works Department, (No. 2453, dated 28th June 1862.)

At a recent interview between His Excellency the Viceroy and the Calcutta Local Committee of the Indian Tramway Company, it was mentioned that His Excellency the Governor of Madras had, in reply to an application from the Agent of that Company, named certain terms on which the co-operation of the Government of Madras in the objects of the Company was promised. A copy of the letter in which these terms were stated is now before His Excellency the Governor General in Council, and he directs me to remark that they appear far more favorable than those he would be disposed to accord to offers so vague as those of the Tramway Company, or than the Secretary of State is likely to sanction. His Excellency is of opinion that in proportion as the proposals of a Company are definite, the terms offered by the Government may, in like degree, be liberal; but that indefinite offers on the part of a Company must of necessity be met by extreme caution on the part of the Government. In the former case the Government of India would be prepared to accord the most favourable terms to encourage Capitalists to come forward to carry out any approved proposal of a definitive character; whereas in the latter case there could be little more said than that the Government would generally be willing to encourage such enterprize, and might be disposed for the present, under ordinary circumstances, to grant the necessary land free of cost. The Government of India has already acted in this sense in dealing with a gentleman who proposed to lay down Rails on a Road in Bengal, and will be ready in like manner to give cordial support to any well considered scheme that the Government of Madras may desire to recommend, within the limits of prudence.

2. His Excellency the Governor General in Council must remind the Government of Madras of the serious financial responsibility that will attend any general promises on the part of the Government to support such undertakings as these, and until some established basis is laid down on which the co-operation of the Government of India can be promised, it will be better that the Madras Government should refer for the approval of the Government of India any proposals of this nature that it may desire to see sanctioned, and that may be likely to involve the outlay of funds not already at its absolute disposal.

From Lieutenant-Colonel R. Strachey, R. E., Secretary to Government of India, Public Works Department, to Secretary to Government of Madras, in the Railway Department, —(No. 3641, dated 18th September 1862.)

Having reference to former correspondence noted in margin, on the subject of the Indian Tramway Company, I am directed to forward, for the information of the Government of Madras, copies of correspondence with the Government of Bengal, and of the conditions approved of by the Government of India for the construction of Branch Railways on certain roads in Bengal.

Government of India's No. 2453, dated 28th June 1862.

2. His Excellency the Governor General in Council observes that any agreements in general conformity with those thus approved for Bengal, into which the Madras Government may desire to enter for the construction of specific lines of Railway, will be sanctioned by the Government of India, unless some financial obstacle stands in the way.

3. The Agent of the Tramway Company has specially proposed to take up a line of Railway on the road leading from the Arconum Junction on the Madras Railway to Conjeveram, a distance of about 22 miles. This proposal the Madras Government will deal with at its discretion.

4. I am further to remark that it will be well to follow as far as practicable the form of the conditions proposed for the Bengal lines in all agreements entered into in Madras, as uniformity in such matters is greatly conducive to convenience. Of course the precise terms of special stipulations will be liable to vary.

5. I am to request particular attention to paragraphs 14 and 15 of my letter No. 3609 to the Government of Bengal, as explaining the financial bearing of outlay for these objects, and the manner in which the Government of India desires that it may be dealt with.

From Lieutenant-Colonel R. Strachey, R. E., Secretary to Government of India, Public Works Department, to Agent, Madras and Bombay Tramway Company,—(No. 3645, dated 18th September 1862.)

In reply to your letter of 28th July last, respecting Branch Railways proposed to be undertaken by the Tramway Company in Madras and Bombay, I am directed to inform you that the Governments of those Presidencies have been informed that the Government of India will be prepared to sanction any agreement into which those Governments desire to enter, made on the general conditions approved for the Bengal lines. Beyond this His Excellency the Governor General in Council will leave the decision on the specific lines named by you to the Governments of Madras and Bombay, respectively.

From T. Pycroft, Esq., Chief Secretary to Government of Fort St. George, to Secretary to Government of India, Public Works Department,—(No. 460, dated 25th August 1862.)

I am directed by the Governor in Council to acknowledge the receipt of your letter of the 28th June last, No. 2453, on the subject of the terms offered by the Madras Government to the Indian Tramway Company. It is observed that those terms appear far more favorable than His Excellency the Governor General in Council would be disposed to accord to offers so vague as those of the Tramway Company, or than the Secretary of State is likely to sanction. His Excellency the Governor General in Council is of opinion that in proportion as the proposals of the Company are definite, the terms offered by the Government may in like degree be liberal, but that indefinite offers on the part of a Company must of necessity be met by extreme caution on the part of the Government. In the former case the Government of India would be prepared to accord the most favorable terms to encourage Capitalists to come forward to carry out any approved proposal of a definitive character; whereas in the latter case there could be little more said than that the Government would generally be willing to encourage such enterprize, and might be disposed under ordinary circumstances, as had recently been done in one instance in Bengal, to grant the necessary land free of cost.

2. The Madras Government are also reminded of the serious financial responsibility that will attend any general promises on the part of Government to support such undertakings as these, and until some established basis is laid down on which the co-operation of the Government of India can be promised, it will, it is stated, be better that the Madras Government should refer for the approval of the Government of India, any proposals of this nature that it may desire to see sanctioned, and that may be likely to involve the outlay of funds not already at its absolute disposal.

3. In reply to your letter I am instructed with all deference to state that this Government fail to see that the definiteness of the proposals of a Company should be any guide to the Government in determining the principles upon which they would be disposed to act for the encouragement of a particular class of undertakings. It is of importance to Capitalists, or to persons willing to form Companies for the construction of any kind of public works, that they should be aware of the amount of assistance which the Government is proposed to accord to them. If they are to be told generally that the Government would be willing to encourage such enterprizes, this would be too vague a statement to justify the formation of a Company, or the subscription of funds, but if they know exactly the extent to which the Government is willing to go, in encouraging the undertaking, the promoters are in a position to make their calculations with reference to any particular scheme or schemes and to submit them for approval.

4. Nor can the Madras Government perceive in what manner such terms as those offered by them to the Tramway Company could involve them in any "serious financial responsibility." This Government agreed to give the Company the land required for the construction of Tramways free of payment, and to this it would seem the Government of India do not object. They agreed also to exempt from payment of customs duty all materials and machinery that might be imported for the Company's works, and although in promising a remission of customs duty, this Government no doubt from oversight exceeded their powers, yet the amount of duty that would have to be remitted on *materials* would not be large—and *machinery of all kinds* is at present free of duty. Beyond this, this Government only engaged that *in cases in which they proposed to construct a road*, they would be prepared to transfer the construction of such road to the Company, paying them either at once or by instalments the amount estimated as the cost of the road, as also that when one of the Company's lines were laid upon a Government road, the Government would grant the Company a proportion of the amount estimated for its annual maintenance.

5. It will be remarked that the Government did not bind themselves to construct any road or roads that the Company might wish to have constructed, but simply that when the Government for their own purposes had resolved to make a road on a line where the Company were desirous of running a Tramway, the Government would make over the construction of such road to the Company, paying them the cost at which they would have had to construct it themselves. Such road would of course have to be estimated for, entered in the Public Works Budget, and provided for out of the Budget allotment or the funds "absolutely at the disposal of this Government" just like any other road, and without reference to the fact of its being intended to carry a Tramway. The total amount assigned for the construction of Public Works in any one year would not be exceeded, and if—which would rarely be the case—the cost of the road should exceed that which it

is within the competence of this Government to sanction, and the Government of India to whom the project would have to be submitted should see fit to disallow the work, of course it would not be undertaken.

6. With this explanation, I am directed to solicit information whether it is the wish of the Supreme Government that this Government should recall the terms already offered to the Tramway Company. They will of course be prepared to refer to the Government of India, as directed in the conclusion of your letter, in respect to any similar applications which may be made from any other quarter hereafter.

From Lieutenant-Colonel R. Strachey, R. E., Secretary to Government of India, Public Works Department, to Chief Secretary to Government of Madras, in the Railway Department,—(No. 3762, dated 26th September 1862.)

Your letter No. 460, dated 25th August, having been submitted to His Excellency the Governor General in Council, I am directed in reply to observe that, after the full exposition of the views of the Government of India relative to the nature of the arrangements that in its estimation might properly be made with the Tramway Company, contained in the correspondence sent to the Madras Government with my letter No. 3641, dated 18th September 1862, His Excellency in Council believes that no further general discussion of these matters will now be necessary.

2. At the same time, with reference to the observations contained in your letter under acknowledgment, I am to remark that the Government of India continues to consider it to have been unadvisable that general pledges, including a guarantee against competing lines, should have been given to any one Company, as such pledges might hamper the Madras Government in the event of more favorable terms being proposed at any future time and for any special project, from any other quarter.

3. The Agent of the Tramway Company, however, having now referred his specific proposals regarding the projected lines in the Madras Territory to the Governor General in Council, it may be understood that his direct communications with the Government of Madras have not been looked on by him as conclusive, and no further action seems called for in reference to Mr. Arbuthnot's letter No. 292, dated 3rd June last.

From Major-General W. Scott, Secretary to Government, Bombay, to A. W. Forde, Esq., Agent and Engineer, Indian Tramway Company,—(No. 3976, dated 8th July 1862.)

I am directed by His Excellency in Council to acknowledge the receipt of your letter dated 30th April 1862, with accompaniments, explaining the wishes of the Company you represent, the particular lines of road which are deemed most likely to prove remunerative, and soliciting an expression of the views of this Government in the belief that thereby delay and references will be avoided, and the way cleared for the early commencement of the Company's works.

In reply, I am to inform you that His Excellency in Council views favorably the general object of the Company you represent, and considers the lines upon which you propose to commence operations judiciously selected. I am to add with regard to the line last, on the list, that an application by other parties—to construct a Tramway along it—had been received by Government previous to the date of your letter under acknowledgment.

The terms which the Company ask are—

1*st*.—A free grant of land required.

2*nd*.—A remission of Customs duty on import of materials.

3*rd*.—A protection against competition.

4*th*.—An audit of the Company's Accounts by Government.

5*th*.—That there be no interference with profits until they reach 15 per cent. per annum.

6*th*.—That a sum of money be paid at once, or annually, equivalent to the cost of making and maintaining a good road. This subvention to cease on any line of Tramway so soon as it shall have yielded for two consecutive years a net profit exceeding 5 per cent.

The following are the terms on which the Governor in Council would be willing to consider any specific offer to lay down a Tramway on any of the lines you have specified: you are doubtless aware that the actual conclusion of any agreement, after the terms have been finally arranged, would rest, according to the extent of the liability to be incurred, either with the Bombay Government, or with the Government of India, or Secretary of State in Council:—

1*st*.—That such land as this Government may consider necessary for any sanctioned undertaking shall be made over to the Company gratis.

2*nd*.—The practice in force with respect to Railway Companies in remitting Custom duties on import of materials shall be held applicable to such imports by the Indian Tramway Company, for the construction of any line which is the subject of agreement.

3*rd*.—That the Company's Accounts be audited by Government.

4*th*.—That no interference with the profits derived from working the traffic on any sanctioned line shall take place, unless those profits reach 15 per cent. If profits exceed 15 per cent., a tariff will be introduced which will reduce the profits to 15 per cent.

5*th*.—That on the completion to the entire satisfaction of this Government of any line of Tramway sanctioned by it, a sum of money shall be paid by Government to the Tramway Company equivalent to the cost of making a good ordinary road along the same line and of the breadth required for a Tramway, that amount being determined by Plans and Estimates previously prepared, either by the Officers of Government, or by the Company, and revised by the Officers of Government; the amount to be paid being specified in the Agreement.

6*th*.—Should any sanctioned line of Tramway follow the general course of any existing road, and should Government deem it desirable to comply with the request of the Company that the Tramway be laid on that road, such portion of it as shall be deemed necessary may be made over to the Company in lieu of any cash payment for such portion.

7*th*.—Government to have the option of either paying a capital sum, as provided in the 5th Clause, or interest on such capital sum, at a rate to be fixed in the Agreement, so long as the capital is not paid.

8*th*.—A right of purchasing the Tramway, or any unfinished portion of it, within a fixed period after

operations commence, to be secured to Government on terms to be laid down in the Agreement. This seems the simplest mode of providing for possible failure of the Company to carry out their works to completion.

9*th*.—That the Tramway Company carry Government Mails, Troops, and Stores at fixed maximum rates, and on terms to be specified in the Agreement for construction.

With regard to any promise of protection from competition. I am directed to observe that, in the opinion of the Governor in Council, there can be no practical necessity for any such promise to secure the just rights of the Company, as long as the Company do their duty by the public. In such case it would be the interest, as well as the duty of Government, not to give its active aid to any competition.

Government will have contributed largely to the expense of the line, and will be at least as much interested as the Shareholders in its success. The Shareholders will have, in the amount of the Government contribution to their undertaking, the best possible guarantee against any want of consideration on the part of Government in encouraging rival schemes.

If, on the other hand, the Company give the public just cause of complaint by delay in completing their works; by exacting unreasonably high fares; or otherwise performing the service of the line badly, the Company cannot expect to be aided by Government in keeping a monopoly of the line.

Against competition from parties entering the field at their own cost, and asking no aid from Government, it is out of the power of Government to promise any protection, however devoid of any apparent good reason such competition may be.

Moreover, it will, in a great number of cases, be quite impossible to define what is competition within the meaning intended by the Company. It need not, of necessity, be along the same line, nor along any line between the same places. It will often be from an opposite direction; and indeed this will be the most formidable kind of competition, when the tract of county, the traffic of which is the subject of competition, lies between two independent lines of Railway, or between such a line and the coast, or a navigable river, or great road.

For all these reasons His Excellency in Council could not recommend the conclusion of any agreement which stipulated for protecting the line of a Tramway from competition, and he trusts the Shareholders of the Company will feel that if they secure the amount of aid they ask for from Government, their best security against competition will be an efficient performance of their duty to the public.

Should it be the wish of the Tramway Company to enter into negociations for a specific agreement to construct the lines named in your letter, or any one of them, I am desired to request an early intimation of their wish to do so. For one of the lines (from Dharwar to Sadasewghur), other parties, as above intimated, have already made propositions to the Government here, and to the Secretary of State; and in the absence of any specific propositions from your Company, the Government could not defer the consideration of specific propositions regarding any of the lines from other parties, beyond such time as may be reasonably required by your Company to propose specific terms for the execution of the works required.

In the event of specific propositions for a Tramway along the same, or nearly the same line, being received from more than one party, Government will hold itself at liberty to select whichever offer may appear most advantageous, but will not bind itself to accept the lowest, or any tender; nor to be in any way responsible for any expenses which may be incurred prior to the conclusion of a formal agreement.

Should any general legislation take place in the interim, relative to such works as the Company contemplate, any special agreement must of course be subject to the terms of such general legislation.

No. 3977.

Endorsed by Government of Bombay.

Forwarded for information to the Government of India.

From Lieutenant-Colonel R. Strachey, R. E., Secretary to Government of India, Public Works Department, to Secretary to Government of Bombay, in the Railway Department,—(No. 2868, dated 29th July 1862.)

I am instructed to acknowledge the receipt of the copy of your letter to the Agent of the Indian Tramway Company, stating the terms which the Government of Bombay was disposed to offer to that Company, and to inform you that His Excellency the Governor General in Council generally approves of the nature of those terms excepting the stipulation regarding the Mails, which, in His Excellency's opinion, should be carried free on all Indian Railways or Tramways.

2. I shall have the honor to forward shortly, for the information of the Government of Bombay, the exact terms settled between the Government of India and the Indian Branch Railway Company.

3. The Agent of the Tramway Company is at present at Calcutta, and in communication with the Government of India, and you will be duly informed of the reply given by His Excellency in Council to the Company's proposals.

From A. W. Forde, Esq., Engineer and Agent, Indian Tramway Company Limited, to Secretary to Government of India, Public Works Department,—(dated 28th July 1862.)

As I have received the reply of the Bombay Government to our communication respecting the construction of Tramways in that Presidency, as also the reply of the Madras Government, of both of which I believe you have copies, I would feel obliged by your informing me what steps it is now necessary to take as regards further negociations with the Government of India.

In the answer of the Bombay Government the terms of the concessions are prefaced by stating "that the actual conclusion of any agreement after the terms have been finally arranged would rest, according to the extent of the liability to be incurred, either with the Bombay Government, or with the Government of India, or Secretary of State in Council."

This of course equally applies to the reply of the Madras Government.

As I was in the Bombay Presidency at the time I was requested by the Directors to act as their Engineer and Agent, they conceived that it would save time and further reference, and materially assist the Government of India in their decision

were I first to obtain the views of the Local Governments. It was therefore under these circumstances and with that view that I communicated with the Local Governments on my way to Calcutta.

I now have the honor to enclose, for your information, copy of a letter received from the Secretary to the London Board, addressed to the Bombay Committee. You will see by this that the Directors purpose recommending their Proprietary to commence with a few short lines in each Presidency.

The three they have selected in the Bombay Presidency are feeders to the Bombay, Baroda, and Central India Railway, and which the Government were about to construct as metalled roads. His Highness the Guicowar of Baroda had agreed to contribute the amount required for the portion through his territory, but in agreeing to this he proposed that Tramways should be substituted for ordinary metalled roads.

In a letter received from Major Wallace, the Resident at Baroda, dated 21st April 1862, in answer to one I addressed to him on the subject of these Tramways, he states, "that in answer to a communication lately received from the Government of Bombay, His Highness the Guicowar has consented to co-operate in the construction of feeders to the Railway, and will give assistance in the manner which will appear most suitable to the Government."

I presume therefore that all that remains to be done is to obtain the sanction of the Government of India to the terms named by the Governments of Bombay and Madras.

In the latter Presidency no lines have yet been determined on; but as the line from Arconum junction, on the Madras Railway, to Conjeveram, a distance of about twenty-two miles, is under the favorable consideration of the Madras Committee, I do not think I should be outstepping my instructions in asking the Government of India to include that line in their sanction, and on the general terms named by the Madras Government.

From M. R. Scott, Esq., Secretary, London Board, to the Committee at Bombay of the Indian Tramway Company Limited,—(dated 18th June 1862.)

I am desired by the Directors of the "Indian Tramway Company Limited" to state, with special reference to that portion of the Prospectus (Clause 6, page 2,) which refers to the construction of the several lines which may be approved and selected from among those shown upon the Company's Map, that the Directors do not ask for concessions for all the lines suggested; but that, relying for future further concessions upon the satisfactory manner in which the Company shall have executed the first lines, they would suggest two or three short lines being undertaken simultaneously in each of the Presidencies.

In respect to that of Bombay they would be prepared to recommend to their Proprietary the construction, in the first instance, of the following lines, as possessing the advantages of being speedily and economically constructed, and as being, according to the best authorities, highly remunerative—

1. Palej to Tumbooseer	...	20 miles.
2. Neriad to Dakore	...	22 „
3. Annund to Pitland	...	12 „
In all, Total 54 miles.		

The Directors request your Committee to bring these views before the Government of Bombay, and to communicate the decision and reply of the Government to Mr. Forde at Madras and at Calcutta per Telegram.

They also further request that your Committee will kindly obtain and transmit to them here, as speedily as possible, statistics of the population, produce, and traffic, the latter, both passengers and goods, fairly calculated, in reference to the three proposed lines before mentioned.

They desire at the same time to express their earnest acknowledgment for your prompt and efficient co-operation in this important matter, and they hope to commence active operations this cold season.

From Lieutenant-Colonel R. Strachey, R. E, Secretary to Government of India, Public Works Department, to Secretary to Government of Bombay, in the Railway Branch,—(No. 3342, dated 18th September 1862.)

Having reference to former correspondence noted in margin, on the subject of the Indian Tramway Company, I am directed to forward, for the information of the Government of Bombay, copies of correspondence with the Government of Bengal, and of the conditions approved of by the Government of India for the construction of Branch Railways on certain roads in Bengal.

Circular No. 62, dated 28th June 1862.
Government of Bombay's No 3977.
Government of India's No. 2868.

2. His Excellency the Governor General in Council observes that any agreements, in general conformity with those thus approved for Bengal, into which the Bombay Government may desire to enter for the construction of specific lines of Railway, will be sanctioned by the Government of India, unless some financial obstacle stands in the way.

3. The Agent of the Tramway Company has specially proposed to take up three lines of Branch Railway in connexion with the Bombay and Baroda line, *viz.*, from Palej to Tumbooseer, about twenty miles; from Neriad to Dakore, about twenty-two miles; and from Annund to Pitland, about twelve miles. This proposal the Bombay Government will deal with at its discretion.

4. I am further to remark that it will be well to follow as far as practicable the form of the conditions proposed for the Bengal lines in all agreements entered into in Bombay, as uniformity in such matters is greatly conducive to convenience. Of course, the precise terms of special stipulations will be liable to vary.

5. I am to request particular attention to paragraphs 14 and 15 of my letter No. 3609 to the Government of Bengal as explaining the financial bearing of outlay for these objects, and the manner in which the Government of India desires that it may be dealt with.

From F. Schiller, Esq., Agent, Calcutta and South-Eastern Railway Company, to Officiating Consulting Engineer to Government of Bengal, Railway Department,—(No. 689, dated 15th April 1862.)

On the 26th February I had the honor of addressing you on the subject of the southern extension from Sonapoor *viâ* Barripoor, Mugrah, Joynuggur, Mitregunge, to Bistopoor. I then entertained strong hopes that the Government might be disposed to deviate in this case from the

policy latterly pursued, and extend to the undertaking the 5 per cent. guarantee, thereby enabling the Directors of this Company to raise the capital for constructing so useful and important a feeder to the main line.

2. I have, however, since come to the conviction that the Government cannot well entertain this proposal without modifying its general views with regard to the non-extension of Railway Guarantees, and rather than forego the advantage of so promising a line being carried out, I should feel disposed to make an effort for its construction without any guarantee on the part of the Government, provided that His Honor the Lieutenant-Governor will encourage the promoters by other liberal terms.

Of the capital required for this extension (*viz.* 90 lakhs of Rupees), I can see my way to getting one quarter subscribed in India, and this I think will sufficiently encourage capitalists at home to come forward with the balance required.

3. I therefore venture to ask His Honor the Lieutenant-Governor to support me by sanctioning the land in question on the following terms:—

I. That the land on which the line is to run, and the necessary ground for its construction, be given to the Company free of expense.

II. That in addition to the ground required for the proposed ten Stations, 100 beegahs of land be given at each Station for the purpose of creating a market in close proximity to the Railway.

III. That should the Government hereafter place any other Railway or Tramway Company upon terms more favorable than those mentioned above, the same advantage be extended to the line now proposed.

IV. That the Directors of the line may commence operations, and receive from the Government the land required, so soon as the quarter of of the proposed capital of twenty lakhs of Rupees is paid into the Government Treasury either at home or in Calcutta.

V. That the promoters of the line have the right to extend their line in such directions as may hereafter be considered necessary or desirable, and upon the same terms as those now specified.

VI. That the Company be at liberty to establish its own rates, without any interference on the part of the Government, and without reference to the Tariff existing on lines guaranteed by the Government; it being clearly the interest of the Company to fix their rates as low as possible, and with due regard to the amount of traffic thereby created.

VII. That after the expiry of ninety-nine years, it shall be optional with the Government to take over the line on payment of such a sum as may be considered its fair value.

Minute by the Lieutenant-Governor of Bengal, on the proposed extension of the Mutlah Railway in a southerly direction from Sonapoor.

Mr. Schiller has submitted a proposal to construct a branch line or extension of the Mutlah Railway from Sonapoor to the southward. The contemplated branch would be about 22 miles in length, and would lead into a district productive of a fine description of rice. It will be convenient, in dealing with the proposal, to consider first, the line as regards its direction and general utility; and second, the terms on which the Government might reasonably be expected to countenance the line, so far as its intrinsic merits make it deserving of support.

As to the line proposed, I am of opinion that some such extension is likely to be very advantageous to the southern part of the 24-Pergunnahs, and may be fairly remunerative if constructed with strict regard to economy. But I am not convinced that the precise line suggested by Mr. Schiller is the one that is best suited to the general requirements of the district in question. I should think that a line starting from Sonapoor, passing by Barripoor, and ending at Diamond Harbour, would be decidedly preferable. The length of this line would be only four miles greater than that proposed by Mr. Schiller; it would be more centrically situated as to the general area of the 24-Pergunnahs; and lastly, it would form a valuable means of communication to the anchorage at Diamond Harbour, and probably become the means of affording considerable relief to the Port of Calcutta, and of enabling the largest class of ships to discharge their cargo, in whole or in part, below the great difficulty of the Hooghly, the James and Mary Sand.

There can be, I imagine, no engineering difficulties in the way of such a line.

It is however possible that the anchorage of Kulpee might be considered a preferable point to touch on the Hooghly for such a branch. If it were, Mr. Schiller's line might be accepted so far as it goes; it would however require an extension of 12 miles. The distances from Calcutta would be to Diamond Harbour 36 miles; to Kulpee 44 miles. The distance from Kulpee by water to Diamond Harbour is 8 miles, and quite free from difficulty, so that as a point of arrival or departure for shipping, one would be almost as good as another, and unless there be some advantage in favor of the anchorage at Kulpee, of which I am ignorant, the saving of 8 miles of Railway would seem to turn the scale in favor of the shorter line.

The line then appears to recommend itself, with some such modification as that suggested above, as one that might reasonably be executed. I therefore proceed to consider the manner in which the Government might support the project.

Opposed as I have always been to the system of guaranteed Railways, I should not, under any circumstances, have been disposed to suggest that the Calcutta and South-Eastern Railway Company should be offered the option of executing this extension with a guarantee, under their original contract. Unless in the case of a truly main line of Trunk Railway, there appears to me no sort of ground for staking the credit of the State on the success of an undertaking the profits of which will all go to private individuals. Now, in no sense can this extension be looked on as such a trunk line; and on no consideration can I see that it has any claim to be carried out on a guarantee from the State.

Mr. Schiller, indeed, although he at first seemed to have looked for a guarantee, has now distinctly waived the point, and it may therefore be finally dropped.

The terms proposed by Mr. Schiller as a basis for an arrangement with the Government appear to me to be generally unobjectionable, though some modification in minor points would be essential.

It is in the first place obvious that the line not being a Government work, the land could only be taken up by the Government on proper authority conveyed by an Act of the Legislature. Such an Act is now before the Bengal Council, and when passed, it will at once become applicable to the present case. It follows, therefore, that the provisions of that Act must over-ride any stipulations that might now be made in behalf of the Government.

Now it is amongst other things provided in the draft Act that the Tariff of Tolls, &c., on all Railways, &c., carried out under the Act, shall be subject to regulation by the Government. The propriety of such a provision, as a concession to the public, in return for the aid afforded by the State in behalf of the public, to any individual speculators, can hardly be disputed. Nor is it to be lost sight of that the grant of the right to Mr. Schiller and his associates will in fact give him a monopoly of the Railway business in the 24-Pergunnahs for all time; and the public must be protected against the abuse of such a monopoly. But there seems no reason to anticipate any practical difficulty on the score of a Tariff. A high Tariff, except in the imagination of projectors, is a cause of failure not of success; and if this lesson has been taught any where in an unmistakeable manner, it is to be found in the Traffic Returns of our Indian Railways.

The grant of a large plot of land at each Station, for the purpose of being converted into a market, seems uncalled for: at all events to the extent proposed. The Government would naturally be disposed to facilitate the promotion of the traffic, and such matters as this might safely be left to their own merits.

Neither do I think that the Government could engage to allow future extensions on any specific terms. They must, in the first place, as before remarked, be bound by the Law, whatever it be at the time; and next it is impossible to foresee what may occur in respect to such undertakings as these in the future, or what terms may hereafter be thought proper. But there is no practical doubt that if this line be executed, the proprietors of it will naturally have a stronger claim than other persons to carry out any further extension of Railways in this quarter.

I see no objection to the grant of the land free of cost, with the proviso offered by Mr. Schiller, that the Government should have the option of taking over the works at a valuation at the end of ninety-nine years.

I would further add that an alternative course, which would also appear to me unobjectionable, would be for the Government to construct the earthen-way and bridges at its own cost, and to lease this way to the Railway Company. The rent might be made nominal at first, and be subject to increase after a defined period, to the extent of say 5 per cent. on the cost of the earthen-way to Government, together with the ordinary Land Revenue; but only in such a way as should leave the profits of the Railway Company at a minimum of 10 per cent. Under such an arrangement, the Government would step in as ground Landlord at the end of the term of ninety-nine years, for which the lease might be given.

J. P. GRANT.

22*nd April* 1862.

From LIEUTENANT-COLONEL R. STRACHEY, R. E., Secretary to Government of India, Public Works Department, to Officiating Joint Secretary to the Government of Bengal, in the Public Works Department, Railway Branch,—(No. 3632, dated the 18th September 1862.)

THE Minute* of Sir J. Grant, regarding the extension of the Calcutta and South-Eastern Railway to the southward, proposed by Mr. Schiller, and the accompanying papers, having been submitted to His Excellency the Governor General in Council, I am directed to inform you that the proposal seems one that the Government might receive favorably on terms not greatly differing from those asked by the projector.

* Received with letter No. 227, dated 26th April 1862.

2. The question of an extension of the guarantee of this Company may be disposed of at once by saying that His Excellency the Governor General in Council considers that aid in this form cannot, under any circumstances that can now be foreseen, be again properly given to any Indian Railway project. It is true that Mr. Schiller has dropped all claim to guarantee, but this explicit declaration of the views of the Government of India on this point may probably be made with advantage at the present time, when numerous schemes for such works have been started.

3. Having reference to the general remarks on the subject of the terms that the Government of India would be disposed to grant to Companies coming forward to construct Railways without guarantee, contained in my letter No. 3609 of this date, His Excellency in Council further makes the following specific comments on the points raised by Mr. Schiller's proposals.

4. Other matters being settled satisfactorily, this Government would make no difficulty as to the provision of the necessary land free of cost. (Proposal No. 1.)

5. The grant of 100 beegahs of land at each Station, for the purpose of creating a market close to the Railway, seems uncalled for. The Government of Bengal would doubtless take all necessary measures to facilitate the formation of suitable marts, when they were found to be required. It is not stated explicitly whether Mr. Schiller desired this land to be given to the Company; but it may be remarked that it would, under any circumstances, be questionable how far this would be politic. On the whole, this does not seem to be a condition that is likely to be insisted on. (Proposal No. 2.)

6. The Government could under no circumstances entertain the proposal to grant more favorable terms than those first agreed upon, in the event of any other persons hereafter receiving more favorable terms. Any agreement when made must be once for all, and cannot be subject to be re-opened. (Proposal No. 3.)

7. The deposit asked for by the Government as security for the due execution of the terms of their agreement by the Company may be fixed at 10 per cent. on the estimated cost of the line, as in the cases of the other Companies, and subject to like conditions as to re-payment and forfeiture. (Proposal No. 4.)

8. There would be no objection to future extensions should the Company desire them; but the Government would not guarantee the Company any particular terms at present, and the claims of the Company to execute any special line, in preference to any other Company proposing any other line with a like object, must be left to be dealt with

under the provisions of the general Act which it is contemplated to introduce. (Proposal No. 5.)

9. As regards the Tariff, the Government is disposed to insist upon some restriction in the way of a maximun, on every line of Railway in which the land is granted free of cost, or taken up under a compulsory process. The Government has a fair right to claim on behalf of the public such a return for the special powers exercised on behalf of the Company. The exact form in which the maximum shall be fixed may better be determined by future negociation. (Proposal No. 6.)

10. But in dealing with this particular line a further consideration presents itself, which must be provided for. The Government of India is quite disposed to co-operate cordially with the Calcutta and South-Eastern Railway Company in giving the Mutlah project every chance of success; and considering the heavy stake the Government has in the undertaking in the shape of the guarantee, a motive of self-interest would alone demand such a line of conduct. It is however necessary to guard other interests, and to be careful that in granting this concession to Mr. Schiller, nothing is inadvertently done to deprive the commerce of Calcutta of any of the possible resources for its expansion or relief that now exist or may hereafter be suggested. And considering that the Calcutta Terminus of the Mutlah line must almost of necessity be the terminus of any line of Railway that might be eventually designed to communicate with any port on the lower part of the Hooghly, it is especially requisite to be careful not to enter into any engagement with the Calcutta and South-Eastern Railway Company, or any Company formed in connexion with them, that could lead to their having a practical power of closing the lower reaches of the Hooghly against Railway communication with Calcutta.

11. His Excellency in Council is disposed to think that this end might be effectively secured by binding the projectors of the present line, and of all other Companies that hereafter may be formed for carrying out Railways in this District, to charge a uniform mileage rate, to be regulated by that fixed from time to time for the Mutlah line under the contract between the Government and the Calcutta and South-Eastern Railway Company. This engagement, however, might be so made as not to be compulsory, unless on the demand of the Government; for a power to vary rates is often useful, and might be exercised fairly, and the only object of the Government would be to interpose to prevent obstruction or unfair dealing. A stipulation should also be made to allow free running powers to other Companies, under such regulation as the Government might think necessary to protect the general interests of the community.

12. The power of purchase after a certain period has elapsed, is one that the Government of India is disposed to consider of great importance, as giving a complete means, not otherwise to be got, of removing all difficulties or misunderstandings in an equitable manner. The Government would also claim the usual right of a ground Landlord to re-enter on the land given free of cost, with all buildings and fixtures, at the end of the term of occupation, which may be taken at ninety-nine years; and a like power of re-entry would be proper in case of breach of contract on the part of the Company. (Proposal No. 7.)

13. The Government will also expect the usual concessions as to the free transport of Mails, and the reduced charges for Troops, &c., and Public Stores.

14. As observed by Sir J. Grant, any agreement will necessarily be subject to the general law.

15. His Excellency in Council is not disposed to interfere further than above explained in dealing with Mr. Schiller's proposal, nor does it seem necessary to advert at present more particularly to the idea of a Railway to Diamond Harbour, as suggested by Sir John Grant. At the same time the question as to the proper terminus of a Railway from Calcutta to the lower part of the Hooghly, whether it should be at Diamond Harbour or Kulpee, is one on which the opinion of persons of experience in the Hooghly might usefully be asked; and an examination of the creek at Diamond Harbour seems worth making, with reference to the possibility of its conversion into a Basin in the event of a Diamond Harbour Railway being ever constructed. His Excellency in Council thinks it probable that Diamond Harbour will be a more proper Hooghly Railway Terminus than Kulpee, and any conclusive evidence of this point would of course be important to Mr. Schiller, as it is observed that he has contemplated a possible extension of the line he has now proposed to Kulpee.

16. The Governor General in Council would not at present be inclined to entertain the proposal that the Government should execute the earth-works and masonry of the roadway of the line, and lease it to the Company.

Government of Bengal.

LEGISLATIVE DEPARTMENT.

The following Bill, as amended by the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations on the 8th November 1862, is hereby published for general information, and will be re-considered after one month:—

A Bill to provide for the registration and supervision of Boats carrying Passengers for hire.

Preamble.

Whereas it is desirable to provide for the registration and supervision of boats carrying passengers for hire in the Provinces subject to the Government of Bengal; it is enacted as follows:—

The Government may declare any District, Port, or place to be under this Act.

I. The Lieutenant-Governor of Bengal may, by Notification in the Government Gazette from time to time, declare that this Act shall have effect within any District, Port, or place within the Provinces subject to the Government of Bengal, and shall in such Notification define the local limits of every such District, Port, or place: and this Act shall be of no effect excepting within the limits so defined.

Who are to be Registering Magistrates.

Interpretation of word "Magistrate."

II. Every Magistrate within the limits of whose jurisdiction this Act shall be in force shall be a Registering Magistrate under this Act: and the word "Magistrate" shall be deemed to include every Officer having the full powers of a Magistrate.

Where this Act is in force, no boat shall ply without being registered in the Office of a Magistrate.

III. No boat shall ply for passengers or carry them for hire in any District, Port, or place where this Act shall be in operation, unless duly registered in the Office of a Magistrate authorised to register boats under this Act. The following particulars shall be entered in a Register which shall be kept by every Magistrate authorised as aforesaid:—

First.—Number of the boat.

Second.—Name and residence of the owner, and of the manjee.

Third.—Number of the crew.

Fourth.—Number of persons the boat is permitted to carry.

Magistrate to fix number of passengers a boat may carry: and refuse registration if boat is unsafe.

IV. When application is made to register a boat, the Registering Magistrate shall determine how many passengers the boat shall be permitted to carry. If any boat is, in the opinion of the Magistrate, unfit for the safe carriage of passengers, he shall refuse to register it.

The registration to be in force for one year: a fee of one Rupee to be payable.

V. The registration under Section III of this Act shall be in force for one year from the date of registry, and no longer. Every change of the owner or manjee within that time shall be forthwith notified to the Magistrate in whose office the boat is registered, who shall amend his register accordingly. A fee of one Rupee shall be paid on registration; and a fee of four Annas shall be paid on every subsequent entry in the course of the year of change of the owner or manjee. For the purposes of this Act the person in whose name a boat is for the time being registered shall be deemed the owner thereof, and the person whose name for the time being appears on the Register as being the manjee of a boat, shall be deemed the manjee of that boat.

Registering Magistrate to furnish owner or manjee with a ticket bearing the number, &c., of the boat.

Ticket to be exposed to view in the boat.

VI. The owner or manjee of every such registered boat shall be furnished by the Registering Magistrate with a ticket or board bearing an inscription in the Vernacular language of the District in the form set forth in the Schedule hereto annexed: and such ticket or board shall be at all times exposed to view in some conspicuous part of the boat to which it refers.

VII. The owner or manjee of a boat plying for passengers or carrying them for hire within the limits of any District, Port, or place where this Act is in force, without being duly registered, or carrying more passengers or having a smaller crew than is stated in the Register, or not having the ticket or board aforesaid duly exposed to view, shall be liable to a fine not exceeding fifty Rupees, and in default of payment to simple imprisonment not exceeding one month. Any Magistrate or Police Officer within the limits aforesaid may seize and detain such boat: and if it be not claimed within ten days, such boat may be sold by order of the Magistrate, and the proceeds applied to payment of the fine, and of the costs and charges incidental to the seizure, detention, and sale, and the surplus (if any), if not claimed within a further period of twenty days, shall be disposed of in the manner hereinafter provided for the disposal of surplus funds

Penalty for plying without being registered or without having the number, &c., duly painted

Boats so plying may be seized, &c.

VIII. All fines imposed under this Act may, in case of non-payment, be levied by distress and sale of the boat or of other goods and chattels of the offender, by warrant of the Magistrate.

Fines how to be levied.

IX. The Magistrate shall, with the sanction of Government, expend for the purposes of local improvement such surplus (if any) as shall remain after defraying all the expenses incident to registration and otherwise incurred by him under the provisions of this Act.

Surplus funds how to be applied

X. This Act shall not apply to any steam vessel or to any vessel or boat exceeding one thousand maunds burden.

Act not to apply to steam vessel, &c
